

372–6098. Please cite DFARS Case 2012–D055 Public Meeting.

SUPPLEMENTARY INFORMATION: DoD is interested in opening a dialogue with experts and interested parties in Government and the private sector about the requirements for detection and avoidance of counterfeit electronic parts in DoD contracts. A proposed rule was published in the **Federal Register** at 78 FR 28780 on May 16, 2013. The public comment period closes on July 15, 2013.

The DFARS proposed rule is a partial implementation of the requirements at section 818, entitled “Detection and Avoidance of Counterfeit Electronic Parts,” of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112–81).

The DFARS case would apply only to contractors subject to the Cost Accounting Standards. It addresses the responsibility of DoD contractors for detecting and avoiding the use or inclusion of counterfeit electronic parts or suspect counterfeit electronic parts in items delivered to the Department. In lieu of requiring contractors to establish an entirely new and separate system for avoiding the purchase, and detecting the receipt, of counterfeit or suspect counterfeit parts, DoD plans to use contractors’ existing purchasing systems and quality assurance systems.

In addition, the DFARS case proposes to implement section 833, entitled “Contractor Responsibilities in Regulations Relating to Detection and Avoidance of Counterfeit Electronic Parts,” of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112–239). This provision of law makes the costs associated with counterfeit or suspect counterfeit parts unallowable except in certain limited circumstances.

Individuals wishing to attend the public meeting should register by June 20, 2013, to ensure adequate room accommodations and to facilitate entry to the GSA building. Interested parties may register at this Web site, http://www.acq.osd.mil/dpap/dars/counterfeit_electronic_parts.html, by providing the following information:

- (1) Company or organization name;
- (2) Names and email addresses of persons planning to attend;
- Identify if desiring to make a presentation; limit to a 10-minute presentation per company or organization.

• Last four digits of the social security number for anyone who is not a Federal Government employee with a Government badge, in order to create an attendee list for secure entry to the GSA building.

Attendees are encouraged to arrive at least 30 minutes early to accommodate security procedures.

If you wish to make a presentation, please submit an electronic copy of your presentation to dfars@osd.mil no later than June 24, 2013. When submitting presentations, provide presenter’s name, organization affiliation, telephone number, and email address on the cover page. Please submit presentations only and cite DFARS Case 2012–D055 Public Meeting in all correspondence related to the public meeting. There will be no transcription at the meeting. The submitted presentations will be the only record of the public meeting.

Special accommodations: The public meeting is physically accessible to people with disabilities. Requests for reasonable accommodations, sign language interpretation or other auxiliary aids should be directed to Meredith Murphy at 571–372–6098, at least 10 working days prior to the meeting date.

The TTY number for further information is: 1–800–877–8339. When the operator answers the call, let them know the agency is the Department of Defense; the point of contact is Meredith Murphy at 571–372–6098.

Kortnee Stewart,

Editor, Defense Acquisition Regulations System.

BILLING CODE 5001–06–P

DEPARTMENT OF ENERGY

[FE Docket No. 13–51–LNG]

Freeport LNG Development, L.P.; Application for Blanket Authorization To Export Previously Imported Liquefied Natural Gas on a Short-Term Basis

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on April 19, 2013, by Freeport LNG Development, L.P. (Freeport LNG), requesting blanket authorization to export liquefied natural gas (LNG) that previously had been imported into the United States from foreign sources in a cumulative amount up to the equivalent of 24 billion cubic feet (Bcf) of natural gas on a short-term or spot market basis for a two-year period commencing on July 19, 2013.¹

¹ *Freeport LNG Development, L.P.*, DOE/FE Order No. 2986 (July 19, 2011) extends through July 18, 2013 (FE Docket No. 11–51–LNG).

The LNG would be exported from the existing Freeport LNG Terminal facilities on Quintana Island, Texas, to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. Freeport LNG is requesting authorization both to export LNG to which it holds title on its own behalf and as agent for parties who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., eastern time, July 12, 2013.

SUPPLEMENTARY INFORMATION:

Background

Freeport LNG is a Delaware limited partnership with four limited partners: (1) Freeport LNG Investments, LLP, a Delaware limited liability limited partnership, which owns a 20% limited partnership interest in Freeport LNG; (2) ZHA FLNG Purchaser LLC, a Delaware limited liability company, which owns

a 55% limited partnership interest in Freeport LNG; (3) Texas LNG Holdings, LLC, a Delaware limited liability company and wholly-owned subsidiary of The Dow Chemical Company, which owns a 15% limited partnership interest in Freeport LNG; and (4) Turbo LNG, LLC, a Delaware limited liability company and wholly-owned subsidiary of Osaka Gas Co., Ltd., which owns a 10% limited partnership interest in Freeport LNG. In addition to the limited partners, Freeport LNG has one general partner that manages the company, Freeport LNG-GP, Inc., a Delaware corporation, which is owned 50% by MS GP Holdco, LLC, an entity owned by an individual, Michael S. Smith, and 50% by ConocoPhillips Company. Freeport LNG has its principal place of business in Houston, Texas.

On June 18, 2004, the Federal Energy Regulatory Commission (FERC) authorized Freeport LNG to site, construct and operate the Freeport LNG Terminal on Quintana Island, southeast of the City of Freeport in Brazoria County, Texas. The facilities, completed in June 2008, include an LNG ship marine terminal and unloading dock, LNG transfer lines and storage tanks, high-pressure vaporizers, and a 9.6-mile long send-out pipeline extending to the Stratton Ridge meter station.² On July 1, 2008, FERC issued a letter Order granting Freeport LNG's request to commence service at its Quintana Island import terminal.

On May 28, 2009, in DOE/FE Order No. 2644, DOE/FE granted Freeport LNG authorization to export previously imported foreign-sourced LNG, on its own behalf or as an agent for others, up to a cumulative total equivalent to 24 Bcf of natural gas from the Freeport LNG Terminal to certain countries in Europe and Asia for a two-year period that extended through May 27, 2011. In amendments set forth in DOE/FE Order Nos. 2644-A and 2644-B, Freeport LNG was authorized to export this LNG to any country not prohibited by U.S. law that has capacity to import LNG via ocean-going carrier.

On July 19, 2011, in DOE/FE Order No. 2986, DOE/FE extended this authorization for an additional two years. Specifically, DOE/FE granted Freeport LNG blanket authorization to export previously imported foreign-sourced LNG, on its own behalf or as agent for others, up to a cumulative total equivalent to 24 Bcf of natural gas from

the Freeport LNG Terminal for an additional two-year period that extends through July 18, 2013, to any country with the capacity to import LNG via ocean-going carrier and with which trade was not prohibited by U.S. law or policy.

Current Application

The current Application is filed in anticipation of the upcoming expiration of Order No. 2986 on July 18, 2013, and requests the same type of authorization previously granted in that Order. Freeport LNG therefore requests this blanket authorization to export previously imported foreign-sourced LNG, on its own behalf or as agent for others who hold title to the LNG at the time of export, up to a cumulative total equivalent to 24 Bcf of natural gas from the Freeport LNG Terminal for a two-year period, beginning on July 19, 2013. Freeport LNG is seeking such authorization to export previously imported LNG to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by Federal law or policy. Freeport LNG states that it does not seek authorization to export domestically-produced natural gas or LNG.

Public Interest Considerations

Freeport LNG asserts that the proposed authorization is in the public interest. In support of its Application, Freeport LNG states that section 3 of the NGA provides that application to export natural gas to foreign countries will be authorized unless there is a finding that such exports "will not be consistent with the public interest."³ Freeport LNG states that Section 3 thus creates a statutory presumption in favor of approval of this application, and that parties opposing the authorization bear the burden of overcoming this presumption.

Freeport LNG states that, in its existing authorization to export foreign-sourced LNG granted in Order 2986, DOE/FE determined that there was no domestic reliance on the volumes of imported LNG that Freeport LNG sought to export. As before, the imported LNG that Freeport LNG seeks to export will be surplus to the demands of U.S. markets during the period of requested authorization, and is needed primarily to enable Freeport LNG to economically maintain and operate its Quintana Island terminal. Freeport LNG asserts that, as there is no reliance on domestic supplies, the requested authorization is not inconsistent with the public

interest. Freeport LNG further asserts that this proposed authorization meets the requirements of DOE Delegation Order No. 0204-111, which requires "consideration of the domestic need for the gas to be exported."⁴

Freeport LNG states that the authorization requested will provide commercial flexibility to help ensure the full and continual operation of its LNG import facilities at the Quintana Island terminal. Freeport LNG further states that the proposed export of foreign-sourced LNG will not reduce local or domestic supplies of natural gas.

Freeport LNG emphasizes that the requested authorization will ensure the operational readiness of essential infrastructure at its Quintana Island terminal. Freeport LNG states that, if the continuous cryogenic operations of the terminal facility were interrupted, it would require several weeks to restore the system to operational readiness. Furthermore, if operations were interrupted, Freeport LNG and its Quintana Island terminal would be unable to respond to changes in U.S. natural gas market conditions should those occur. For these reasons, Freeport LNG asserts that ensuring the continuing operation of essential U.S. energy infrastructure is consistent with the public interest.

Environmental Impact

Freeport LNG states that no change to the Freeport LNG Terminal on Quintana Island would be required for the proposed export of foreign-sourced LNG. Thus, according to Freeport LNG, approval of this application will not constitute a federal action significantly affecting the human environment within the meaning of the National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, and no environmental impact statement or environmental assessment will be required.

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and the authority contained in DOE Delegation Order No. 00-002.00L (April 29, 2011) and DOE Redelegation Order No. 00-002.04E (April 29, 2011). In reviewing this Application, DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's

³ 15 U.S.C. 717b(a). Natural gas is defined to include LNG in 10 CFR 590.102(i).

⁴ New Policy Guidelines and Delegations Order Relating to Regulation of Imported Natural Gas, 49 FR 6684 (Feb. 22, 1984).

policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Persons that may oppose this Application should comment in their responses on these issues.

NEPA requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention, as applicable. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590. The information contained in any filing will not be held confidential and will be posted to DOE's public Web site except to the extent confidential treatment is requested and granted.

Filings may be submitted using one of the following methods: (1) E-Mailing the filing to fergas@hq.doe.gov, with FE Docket No. 13-51-LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 13-51-LNG.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. A party seeking intervention may request that additional procedures be provided, such as additional written comments, an oral presentation, a conference, or trial-type hearing. Any request to file additional written comments should explain why they are necessary. Any request for an

oral presentation should identify the substantial question of fact, law, or policy at issue, show that it is material and relevant to a decision in the proceeding, and demonstrate why an oral presentation is needed. Any request for a conference should demonstrate why the conference would materially advance the proceeding. Any request for a trial-type hearing must show that there are factual issues genuinely in dispute that are relevant and material to a decision and that a trial-type hearing is necessary for a full and true disclosure of the facts.

If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Office of Oil and Gas Global Security and Supply docket room, Room 3E-042, 1000 Independence Avenue SW., Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: <http://www.fe.doe.gov/programs/gasregulation/index.html>.

Issued in Washington, DC, on June 5, 2013.

John A. Anderson,

Manager, Natural Gas Regulatory Activities, Office of Oil and Gas Global Security and Supply, Office of Fossil Energy.

DEPARTMENT OF ENERGY

Energy Efficiency and Renewable Energy

State Energy Advisory Board (STEAB); Correction

AGENCY: Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of Open Meeting; Correction.

SUMMARY: The Department of Energy (DOE) published in the **Federal Register** on April 4, 2013, a notice of an open meeting for the State Energy Advisory Board (STEAB). The notice is being

corrected to change the dates of the meeting.

Correction

In the **Federal Register** of April 4, 2013, in FR DOC. 2013-07832, on page 20311, please make the following corrections:

In the **DATES** heading, third column, first paragraph, first line, please remove, "June 25, 2013" and "June 26, 2013" and add in its place add "July 17, 2013" and "July 18, 2013".

In the **ADDRESSES** heading, third column, first paragraph, second line, please remove, "(in the Jefferson Meeting Room)".

Issued in Washington, DC on June 6, 2013.

LaTanya R. Butler,

Deputy Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2010-0014; FRL-9388-6]

Notice of Receipt of Requests To Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw its requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order. **DATES:** Comments must be received on or before December 9, 2013.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2010-0014, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI)
