

USDA reviewed the Cotton Research and Promotion Program major program activities and accomplishments, including third-party evaluations of advertising and marketing activities and other functional areas; the results of producer and importer awareness and satisfaction surveys; and data from the Foreign Agricultural Service. USDA also reviewed the results of the Cotton Board's 2011 independent program evaluation, which assessed the effectiveness of the Cotton Research and Promotion Program; the strength of cotton's competitive position; the ability to maintain and expand domestic and foreign markets; increases in the number of uses for cotton; and estimates of a return on investment for stakeholders and qualitative benefits and returns associated with the Cotton Research and Promotion Program. The review report concluded that the 1990 amendments to the Act were successfully implemented and are operating as intended. The report also noted that there is a general consensus within the cotton industry that the Cotton Research and Promotion Program and the 1990 amendments to the Act are operating as intended. Written comments, economic data, and results from independent evaluations support this conclusion.

Although USDA found no compelling reason to conduct a referendum regarding the 1990 Act amendments to the Cotton Research and Promotion Order, some program participants support a referendum. Therefore, USDA will initiate a sign-up period in accordance with the Act. During this sign-up period, eligible producers and importers may sign-up to request such a referendum at the county office of the Farm Service Agency (FSA), or by mailing such a request to FSA. The Secretary will conduct a referendum if requested by 10 percent or more of the number of cotton producers and importers voting in the most recent referendum (July 1991), with not more than 20 percent of such request from producers in one state or importers of cotton.

Current procedures for the conduct of a sign-up period appear at 7 CFR sections 1205.10–1205.30. These procedures will be updated as appropriate prior to the beginning of the sign-up period.

Authority: 7 U.S.C. 2101–2118.

Dated: May 21, 2013.

Rex A. Barnes,

Associate Administrator, Agricultural Marketing Service.

BILLING CODE 3410-02-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2013–0011]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Virus-Serum-Toxin Act and Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the Virus-Serum-Toxin Act and regulations.

DATES: We will consider all comments that we receive on or before July 29, 2013.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!documentDetail;D=APHIS-2013-0011-0001>.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2013–0011, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2013-0011> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information regarding the Virus-Serum-Toxin Act and regulations, contact Dr. Donna Malloy, Section Leader, Policy, Evaluation and Licensing, CVB, APHIS, 4700 River Road Unit 148, Riverdale, MD 20737; (301) 851–3426. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851–2908.

SUPPLEMENTARY INFORMATION:

Title: Virus-Serum-Toxin Act and Regulations.

OMB Number: 0579–0013.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Virus-Serum-Toxin Act (21 U.S.C. 151–159), the Animal and Plant Health Inspection Service (APHIS) is authorized to promulgate regulations designed to prevent the importation, preparation, sale, or shipment of harmful veterinary biological products. These regulations are contained in 9 CFR parts 102 to 124.

Veterinary biological products include viruses, serums, toxins, and analogous products of natural or synthetic origin, such as vaccines, antitoxins, or the immunizing components of microorganisms intended for the diagnosis, treatment, or prevention of diseases in domestic animals.

APHIS issues licenses to qualified establishments that produce veterinary biological products and issues permits to importers of such products. APHIS also enforces requirements concerning production, packaging, labeling, and shipping of these products and sets standards for the testing of these products.

To help ensure that veterinary biological products used in the United States are pure, safe, potent, and effective, APHIS requires certain information collection activities, including, among other things, establishment license applications, product license applications, product import permit applications, product and test report forms, field study summaries, and recordkeeping. These information activities have been approved by the Office of Management and Budget (OMB) under control number 0579–0013.

In addition, in accordance with the regulations in 9 CFR 105.3 and 115.2, APHIS may notify a veterinary biologics licensee or permittee to stop the preparation, importation, and/or distribution and sale of a serial or a subserial of a veterinary biological product if, at any time, it appears that such product may be worthless, contaminated, dangerous, or harmful in the treatment of animals. This notification triggers two information collection activities: (1) After being contacted by APHIS, veterinary biologics licensees or permittees must immediately, but no later than 2 days, send stop distribution and sale notifications to any wholesalers, jobbers, dealers, foreign consignees, or other persons known to have such veterinary biological product in their

possession; and (2) veterinary biologics licensees and permittees must account for the remaining quantity of each serial or subserial of any such veterinary biological product at each location in the distribution channel known to the licensee or permittee. These information collection activities have been approved by OMB under control number 0579-0318.

This notice includes a description of the information collection activities currently approved by OMB under numbers 0579-0013 and 0579-0318. After OMB approves and combines the burden for both collections under one collection (number 0579-0013), the Department will retire number 0579-0318.

We are asking OMB to approve our use of these information activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.963 hours per response.

Respondents: U.S. importers, exporters, and shippers of veterinary biological products; State veterinary authorities; and operators of establishments that produce or test veterinary biological products or that engage in product research and development and their wholesalers, dealers, jobbers, foreign consignees, or other persons known to have any such worthless, contaminated, dangerous, or harmful veterinary biological product in their possession.

Estimated annual number of respondents: 220.

Estimated annual number of responses per respondent: 181.413.

Estimated annual number of responses: 39,911.

Estimated total annual burden on respondents: 78,349 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 22nd day of May 2013.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS-2013-0030]

Notice of Request for Extension of Approval of an Information Collection; Federally Recognized State Managed Phytosanitary Program

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with Federal recognition of a State's plant pest containment, eradication, or exclusion program as a Federally Recognized State Managed Phytosanitary Program.

DATES: We will consider all comments that we receive on or before July 29, 2013.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!documentDetail;D=APHIS-2013-0030-0001>.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2013-0030, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2013-0030> or in our reading room, which is located in

Room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the Federally Recognized State Managed Phytosanitary Program, contact Ms. Diane L. Schuble, National Coordinator for Official Control, Plant Health Programs, PPQ, APHIS, 4700 River Road Unit 26, Riverdale, MD 20737; (301) 851-2334. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Federally Recognized State Managed Phytosanitary Program.

OMB Number: 0579-0365.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to prohibit or restrict the importation, entry, or interstate movement of plants, plant products, or other articles if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS).

As part of this mission, APHIS' Plant Protection and Quarantine (PPQ) program responds to introductions of plant pests to eradicate, suppress, or contain them through various programs to prevent their interstate spread. APHIS' plant pest containment and eradication programs qualify as "official control programs," as defined by the International Plant Protection Convention (IPPC), recognized by the World Trade Organization as the standard-setting body for international plant quarantine issues. "Official control" is defined as "the active enforcement of mandatory phytosanitary regulations and the application of mandatory phytosanitary procedures with the objective of containment or eradication of quarantine pests or for the management of regulated non-quarantine pests." As a contracting party to the IPPC, the United States has agreed to observe IPPC principles as they relate to international trade. However, APHIS will also recognize exclusion programs that are
