DEPARTMENT OF EDUCATION

Applications for New Awards; School Leadership Program (CFDA Number 84.363A); Correction

AGENCY: Office of Innovation and Improvement, Department of Education.

ACTION: Notice; correction.

SUMMARY: On May 8, 2013, we published in the Federal Register (78 FR 26758) a notice inviting applications

for new awards under the School Leadership Program. This notice corrects a typographical error in the applicant eligibility information for partnership applicants. Eligible applicants are high-need LEAs; consortia of high-need LEAs; and partnerships of high-need LEAs and either nonprofit organizations (which may be community- or faith-based organizations), or institutions of higher education.

DATES: Effective June 4, 2013.

SUPPLEMENTARY INFORMATION:

Correction

In the Federal Register of May 8, 2013, on page 26760, (78 FR 26760), in the middle column under the heading III. Eligibility Information, we correct the first paragraph to read:

“1. Eligible Applicants: High-need LEAs; consortia of high-need LEAs; and partnerships of high-need LEAs, nonprofit organizations (which may be community- or faith-based organizations), or institutions of higher education.”

Program Authority: 20 U.S.C. 6651(b).

**DEPARTMENT OF ENERGY**
**Federal Energy Regulatory Commission**

[Docket No. CP13-478-000]

**Columbia Gas Transmission, LLC;  
Notice of Application**

Take notice that on May 10, 2013, Columbia Gas Transmission, LLC. (Columbia) filed with the Federal Energy Regulatory Commission an application under section 7 of the Natural Gas Act for a certificate authorizing the replacement of 18.52 miles of 20-inch-diameter bare steel pipeline on its Line 1570 between

Columbia's existing Waynesburg Compressor Station (CS) and its Redd Farm Regulator Station in Washington County, PA, with new coated 24-inch-diameter steel pipeline. Columbia also proposes to replace three existing 1,080 horsepower (hp) turbine compressors with a new 4,700 hp turbine compressor at the Waynesburg CS. To transport gas for shippers supporting its proposal, Columbia proposes to use 6,400 hp (of the total 9,400hp) that is proposed in its concurrently filed Smithfield III Expansion Project in Docket No. CP13-477-000. Columbia's proposal is referred to as the Line 1570 Project and is estimated to cost approximately \$121,739,422.00, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions regarding the application should be directed to Fredric J. George, Senior Counsel, Columbia Gas Transmission, LLC, P.O. Box 1273, Charleston, West Virginia, 25325-1273, by phone at 304-357-2359 or by email at [fgeorge@nisource.com](mailto:fgeorge@nisource.com).

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project

should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and seven copies of the protest or
