

Conservation, Bureau of Environment, Air Pollution Control Division, on July 12, 2012. This revision consists of updates to transportation conformity criteria and procedures related to interagency consultation and enforceability of certain transportation-related control and mitigation measures. The intended effect is to update the transportation conformity criteria and procedures in the Tennessee SIP. This action is being taken pursuant to section 110 of the Clean Air Act. In the final rules section of this issue of the **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
