[Project No. 13630-001]

Lewis County Development Corporation; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 2, 2013, the Lewis County Development Corporation (Lewis County Corp), filed an application for a successive preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Croghan Dam Hydroelectric Project (project) to be located at the existing Croghan Dam, on the Beaver River, in Lewis County, New York. The sole purpose of a preliminary permit, if issued, is to grant the permit holder

priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) An existing concrete gravity dam structure consisting of an 11.5-foot-high by 120-foot-long section, and a 9.5-foot-high by 103-foot-long section; (2) an existing impoundment with a normal water surface elevation of 818 feet mean sea level extending 2.7 miles upstream; (3) a new 75-foot-long by 35-foot-wide powerhouse; (4) a new turbine generator unit with a total installed capacity of 500 kilowatts; (5) a new 13.2-kilovolt transmission line interconnecting with the National Grid; and (6) appurtenant facilities. The proposed project would operate in run-of-river mode and generate an estimated average annual generation of 1,387 megawatt-hours.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9818-3]

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Arkansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of Arkansas' request to revise/modify certain of its

EPA-authorized programs to allow electronic reporting.

DATES: EPA's approval is effective May 30, 2013.

FOR FURTHER INFORMATION CONTACT: Evi Huffer, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1697, huffer.evi@epa.gov, or Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On August 22, 2012, the Arkansas Department of Environmental Quality (ADEQ) submitted an application titled "State and Local Emissions Inventory System" for revisions/modifications of its EPA-authorized programs under title 40 CFR. EPA reviewed ADEQ's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application
