

be required to submit to random audits and to provide accredited audit reports to MarAd on a scheduled basis.

—Need for and Use of the Information:

The information collected will be used to analyze the applicant's methods and process of instruction in providing information that is comprehensive in scope and consistent with the USCG Model Course. Information arising under training provider audits will be used to ensure that certified training providers remain qualified throughout the certification period. The training provider agreement is necessary to establish an understanding between the agency and the training provider that certain terms must be met in order to hold and maintain MarAd training provider certification. Without this information, MarAd would not be able to offer the benefit of its training provider certification to program applicants. In addition, MarAd training provider certification will assist the USCG in ensuring cruise vessel CVSSA compliance.

—Description of Respondents:

Individuals, partnerships, or corporations seeking training provider certification.

—Annual Responses: Once the Program

is implemented, the agency anticipates between 25–35 submissions each year. Certification is anticipated to span a period of 5 years before expiration and renewal. However, the agency does anticipate the collection of information annually from the same estimated number of training providers seeking to maintain their certification by complying with agency audits.

—Annual Burden: 40 hours per program participant.
