

the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope; and (3) the supplemental program(s) that the NRTL may use. Each of these elements allows the NRTL to rely on other parties to perform activities necessary for product testing and certification.

ITSNA currently has 14 facilities (sites) recognized by OSHA for product testing and certification, with its headquarters located at: Intertek Testing Services NA, Inc., 3933 U.S. Route 11, Cortland, New York 13045. A complete list of ITSNA sites recognized by OSHA is available at <http://www.osha.gov/dts/otpca/nrtl/its.html>.

## II. General Background on the Application and Request

ITSNA submitted an application, dated June 8, 2007 (Ex. 1: ITSNA Application), to expand its recognition to include three additional facilities (sites) located at: 545 East Algonquin Road, Suite F, Arlington Heights, IL 60005 (ITSNA Chicago); 420 North Dorothy Drive, Richardson, TX 75081 (ITSNA Dallas); and 2307 East Aurora Road, Suite B7, Twinsburg, OH 44087 (ITSNA Cleveland). ITSNA later amended its application to remove the ITSNA Cleveland site from the application, and to change the address for the ITSNA Dallas site to 1809 10th Street, Suite A, Plano, TX 75074 (Ex. 2: ITSNA Amended Applications dated 7/22/2009 and 10/20/2009).

On November 6, 2009, ITSNA submitted a letter seeking to relax or remove a special condition of its recognition which states: "All safety test reports for hazardous location products must undergo a documented review and approval at the Cortland testing facility by a test engineer qualified in hazardous location safety testing, prior to ITSNA's initial or continued authorization of the certifications covered by these reports. The above limitations apply solely to ITSNA's operations as an NRTL" (Ex. 3: ITSNA Hazardous Location Letter).

In connection with these requests, NRTL Program staff performed on-site reviews of ITSNA's testing facilities in January 2010 (ITSNA Chicago) and February 2010 (ITSNA Dallas), and recommended expansion of ITSNA's recognition to include these two sites (Ex. 4: ITSNA On-site Review Reports). Additionally, audits of these and other ITSNA NRTL sites determined that ITSNA has the appropriate training programs and controls in place to remove the special condition for testing hazardous-location equipment (Ex. 5: Memorandum Regarding Removal of Hazardous Location Restriction). As a

result, the Agency preliminarily determined that it should (1) expand ITSNA's scope of recognition to include the ITSNA Chicago and ITSNA Dallas sites, and (2) remove the special condition stated above from ITSNA's scope of recognition.

## III. Preliminary Finding on the Application and Request

ITSNA submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file, and the results of the Agency's on-site reviews and other audits, indicate that ITSNA can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to use the facilities at the ITSNA Chicago and ITSNA Dallas sites for NRTL testing and certification. The on-site reviews and audits also indicate that the special condition of ITSNA's recognition is no longer necessary. This preliminary finding does not constitute an interim or temporary approval of ITSNA's application and request. ITSNA corrected the discrepancies noted by OSHA during the on-site reviews, and the on-site review reports describes these corrections (Ex. 4: ITSNA On-site Review Reports).

OSHA welcomes public comment as to whether ITSNA meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL and removal of the special condition of recognition. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in ITSNA's application and request, including pertinent documents (e.g., exhibits) and all submitted comments, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2007-0039.

The NRTL Program staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary whether to grant ITSNA's application for expansion and its request to remove the special condition

of recognition. The Assistant Secretary will make the final decision on granting the application and request. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of this final decision in the **Federal Register**.
