electronic copies of the form and desk reference by contacting Ellen Brown, by telephone at (202) 502–8663, by fax at (202) 273–0873, or by email at DataClearance@ferc.gov.

Type of Respondents: Large FERC-jurisdictional electric public utilities.
*Estimate of Annual Burden:*⁴ The Commission estimates the total Public Reporting Burden for this information collection as:

**FERC FORM NO. 580 (IC13–13–000):
INTERROGATORY ON FUEL AND ENERGY PURCHASE PRACTICES**

	Number of respondents (A)	Number of responses per respondent (B)	Total Number of responses (A) × (B) = (C)	Average burden hours per response (D)	Estimated total annual burden (C) × (D)
Respondents with FACs	37	0.5	18.5	103	1,905.5
Respondents with AACs, but no FACs	10	0.5	5	20	100
Respondents with no AACs nor FACs	35	0.5	17.5	2	35
Total					2,040.5

Despite the changes to the Form 580, burden estimates per response for each entity will not change from previously approved amounts. The burden estimate may vary by utility depending on whether the utility has or does not have an automatic adjustment clause and depending on whether or not those utilities with adjustment clauses allow automatic adjustment of fuel cost.

The total estimated annual cost burden to respondents is \$142,835. [2040.5 hours * \$70/hour⁵ = \$142,835]

The estimated annual cost of filing the FERC Form 580 per response is \$1,742. [\$142,835 ÷ 82 responses = \$1,742/response]

Comments: The Commission seeks public comment on and subsequent OMB approval of the proposed revised information collection. Also, the Commission invites comments on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
