

personal identifiers or contact information.

Any associated form(s) for this collection may be located within this same electronic docket and downloaded for review/testing. Follow the instructions at <http://www.regulations.gov>

for submitting comments. Please submit comments on any given form identified by docket number, form number, and title.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Headquarter Air Force Special Operations Command Special Activities Office, 100 Bartley St, Suite 107A, Hurlburt Field FL, 32544-5242, or call (850) 884-3951.

Title; Associated Form; and OMB Number: Air Force Special Operations Command Focal Point Access Control Lists; AF Form 1522; OMB Number 0701-TBD.

Needs and Uses: The information collection requirement is necessary to obtain and record individuals' personal identifiable information when those individuals are granted access to sensitive "need to know" material, known as Alternative Compensatory Control Measures (ACCMs). Personal information collected will include names, Social Security Numbers, DoD ID Numbers, rank/grade/position, office symbol and contact phone numbers. The respondent information will form an online database that will be used to verify access to ACCMs throughout the world for AFSOC active duty, civilian employees, and contractors. Proper verification prevents unintentional compromise of classified material. The AF Form 1522 is not used to collect respondent information, but serves to confirm the respondents have received their ACCM indoctrination. This database will be taken offline and transferred to the Joint Staff when no longer used by AFSOC.

Affected Public: Individuals or households.

Annual Burden Hours: 15.

Number of Respondents: 914.

Responses per Respondent: 1.

Average Burden per Response: 1 minute.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are military contractors requiring access to ACCM material to accomplish their duties or fulfill their military contracts. All personnel information is sent by unit/company

security managers via encrypted email or Joint Personnel Adjudication System to the ACCM access database managers. Social Security and DoD ID Numbers are required to provide unique identifiers in the database and confirm individuals' security clearances. Only the minimum number of people necessary for access management will read or write to the database. By signing the requisite form, individuals confirm that they have received ACCM indoctrination and their information can be entered into the AFCOC ACCM online database. Confirming ACCM access levels is critical to prevent the inadvertent disclosure of classified material.

Dated: May 8, 2013.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Air Force

[Docket ID: USAF-2013-0018]

Proposed Collection; Comment Request

AGENCY: Department of Defense/ Department of the Air Force/ Headquarters, Air Force Safety Center (AFSEC), DoD.

ACTION: Notice.

In compliance with Section 3506(c)(2)(A) of the *Paperwork Reduction Act of 1995*, the Department of the Air Force announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by July 16, 2013.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* Federal Docket Management System Office, 4800 Mark Center Drive, East Tower, Suite 02G09, Alexandria, VA 22350-3100.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to: Air Force Safety Automated System Administrator, HQ AFSEC/SEAC, 9700 G Ave SE., Kirtland Air Force Base, NM 87117-5670.

Title; and OMB Number: Air Force Safety Automated System (AFSAS), OMB Control Number 0701-TBD.

Needs and Uses: Information collected in the AFSAS includes individuals determined to be a factor in an Air Force (AF) or Department of Defense (DoD) mishap. The system meets DoD Instruction 6055.1 series reporting requirements governing aviation, space, weapons, and ground safety. Data collection includes personnel who are involved in a DoD related mishap, or experience an injury, illness or exposure while on a military installation or other areas under military control. It also includes personnel who operate a motorcycle on or off duty and personnel who operate a motorcycle on or off a DoD installation when in a duty status on official business. Data are used for analysis of safety risk and for prevention of mishaps.

Affected Public: Individuals or households.

Annual Burden Hours: 200.

Number of Respondents: 200.

Responses per Respondent: 1.

Average Burden per Response: 1 hour.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

In the case of members of the public, this system collects information from DoD contractors or foreign military determined to be a factor in an DoD or AF mishap. To accurately investigate the mishap, the following categories of data collected can include personal

data, mishap data, occupational illness data, training data, hazard identification data, injury data, exposure data, facility inspection data, assessment/evaluation data, OSHA activity data, explosive site planning data, document hosting and management, job hazard analysis data, and survey assessment data.

Dated: May 9, 2013.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army

Draft Environmental Impact Statement (EIS) for the Implementation of Energy, Water, and Solid Waste Sustainability Initiatives at Fort Bliss, Texas and New Mexico

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: The Department of the Army proposes to implement Net Zero energy, water and waste initiatives by 2020 at Fort Bliss to meet mandates for renewable energy production and greenhouse gas emissions reductions. In doing so, the Army will increase Fort Bliss' energy and water security, supporting the military mission into the future. Fort Bliss would not lose any training capability as a result of Net Zero project implementation. The Proposed Action consists of multiple, related, and interconnected projects to achieve Net Zero goals, comply with federal and Army energy mandates, and meet the Army's energy and water security objectives.

The Army's proposed energy, water, and waste initiatives that could reasonably be expected to move forward in the next three to eight years consist of implementation of conservation policies and procedures (Alternative 2); construction of a water reclamation pipeline (Alternative 3); construction and operation of a waste-to-energy plant (Alternative 4); construction and operation of a geothermal energy facility (Alternative 5); and, construction of dry-cooled concentrating solar power technology (Alternative 6). Alternative 7 proposes implementation of other renewable energy technologies and projects that are compatible with installation planning criteria and address potential future renewable energy, water, and waste technology actions at a programmatic level. If implemented, Alternative 7 actions may

require further National Environmental Policy Act analysis. The Proposed Action initiatives (Alternatives 2 through 7) would work to enhance the overall sustainability and security of Fort Bliss.

DATES: The public comment period will end 45 days after publication of the notice of availability in the **Federal Register** by the U.S. Environmental Protection Agency.

ADDRESSES: Written comments should be addressed to Dr. John Kipp, Fort Bliss Directorate of Public Works, Attention: IMBL-PWE (Kipp), Building 624 Pleasonton Road, Fort Bliss, Texas 79916; email: john.m.kipp6.civ@mail.mil; fax: (915) 568-3548.

FOR FURTHER INFORMATION CONTACT: Please contact Ms. Donita Kelley, Fort Bliss Public Affairs Office, Attention: IMBL-PA (Kelley), Building 15 Slater Road, Fort Bliss, Texas 79916; phone: (915) 568-4505; email: donita.k.schexnaydre.civ@mail.mil.

SUPPLEMENTARY INFORMATION: The Army examined the potential environmental impacts from implementing multiple, related, and interconnected proposed projects that could be taken to implement Net Zero energy, water, and waste initiatives, comply with federal and Army energy mandates, and meet the Army's energy and water security objectives. Not all projects discussed in the Draft EIS would be implemented to the full extent discussed in the document. Technological advancements, legislative changes, and other factors may result in revisions to the proposed projects discussed in the alternatives section.

The proposed projects consist of six action alternatives (Proposed Action, Alternatives 2 through 7). The Draft EIS also analyzes the potential environmental impacts of the No Action Alternative (Alternative 1) and the cumulative impacts of the Proposed Action in combination with other past, present, and reasonably foreseeable future actions.

Potentially significant impacts discussed for the Proposed Action include possible effects to air quality, vegetation, archeological sites, soils, land use, and traffic. Of these, all but land use (as a result of converting training land to developed land) are anticipated to be mitigable to less than significant. Air quality also has potentially beneficial impacts discussed for the Proposed Action, as does energy demand and generation, socioeconomic, water supply sources, water demand, and wastewater reuse. To determine the extent of impacts to

biological and cultural resources, the Army is consulting with the U.S. Fish and Wildlife Service, Texas and New Mexico State Historic Preservation Offices, Tribes, and other consulting parties.

Cooperating Agencies: The US Air Force (Holloman Air Force Base [AFB]) is a cooperating agency on the Draft EIS. Some of the proposed projects considered in the alternatives evaluated could affect Holloman AFB units that use Fort Bliss ranges and airspace for training operations.

Public Meetings and Public Comments: Public meetings on the Draft EIS will be held in Alamogordo, New Mexico, and El Paso, Texas. Notifications of the times and locations for the public meetings will be published in local newspapers and the environmental link on the Fort Bliss Web site <https://www.bliss.army.mil/DPW/Environmental/EISDocuments2.html>.

Native Americans, federal, state, and local agencies, organizations, and the public are invited to be involved in the process for the preparation of this EIS by participating in public meetings and/or submitting written comments on the Draft EIS to the above address by the end of the 45-day public comment period.

Copies of the Draft EIS are available at the following libraries: Alamogordo Public Library, El Paso Main Library, Irving Schwartz Branch Library, New Mexico State University Zuhl Library, Richard Burges Branch Library, Thomas Branigan Memorial Library, and University of Texas at El Paso Library. The Draft EIS may also be accessed at <http://ftblissnetzeroeis.net/index.html> or <https://www.bliss.army.mil/DPW/Environmental/EISDocuments2.html>.
