

Carsem filed a combined petition for panel rehearing and for rehearing *en banc*. The Court denied Carsem's petition on December 7, 2012, and issued its mandate on December 19, 2012, returning jurisdiction to the Commission.

On January 14, 2013, the Commission issued an Order ("Commission's Order") requesting the parties to the investigation to submit initial comments regarding what further proceedings must be conducted to comply with the Federal Circuit's August 22, 2012, judgment in *Amkor Technology*. The parties filed their initial and responsive submissions.

Having examined the record in this investigation, including the parties' submissions filed in response to the Commission's Order, the Commission has determined to request briefing from the parties on only the following issues, with reference to the applicable law and the evidentiary record:

Whether there is any intervening legal precedent since the issuance of the 2004 Final ID that precludes or warrants the ALJ's determination that Amkor satisfied the economic prong of the domestic industry requirement under section 337(a)(3)(A), and did not satisfy the economic prong under section 337(a)(3)(B). See 19 U.S.C. 1337(a)(3)(A) and (B).

In connection with the final disposition of this investigation, the Commission may (1) issue an order that could result in the exclusion of the subject articles from entry into the United States, and/or (2) issue one or more cease and desist orders that could result in the respondents being required to cease and desist from engaging in unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in receiving written submissions that address the form of remedy, if any, that should be ordered. If a party seeks exclusion of an article from entry into the United States for purposes other than entry for consumption, the party should so indicate and provide information establishing that activities involving other types of entry either are adversely affecting it or are likely to do so. For background, see *Certain Devices for Connecting Computers via Telephone Lines*, Inv. No. 337-TA-360, USITC Pub. No. 2843 Comm'n Op. (Dec. 1994).

If the Commission contemplates some form of remedy, it must consider the effects of that remedy upon the public interest. The factors the Commission will consider include the effect that an exclusion order and/or cease and desist orders would have on (1) the public health and welfare, (2) competitive conditions in the U.S. economy, (3) U.S.

production of articles that are like or directly competitive with those that are subject to investigation, and (4) U.S. consumers. The Commission is therefore interested in receiving written submissions that address the aforementioned public interest factors in the context of this investigation. The Commission also requests briefing as to the following question:

Whether for purposes of our public interest analysis, there are products comparable to the subject articles that are noninfringing products in the U.S. market.

If the Commission orders some form of remedy, the President has 60 days to approve or disapprove the Commission's action. During this period, the subject articles would be entitled to enter the United States under bond, in an amount determined by the Commission and prescribed by the Secretary of the Treasury. The Commission is therefore interested in receiving submissions concerning the amount of the bond that should be imposed.

Written Submissions: The parties to the investigation are requested to file written submissions on the issues specified in this Notice. The submissions should be concise and thoroughly referenced to the record in this investigation. Parties to the investigation, interested government agencies, and any other interested persons are encouraged to file written submissions on the issues of remedy, the public interest, and bonding. Such submissions should address the recommended determination by the ALJ on remedy and bonding issued on November 18, 2004. Complainant and the Commission investigative attorney are also requested to submit proposed remedial orders for the Commission's consideration. Complainant is further requested to provide the expiration dates of the asserted patents at issue in this investigation and state the HTSUS number under which the accused articles are imported. The written submissions and proposed remedial orders must be filed no later than the close of business on Wednesday, June 19, 2013. Reply submissions must be filed no later than the close of business on Wednesday, June 26, 2013. No further submissions on these issues will be permitted unless otherwise ordered by the Commission.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above and submit 8 true paper copies to the Office of the Secretary by noon the next day pursuant to section 210.4(f) of the Commission's Rules of

Practice and Procedure (19 CFR 210.4(f)). Submissions should refer to the investigation number ("Inv. No. 337-TA-501") in a prominent place on the cover page and/or the first page. (See Handbook for Electronic Filing Procedures, http://www.usitc.gov/secretary/fed_reg_notices/rules/handbook_on_electronic_filing.pdf). Persons with questions regarding filing should contact the Secretary (202-205-2000).

Any person desiring to submit a document to the Commission in confidence must request confidential treatment. All such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. See 19 CFR 201.6. Documents for which confidential treatment by the Commission is properly sought will be treated accordingly. A redacted non-confidential version of the document must also be filed simultaneously with the any confidential filing. All non-confidential written submissions will be available for public inspection at the Office of the Secretary and on EDIS.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in sections 210.42-46 of the Commission's Rules of Practice and Procedure (19 CFR 210.42-46).

Issued: June 5, 2013.

By order of the Commission.

Lisa R. Barton,

Acting Secretary to the Commission.

SUPPLEMENTARY INFORMATION:

I. Background: The Army Unemployment Compensation for Ex-Servicemembers (UCX) Claimants' Initiative, funded by the U.S. Department of Labor, Employment and Training Administration (ETA), provides grants to four states to improve strategies for providing reemployment services to Army UCX claimants and for leveraging assets and sharing data across partners. The major goals of the initiative are to create a strong collaborative partnership among the Unemployment Insurance (UI) system, the public workforce system, and the

three components of the Army (active, National Guard, and Reserve) that will support the rapid reemployment of UCX claimants; improve the sharing of UCX data that will lead to improved outreach and better understanding of UCX claimants and their service delivery needs; and increase outreach, exposure to jobs, and reemployment strategies for UCX claimants that fully leverage existing resources with new and innovative service delivery strategies. The period of performance for the grants is from July 1, 2012, to June 30, 2014.

The purpose of the evaluation, funded by the Chief Evaluation Office, is to determine the extent to which the initiative's goals were achieved by each of the four grantee states. The evaluation will examine the services received by UCX claimants and how claimants' employment outcomes changed over the course of the grant period. Policymakers, program administrators, and service providers will gain information about the relative effectiveness of various strategies developed by states, ease of implementation, and suggestions for replication.

This package requests clearance for semi-structured discussions that will take place during a single round of two-day visits to each of the sites in the winter of 2013-2014. The site visits will involve an array of individuals that varies by state based on the projects that each state has decided to implement. Conversations will take place with grantee leaders, staff of an American Job Center, and representatives of the UI system in each state. Other discussants will include a suitable combination of representatives of the Army and other participants in the initiative. The site visit will facilitate an assessment of the progress of these efforts, information gathering, and potential for the delivery of additional in-person technical assistance.

II. Desired Focus of Comments: Currently, the Department of Labor is soliciting comments concerning the above data collection for Evaluation of the Army UCX Claimants Initiative. Comments are requested to:

* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

* Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
