Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation under section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, on December 19, 2003, based on a complaint filed by Amkor Technology Inc. ("Amkor"). See 68 FR 70836 (Dec. 19, 2003). Amkor alleged a violation of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), by respondents Carsem (M) Sdn Bhd; Carsem Semiconductor

Sdn Bhd; and Carsem, Inc. (collectively, "Carsem," or respondents) in the importation, sale for importation, and sale within the United States after importation of certain encapsulated integrated circuit devices and products containing same in connection with claims 1-4, 7, 17, 18 and 20-23 of U.S. Patent No. 6,433,277 ("the '277 patent"); claims 1-4, 7 and 8 of U.S. Patent No. 6,630,728 ("the '728 patent"); and claims 1, 2, 13 and 14 of U.S. Patent No. 6,455,356 ("the '356 patent").

On November 18, 2004, the ALJ issued a final initial determination ("Final ID") finding no violation of section 337. After reviewing the Final ID in its entirety, the Commission on March 31, 2005, modified the ALJ's claim construction and remanded the investigation to the ALJ with instructions "to conduct further proceedings and make any new findings or changes to his original findings that are necessitated by the Commission's new claim construction." Commission Order ¶ 8 (March 31, 2005). On November 9, 2005, the ALJ issued a remand initial determination ("Remand ID"). The Remand ID made certain findings as to the remanded issues. Specifically, with respect to the issue of infringement, the Remand ID found that (1) claims 1-4, 7, 17, 18 and 20-23 of the '277 patent are infringed by some or all of Carsem's accused imported "Micro Leadframe Packages" ("MLPs") products; (2) claims 1, 2 and 7 of the '728 patent are infringed by some or all of Carsem's accused imported MLP products; and (3) claims 1, 2, 13 and 14 of the '356 patent are not infringed by any of Carsem's accused imported MLP products. Furthermore, with respect to the issue of validity, the Remand ID found that claims 1, 7, 17, 18 and 20 of the '277 patent are invalid under 35 U.S.C. 102(b) as anticipated by certain prior art references, but claims 2-4 and 21-23 of the '277 patent are not; (2) claims 1-4, 7 and 8 of the '728 patent are invalid under 35 U.S.C. 102(b) as anticipated by certain prior art references; (3) claims 1, 2, 13 and 14 of the '356 patent are not invalid under 35 U.S.C. 102(b) as anticipated by certain prior art references; (4) claim 1 of the '277 patent is invalid under 35 U.S.C. 103(a) as obvious in view of a combination of certain prior art references; (5) claims 2-4, 7, 17, 18 and 20-23 of the '277 patent are not invalid under 35 U.S.C. 103(a); (6) claims 3, 4 and 8 of the '728 patent are invalid under 35 U.S.C. 103(a) as obvious in view of a combination of certain prior art references; (7) claims 1, 2 and 7 of the '728 patent are not invalid under 35

U.S.C. 103(a); and (8) claims 1, 2, 13 and 14 of the '356 patent are not invalid under 35 U.S.C. 103(a). Finally, with respect to the issue of the technical prong of the domestic industry requirement, the Remand ID found that Amkor satisfied the technical prong for both the '277 patent and the '728 patent, but did not meet the technical prong for the '356 patent.

Completion of this investigation was delayed because of difficulty in obtaining from third-party ASAT Inc. certain documents relating to ASAT's invention ("ASAT invention") that Carsem asserted were critical for its affirmative invalidity defenses. The Commission's efforts to enforce a February 11, 2004, subpoena *duces tecum* and *ad testificandum* directed to ASAT resulted in a July 1, 2008, order and opinion of the U.S. District Court for the District of Columbia granting the Commission's second enforcement petition. On July 1, 2009, after ASAT had complied with the subpoena, the Commission issued a notice and order remanding this investigation to the ALJ so that the ASAT documents could be considered. On October 30, 2009, the ALJ issued a supplemental ID ("First Supplemental ID"), finding that the ASAT invention was not prior art.

On February 18, 2010, the Commission reversed the ALJ's finding that ASAT invention is not prior art to Amkor's asserted patents, and remanded the investigation to the ALJ to make necessary findings with respect to the issue of validity of the asserted patents in light of the Commission's determination that the ASAT invention is prior art. On March 22, 2010, the ALJ issued a Supplemental ID ("Second Supplemental ID") in which he found that the '277 and '728 patents were invalid in view of ASAT prior art. On July 20, 2010, the Commission determined not to review the ALJ's Remand ID and Second Supplemental ID. As a result, the Commission determined that there is no violation of section 337 in this investigation. Amkor appealed the Commission's decision to the Court of Appeals for the Federal Circuit.

On August 22, 2012, the Federal Circuit ruled on Amkor's appeal reversing the Commission's determination that the '277 Patent is invalid under 35 U.S.C. 102(g)(2), declining to affirm the Commission's invalidity determination on the alternative grounds raised by Carsem, and remanding for further proceedings consistent with its opinion. *Amkor Technology Inc. v. Int'l Trade Comm'n*, 692 F.3d 1250 (Fed. Cir. 2012) ("*Amkor Technology*"). On October 5, 2012,
