Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: National Survey of Fishing, Hunting, and Wildlife-associated Recreation (FHWAR) Pre-screener Test.

OMB Control Number: None

Form Number(s): FH-PS(T), FHW-Q1, FHW-W1, FHW-QW1, FHW-Q2, FHW-W2, FHW-QW2, FHW-Q3, FHW-W3, FHW-QW3.

Type of Request: New collection.

Burden Hours: 1,750.

Number of Respondents: 15,000.

Average Hours per Response: 7 minutes.

Needs and Uses: The U.S. Fish and Wildlife Service (FWS) and the U.S. Census Bureau conducted (under separate Office of Management and Budget (OMB) clearance number 1018-0088) the 2011 National Survey of Fishing, Hunting, and Wildlife-Associated Recreation (FHWAR) from

April 2011 through May 2012. The FHWAR is authorized under the Fish and Wildlife Act of 1956 and the Wildlife and Sport Fish Restoration Programs Improvement Act of 2000. The Census Bureau is authorized to conduct the FHWAR under Title 13, United States Code Section 8(b). The FHWAR data, collected approximately every five years, assist Federal and State agencies in administering the Sport Fish and Wildlife Restoration grant programs and provide up-to-date information on the uses and demands for wildlife-related recreation resources, trends in uses of those resources, and a basis for developing and evaluating programs and projects to meet existing and future needs.

The FHWAR is an address-based survey conducted in three waves whose sample is selected from the Master Address File. In 2011, because of limited funding, we had to modify our data collection procedure from computer-assisted personal interviewing (CAPI) to mostly computer-assisted telephone interviewing (CATI) with limited CAPI to stay within budget. In an attempt to collect household phone numbers for CATI, we had the telephone center conduct a telephone research operation and we matched our addresses to a locating vendor. Unfortunately, neither operation had a high success rate in obtaining the correct phone numbers for our addresses. This caused the Wave 1 CATI response rates to plummet. Wave 2 and Wave 3 CATI did better because the majority of the telephone numbers were provided by the respondents in Wave 1.

Because our 2011 methodology for obtaining phone numbers did not work as expected, we (Census and FWS) would like to research new methodologies to collect household phone numbers for our sample addresses through a pre-screener test. The purpose of the test will be to determine what percentage of households will return a mail or Internet questionnaire with a telephone number that reaches the sample address. This proposed research is directly related to the 2011 FHWAR and is vital for future iterations of the survey since the majority of interviewing will continue in CATI which is less expensive than CAPI.

The pre-screener test is a two-part test. The first part of the test is a mail operation that will ask household respondents to complete a pre-screener survey by paper questionnaire or by Internet for the purpose of obtaining household telephone numbers, verifying the sample address, and obtaining general household-level information on

hunting, fishing, and wildlife watching activities. The mail operation will include three panels. The first panel will receive a letter and a self-administered paper pre-screener questionnaire. The letter will ask a household member to complete the paper questionnaire and to return it by mail to the Census Bureau. The second panel will receive a letter with an Internet invitation for a household member to complete the pre-screener on the Internet. The third panel will receive a letter, paper questionnaire, and information on how to complete an interview by Internet. In this panel, the household member is given a choice for conducting the pre-screener by paper or by Internet. We estimate that both the paper and Internet pre-screener will take approximately 5 minutes to complete. If a household does not complete the pre-screener in the requested time frame, we will mail up to two additional packages (that include the same materials as the initial mailing) requesting the household's participation. The sample size for each of the panels will be 5,000 sample households.

The second part of the test is a telephone follow-up operation in which we will verify that the phone numbers collected from the mail and Internet pre-screener either reached, or did not reach, the sample addresses. This telephone interview will last approximately 2 minutes.

Since our methodology for reaching our sample addresses by telephone for the 2011 FHWAR yielded poor results, we need to research and analyze alternative methods to help us obtain household phone numbers for the 2016 FHWAR. If we find a methodology that is successful, we will use the results internally to determine the percentage of pre-screeners needed to obtain the 2016 FHWAR sample workload.

Affected Public: Individuals or households.

Frequency: One-time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C.,

Section 8(b).

Silicon Metal From the People's Republic of China: Final Results and Final No Shipments Determination of Antidumping Duty Administrative Review; 2011-2012

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On February 27, 2013, the Department of Commerce (the "Department") published the *Preliminary Results* of the 2011-2012 administrative review of the antidumping duty order on silicon metal from the People's Republic of China ("PRC").¹ The period of review ("POR") is June 1, 2011, through May 31, 2012. In the *Preliminary Results*, we determined that the sole company under review, Shanghai Jinneng International Trade Co., Ltd. ("Shanghai Jinneng"), did not have any reviewable transactions during the POR. We gave interested parties an opportunity to comment on the *Preliminary Results*, but none were received. In these final results of review, we continue to find that Shanghai Jinneng did not have any reviewable transactions during the POR.

DATES: *Effective Date:* May 20, 2013.

FOR FURTHER INFORMATION CONTACT: Lori Apodaca, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4551.

SUPPLEMENTARY INFORMATION:

Background

On February 27, 2013, the Department published the *Preliminary Results*. We invited interested parties to submit comments on the *Preliminary Results*, but none were received. The Department has conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the "Act").

Scope of the Order

Imports covered by the order are shipments of silicon metal containing at least 96.00 but less than 99.99 percent of silicon by weight. Also covered by the order is silicon metal from the PRC containing between 89.00 and 96.00 percent silicon by weight but which contain a higher aluminum content than the silicon metal containing at least 96.00 percent but less than 99.99 percent silicon by weight. Silicon metal is currently provided for under subheadings 2804.69.10 and 2804.69.50 of the Harmonized Tariff Schedule of the United States ("HTSUS") as a chemical product, but is commonly referred to as a metal. Semiconductor-grade silicon (silicon metal containing by weight not less than 99.99 percent of silicon and provided for in subheading 2804.61.00 of the HTSUS) is not subject
