

Furthermore, USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this final rule.

AMS is committed to complying with the E-Government Act, to promote the use of the Internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

In addition, the Committee's meeting was widely publicized throughout the spearmint oil industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the October 17, 2012, meeting was a public meeting and all entities, both large and small, were able to express views on this issue.

A proposed rule concerning this action was published in the **Federal Register** on April 15, 2013 (78 FR 22202). A copy of the rule was provided to Committee staff, who in turn made it available to all Far West spearmint oil producers, handlers, and interested persons. Finally, the rule was made available through the Internet by USDA and the Office of the Federal Register. A 15-day comment period ending April 30, 2013, was provided to allow interested persons to respond to the proposal. No comments were received.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: www.ams.usda.gov/MarketingOrdersSmallBusinessGuide. Any questions about the compliance guide should be sent to Jeffrey Smutny at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant matter presented, including the information and recommendation submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** (5 U.S.C. 553) because the 2013–2014 marketing year starts on June 1, 2013, and handlers will need to begin purchasing the spearmint oil allotted under this rulemaking. Further, handlers are aware of this rule, which was recommended at a public meeting. Finally, a 15-day comment period was provided for in the proposed rule.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC–2012–0308]

RIN 3150–AJ22

List of Approved Spent Fuel Storage Casks: MAGNASTOR® System

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct final rule; withdrawal.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is withdrawing a direct final rule that would have revised its spent fuel storage regulations to include Amendment No. 3 to Certificate of Compliance (CoC) No. 1031, NAC International, Inc. (NAC) Modular Advanced Generation Nuclear All-purpose Storage (MAGNASTOR®) System listing within the “List of Approved Spent Fuel Storage Casks.”

The NRC is taking this action because it has received a significant adverse comment for the vendor of MAGNASTOR® in response to a companion proposed rule which was concurrently published with the direct final rule.

DATES: Effective May 29, 2013, the NRC withdraws the direct final rule published at 78 FR 16601 on March 18, 2013.

ADDRESSES: Please refer to Docket ID NRC–2012–0308 when contacting the NRC about the availability of information for this action. You may access information related to this action, which the NRC possesses and is publicly available, by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC–2012–0308. Address questions about NRC dockets to Carol Gallagher; telephone: 301–492–3668; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this final rule.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may access publicly available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Naiem S. Taniou, Office of Federal and State Materials and Environmental Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone: 301–415–6103, email: Naiem.Taniou@nrc.gov.

SUPPLEMENTARY INFORMATION: On March 18, 2013 (78 FR 16601), the NRC published in the **Federal Register** a direct final rule amending its regulations in part 72 of Title 10 of the *Code of Federal Regulations* (10 CFR) to include Amendment No. 3 to CoC No. 1031, MAGNASTOR® System listing within the “List of Approved Spent Fuel Storage Casks.” The direct final rule was to become effective on June 3, 2013. The NRC also concurrently published a companion proposed rule on March 18, 2013 (78 FR 16619).

In the March 18, 2013, proposed rule, the NRC stated that if any significant adverse comments were received, a document that withdraws the direct final rule would be published in the **Federal Register**. As a result, the direct final rule would not take effect.

The NRC received a significant adverse comment on the proposed rule that accompanied the direct final rule; therefore, the NRC is withdrawing the direct final rule. The comment was submitted by NAC International on April 17, 2013 (available at www.regulations.gov by searching on Docket ID NRC-2012-0308). NAC International's comment identified several corrections to the information used by the NRC to develop the proposed Technical Specifications. Specifically, the comment identified revisions to Table B2-4, Bounding PWR [Pressurized Water Reactor] Fuel Assembly Loading Criteria—Enrichment/Soluble Boron Limits, in Appendix B, Approved Contents for the MAGNASTOR® System, of the CoC. This table provides bounding pressurized water reactor fuel assembly loading criteria, in terms of enrichment limits. The comment also identified a typographical error in Table B2-4 which must be corrected in a revision to that table. The NRC considers these revisions to be a significant adverse comment as defined in Section I, Procedural Background, of the direct final rule, because these revisions require a change (other than editorial) to the Technical Specifications.

As stated in the March 18, 2013, proposed rule, the NRC will address the comment in a subsequent final rule. The NRC will not initiate a second comment period on this action.

Dated at Rockville, Maryland, this 16th day of May, 2013.

For the Nuclear Regulatory Commission.

R.W. Borchart,

Executive Director for Operations.
