

sponsor's Chief Executive Officer or designee. The objective of the meeting is for FTA and the project sponsor to discuss the overall health of the agency, the status of its project(s), address project issues and discuss potential solutions. Project scopes less than \$100 million may also be declared MCPs at FTA's discretion under the criteria set forth in 49 CFR 633.5.

Construction Grant Agreements will be required for all projects over \$500 million and will be considered for all projects over \$100 million. These construction agreements will: (a) Serve as the legal instrument by which section 5324 funds will be provided to the sponsoring recipient consistent with the Appropriations Act and the interim final rule; (b) describe the project with particularity, and set forth the mutual understandings, terms, conditions, rights and obligations of FTA and the implementing recipient; (c) establish

certain limitations on the Federal financial assistance for the project and the manner in which Federal funds will be awarded and released to the implementing recipient; (d) establish the implementing recipient's obligations to complete the project with a specified amount of Federal funds; and (e) ensure timely and efficient management of the project by the implementing recipient.

Any recipient receiving over \$100 million in Disaster Relief Appropriations Act funds will be required to hire and use independent Integrity Monitors. It is FTA's expectation that such Integrity Monitors will conduct an initial review of all existing procedures and processes for susceptibility to fraud, corruption and cost abuse; recommend and assist in implementing procedures designed to mitigate all risks identified in its initial review; conduct forensic reviews of payment requisitions and supporting

documentation, payments, change-orders, and review for indications of bid rigging and overcharging; provide investigative services, as necessary; conduct periodic, unannounced headcounts of workers to detect and deter the practice of no-show jobs; attend bid openings, scope reviews, and meeting with prospective contractors and vendors to ensure procurements are conducted in accordance with the recipient's rules and regulations and that a "level playing field" is being maintained for all involved; and make recommendations to tighten controls on the procurement process.

In addition, recipients should anticipate a high likelihood of additional scrutiny by the Government Accountability Office (GAO) and the Department of Transportation's Office of the Inspector General (OIG).
