SUPPLEMENTARY INFORMATION: The Department of the Interior, the Utah Reclamation Mitigation and Conservation Commission, and the Central Utah Water Conservancy District have completed evaluating the impacts of the proposed East Hobbie Creek Restoration Project. The Final Environmental Assessment has been completed in conjunction with the June Sucker Recovery Implementation Program, and provides an analysis of the anticipated environmental effects of a proposed restoration effort on a portion of lower Hobbie Creek, near Springville, Utah. This restoration effort is intended to facilitate the recovery of the June sucker, a federally listed endangered species, through improvement of spawning habitat and maintenance of stream flow. The effort analyzed included the potential restoration of approximately 2 miles of stream channel, modification or removal of several existing barriers to fish passage, use of the Utah Lake System Hobbie Creek Valve Station for supplemental stream-flow releases, and enhancement of the existing water supply.

ACTION: Notice of document availability; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability of a draft Conservation Strategy for the Northern Continental Divide Ecosystem grizzly bear (*Ursus arctos horribilis*) population for public review and input. The strategy will be the post-delisting management plan for the NCDE grizzly bears and their habitat. This document is necessary to demonstrate the adequacy of regulatory mechanisms in order to delist this grizzly population.

Grizzly bears are currently federally listed as threatened in the lower 48 States under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), as amended (Act). The Service solicits review and comment from the public on this draft document.

DATES: Comments on the draft revised recovery plan must be received on or before August 1, 2013.

ADDRESSES: An electronic copy of the draft Conservation Strategy for the Northern Continental Divide grizzly bear population is available at <http://www.fws.gov/endangered/species/recovery-plans.html>. Hard copies of the draft strategy are available by request from the Grizzly Bear Recovery Coordinator, U.S. Fish and Wildlife Service, University Hall, Room 309, University of Montana, Missoula, MT 59812; telephone 406-243-4903. Submit comments on the draft Conservation Strategy for the Northern Continental Divide grizzly bear population to the Grizzly Bear Recovery Coordinator at this same address.

SUPPLEMENTARY INFORMATION:

Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the Service's endangered species program.

Conservation Strategy for the Northern Continental Divide Ecosystem of the grizzly bear (*Ursus arctos horribilis*) demonstrates the adequacy of regulatory mechanisms that will remain in place post-delisting to assure the health of this grizzly population. The Conservation Strategy describes the management and monitoring direction to maintain a recovered grizzly bear population in the NCDE and documents the commitment of signatory agencies to the Memorandum of Understanding implementing the Strategy to continue to manage the grizzly and its habitat as per the specifics in the Strategy document. The NCDE Conservation Strategy is the post-delisting management plan for this population and its habitat.
