

compliance management system should ensure continuing compliance with applicable federal and state laws, rules and regulations, as well as internal policies and procedures.

Banks should maintain adequate oversight of deposit advance programs and adequate quality control over those products and services to minimize exposure to potential significant financial loss, reputation damage, and supervisory action. Management should provide the appropriate oversight and allocate sufficient qualified staff to monitor deposit advance programs. Results of oversight activities should be reported periodically to the financial institution's board of directors or designated committee, including identified weaknesses, which should be documented and promptly addressed.

Third-Party Relationships: Because third-party relationships are important in assessing a bank's overall risk profile, the FDIC's primary supervisory concern in reviewing a bank's relationships with third parties is whether the bank is assuming more risk than it can identify, monitor, and manage. Management should allocate sufficient qualified staff to monitor for significant third-party relationships, excessive usage by borrowers, and excessive risk taking by the bank. Therefore, examiners will review the risks associated with all material third-party relationships and activities together with other bank risks. In certain high risk situations, examiners may conduct on-site third-party reviews under specific authorities granted to the FDIC.

Responsible Products To Meet Small-Dollar Credit Needs

The FDIC recognizes the need for responsible small-dollar credit products among consumers. A number of banks are currently offering reasonably priced small-dollar loans at reasonable terms to their customers. The FDIC's 2007 *Affordable Small-Dollar Loan Guidelines* (Guidelines) encourage insured institutions to offer small-dollar loan products that have affordable, reasonable interest rates with no or low fees and payments that reduce the principal balance of the loan.²³ The Guidelines indicate that if structured properly, small-dollar loans can provide a safe and affordable means for borrowers to transition away from reliance on high-cost debt products. The FDIC conducted a two-year case study from 2007 to 2009 that demonstrated that safe and affordable small-dollar

lending is feasible for banks and resulted in a template of important elements for such lending.²⁴ The FDIC encourages banks to continue to offer these products, consistent with safety and soundness and other supervisory considerations, and encourages other banks to consider offering such products as well. Properly managed small-dollar loan products offered with reasonable terms and at a reasonable cost do not pose the same level of supervisory risk as deposit advance products.

Dated at Washington, DC, this 25th day of April, 2013.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Executive Secretary.

BILLING CODE 6210-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Determination and Declaration Regarding Emergency Use of in Vitro Diagnostics for Detection of the Avian Influenza A (H7N9) Virus

AGENCY: Office of the Secretary, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The Secretary of Health and Human Services (HHS) is issuing this notice pursuant to section 564(b) of the Federal Food, Drug, and Cosmetic (FD&C) Act, 21 U.S.C. 360bbb-3(b)(4). On April 19, 2013, the Secretary determined that there is a significant potential for a public health emergency that has a significant potential to affect national security or the health and security of United States citizens living abroad and that involves the avian influenza A (H7N9) virus.

On the basis of this determination, she also declared that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection of the avian influenza A (H7N9) virus pursuant to section 564(b)(1) of the FD&C Act, 21 U.S.C. § 360bbb-3(b)(1), subject to the terms of any authorization issued under that section. The Secretary also specified that this declaration is a declaration of an emergency with respect to in vitro diagnostics as defined under the Public Readiness and Emergency Preparedness (PREP) Act Declaration for Pandemic Influenza Diagnostics, Personal Respiratory Protection Devices, and Respiratory Support Devices signed by then Secretary Michael Leavitt on December 17, 2008.¹

DATES: The determination and declaration are effective April 19, 2013.
