

notification requests a total quantity of these various fuels rather than specific quantities of individual fuels. The estimated cost is \$2.67 billion.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale of the JP-8 aviation fuel will enable Israel to maintain the operational capability of its aircraft. The diesel fuel and unleaded gasoline will be used for Israeli ground vehicles. Israel will have no difficulty absorbing this additional fuel into its armed forces.

The proposed sale of these three types of fuel will not alter the basic military balance in the region and will provide Israel with the necessary flexibility to balance its individual fuel type needs as the situation requires.

The U.S. vendors are unknown at this time due to the competitive bid process for the supply source(s). There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

(viii) *Date Report Delivered to Congress*: 16 April 2013.

POLICY JUSTIFICATION

United Kingdom—Follow-On Support for Tomahawk Weapon System (TWS)

The United Kingdom (UK) has requested a possible sale of follow-on support for the Tomahawk Weapon System (TWS) to include missile modifications, maintenance, spare and repair parts, system and test equipment, engineering support, communications equipment, technical assistance, personnel training/equipment, and other related elements of logistics support. The estimated cost is \$170 million.

The United Kingdom is a major political and economic power and a key democratic partner of the U.S. in ensuring peace and stability around the world.

The proposed sale of follow-on support will allow the United Kingdom to continue life cycle support of its TWS and maintain operational effectiveness. The United Kingdom requests support for this capability to provide for the safety of its deployed troops, regional

security, and interoperability with the United States. The United Kingdom will have no difficulty absorbing this follow-on support into its armed forces.

The proposed sale of this follow-on support and equipment will not alter the basic military balance in the region.

The principal contractors will be Raytheon Missile Systems Company in Tucson, Arizona; Lockheed Martin in Manassas, Virginia, Valley Forge, Pennsylvania, and Marlton, New Jersey; The Boeing Company in St. Louis, Missouri; BAE North America in San Diego, California; COMGLOBAL in San Jose, California; and SAIC in Springfield, Virginia and Patuxent River, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of one (1) U.S. Government and two (2) contractor representatives to the United Kingdom for the duration of this case.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
