

Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items under the control of the University of Oregon Museum of Natural and Cultural History, Eugene, OR, that meet the definition of unassociated funerary objects under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American cultural items. The National Park Service is not responsible for the determinations in this notice.

History and Description of the Cultural Item(s)

In 1938, seven cultural items were removed from Courthouse Rock, near Antelope, in Wasco County, OR, during legally authorized excavations by archeologists from the University of Oregon. The cultural items were found in direct association with a burial pit exhibiting signs of cremation. Two burial pits were excavated, but human remains were only removed from Pit #2. The human remains and associated funerary objects from Pit #2 are the subject of a separate Notice of Inventory Completion published in the **Federal Register**. The seven unassociated funerary objects from Pit #1 are two points, four scrapers, and one yellow pigment sample.

Based on archeological context, the cultural items described above are determined to be Native American. Based on provenience, the cultural items are reasonably believed to be affiliated with the Tenino people. Historical documents, ethnographic sources, and oral history indicate that Tenino people have occupied north-central Oregon since pre-contact times. The Tenino people are one of the tribes that compose the Confederated Tribes of the Warm Springs Reservation of Oregon.

Determinations Made by the University of Oregon Museum of Natural and Cultural History

Officials of the University of Oregon Museum of Natural and Cultural History have determined that:

- Pursuant to 25 U.S.C. 3001(3)(B), the seven cultural items described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a

specific burial site of a Native American individual.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the unassociated funerary objects and the Confederated Tribes of the Warm Springs Reservation of Oregon.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request with information in support of the claim to Dr. Pamela Endzweig, Director of Collections, University of Oregon Museum of Natural and Cultural History, 1224 University of Oregon, Eugene, OR 97403-1224, telephone (541) 346-5120, by July 17, 2013. After that date, if no additional claimants have come forward, transfer of control of the unassociated funerary objects to the Confederated Tribes of the Warm Springs Reservation of Oregon may proceed.

The University of Oregon Museum of Natural and Cultural History is responsible for notifying the Confederated Tribes of the Warm Springs Reservation of Oregon that this notice has been published.

Dated: May 10, 2013.

Bureau of Ocean Energy Management

[OMB Control Number 1010-0114; MMAA104000]

Information Collection; Proposed Collection for OMB Review; Comment Request: General Oil and Gas and Sulphur and Production Requirements in the Outer Continental Shelf

ACTION: 60-day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements in the regulations under 30 CFR part 550, subparts A and K, General and Production Requirements.

DATES: Submit written comments by August 16, 2013.

ADDRESSES: Please send your comments on this ICR to the BOEM Information Collection Clearance Officer, Arlene Bajusz, Bureau of Ocean Energy Management, 381 Elden Street, HM-3127, Herndon, Virginia 20170 (mail); or arlene.bajusz@boem.gov (email); or 703-787-1209 (fax). Please reference ICR 1010-0114 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: Arlene Bajusz, Office of Policy, Regulations, and Analysis at (703) 787-1025 for a copy of the ICR or the forms.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0114.
Title: 30 CFR 550, Subpart A, General, and Subpart K, Oil and Gas Production Requirements.

Forms: BOEM-0127, BOEM-0140, BOEM-1123, BOEM-1832.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations in the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition. Section 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well trained personnel using technology, precautions, and techniques sufficient to prevent or minimize . . . loss of well control . . . physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health."

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and Office of Management and Budget (OMB) Circular A-25 authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department of the Interior's (DOI) implementing policy, the Bureau of Ocean Energy Management (BOEM) is required to charge fees for services that provide special benefits or privileges to

an identifiable non-Federal recipient above and beyond those that accrue to the public.

This ICR covers 30 CFR part 550, subpart A, General, and subpart K, Oil and Gas Production Requirements, which deal with regulatory requirements of oil, gas, and sulphur operations on the OCS. This request also covers the related Notices to Lessees and Operators (NTLs) that BOEM issues to clarify and provide guidance on some aspects of our regulations.

The BOEM uses the information collected under the Subparts A and K regulations to ensure that operations in the OCS are carried out in a safe and environmentally sound manner, do not interfere with the rights of other users in the OCS, and balance the protection and development of OCS resources. Specifically, we use the information collected to:

- Determine the capability of a well to produce oil or gas in paying quantities or to determine the possible need for additional wells resulting in minimum royalty status on a lease.
- Provide lessees/operators greater flexibility to comply with regulatory requirements through approval of alternative equipment or procedures and departures if they demonstrate equal or better compliance with the appropriate performance standards.
- Ensure that subsurface storage of natural gas does not unduly interfere with development and production operations under existing leases.
- Record the designation of an operator authorized to act on behalf of the lessee/operating rights owner and to fulfill their obligations under the OCS Lands Act and implementing regulations, or to record the local agent empowered to receive notices and comply with regulatory orders issued (Form BOEM-1123, Designation of Operator). This form requires the respondent to submit general information such as lease number, name, address, company number of designated operator, and signature of the authorized lessee. With this renewal, BOEM is adding a line for the signator's name and title and clarifying explanations and terminology. We are also introducing instructions on how to fill out the form specific to the Gulf of

Mexico Region to better facilitate the processing of the form, given the volume of form submissions and inquiries that the Gulf Region receives. We estimate the instructions will increase the time from 15 to 30 minutes to read and fill out the form; however, we believe the instructions will reduce the number of basic questions and result in faster processing time for respondents.

- Determine if an application for right-of-use and easement complies with the OCS Lands Act, other applicable laws, and BOEM regulations; and does not unreasonably interfere with the operations of any other lessee.

- Provide for orderly development or disqualification of leases to determine the appropriateness of lessee/operator performance.

- Approve requests to cancel leases and ascertain if/when the Secretary may cancel leases.

- Ensure the protection of any discovered archaeological resources.

- Form BOEM-0127, Sensitive Reservoir Information Report, is used to regulate production rates from sensitive reservoirs. BOEM engineers and geologists use the information for rate control and reservoir studies. The form requests general information about the reservoir and the company, volumetric data, and fluid analysis and production data. To assist respondents in filling out the form, BOEM is introducing instructions to clarify data entries. We expect the instructions to reduce or eliminate the number of form revisions in the future, although it could initially add 30 minutes to the form burden to read them.

- Form BOEM-0140, Bottomhole Pressure Survey Report, is used to manage reservoirs in our efforts to conserve natural resources, prevent waste, and protect correlative rights, including the Government's royalty interest. Specifically, BOEM uses the information in reservoir evaluations to determine maximum production and efficient rates and to review applications for downhole commingling to ensure that action does not harm ultimate recovery or undervalued royalties. The form requests information about the well and operator; test data information such as shut-in time,

bottomhole temperature, kelly bushing elevation; and bottomhole pressure points that consist of measured depth(s), true vertical depth(s), pressure(s), and pressure gradient(s). With this renewal, BOEM is adding a line to record the distance between the kelly bushing and tubing-head flange and is modifying some wording for clarification. We expect no change to the hour burden as a result.

- Determine that respondents have corrected any Incidents of Non-Compliance (INCs), Form BOEM-1832, identified during compliance reviews. The BOEM issues this form to the operator and the operator then corrects the INC(s), signs and returns the form to the BOEM Regional Supervisor. To accommodate the split of regulatory responsibilities from the former Bureau of Ocean Energy Management, Regulation, and Enforcement, BOEM will be revising this form to reflect BOEM's compliance authority and will obtain OMB approval under a separate submission.

We will protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552), its implementing regulations (43 CFR part 2), 30 CFR part 252, and 30 CFR 550.197, "Data and information to be made available to the public or for limited inspection." Proprietary information concerning geological and geophysical data will be protected according to 43 U.S.C. 1352. No items of a sensitive nature are collected. Responses are mandatory.

Frequency: Primarily on occasion; monthly.

Description of Respondents: Federal and State oil and gas and sulphur lessees/operators.

Estimated Reporting and Recordkeeping Hour Burden: The currently approved annual burden for this collection is 67,251 hours. We expect the burden estimate for the renewal will be reduced because we are removing the requirements and burdens that were transferred to the responsibility of BSEE under Secretarial Order No. 3299, May 19, 2010. The following table details the individual BOEM components and respective hour burden estimates.

BURDEN BREAKDOWN

| Citation 30 CFR 550 Subpart A and related forms/NTLs | Reporting or recordkeeping requirement | Hour burden |

| 1165 | Submit proposed plan for enhanced recovery operations to BSEE. | Burden covered under BSEE 30 CFR 250 (1014–0019). |

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified two non-hour cost burdens. Section 550.143 requires a fee for a change in designation of operator (\$175). Section 550.165 requires a State lessee applying for a right-of use and easement in the OCS to pay a cost recovery application fee (\$2,742). These fees reflect the recent adjustment for inflation that became effective February 2, 2013 (78 FR 5836, 1/28/13).

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .”. Agencies must specifically solicit comments on: (a) Whether or not the collection of information is necessary, including whether or not the information will have practical utility; (b) the accuracy of our burden estimates; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden on respondents.

Agencies must also estimate the non-hour cost burdens to respondents or recordkeepers resulting from the

collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup costs and annual operation, maintenance, and purchase of service costs. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (a) Before October 1, 1995; (b) to comply with requirements

not associated with the information collection; (c) for reasons other than to provide information or keep records for the Government; or (d) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

Appendix B Guidelines for Reviewing Applications for Compensation and Reimbursement of Expenses Filed Under United States Code by Attorneys in Larger Chapter 11 Cases

AGENCY: Executive Office for United States Trustees, Justice.

ACTION: Notice of internal procedural guidelines.

SUMMARY: In 1996, in accordance with Congress's mandate in 28 U.S.C. 586(a)(3)(A), the United States Trustee Program ("USTP") established Guidelines for Reviewing Applications for Compensation and Reimbursement of Expenses filed under 11 U.S.C. 330. See 28 CFR Part 58, Appendix A ("Appendix A guidelines"). The USTP has drafted additional guidelines for reviewing applications for compensation and reimbursement of expenses filed by attorneys in larger chapter 11 cases with \$50 million or more in assets and \$50 million or more in liabilities, aggregated for jointly administered cases. Single asset real estate cases, as defined in 11 U.S.C. 101(51B), filed under chapter 11 are excluded from these guidelines.

These guidelines that apply to the USTP's review of applications for compensation filed by attorneys in larger chapter 11 cases will be published in the **Federal Register** and entitled Appendix B—Guidelines for Reviewing Applications for Compensation and Reimbursement of Expenses Filed Under 11 U.S.C. 330 by Attorneys in Larger Chapter 11 Cases ("Appendix B guidelines"). Until the USTP adopts other superseding guidelines, the Appendix A guidelines will continue in effect for the USTP's review of applications filed under section 330 in: (1) Larger chapter 11 cases by those professionals seeking compensation who are not attorneys; (2) all chapter 11 cases with less than \$50 million in assets and \$50 million in liabilities, aggregated for jointly administered cases; (3) all chapter 11 single asset real estate cases; and (4) all cases under other chapters of the Bankruptcy Code.

The USTP will continue to review and update these guidelines, as appropriate.

DATES: *Effective Date:* November 1, 2013.

FOR FURTHER INFORMATION CONTACT: Nan Roberts Eitel, Associate General Counsel for Chapter 11 Practice, Executive Office for United States Trustees, 441 G St. NW., Suite 6150, Washington, DC 20530.

SUPPLEMENTARY INFORMATION: The authority for these guidelines is 28 U.S.C. 586(a)(3)(A), which provides that United States Trustees may review "in accordance with procedural guidelines adopted by the Executive Office of the United States Trustee (which guidelines shall be applied uniformly by the United States Trustee except when circumstances warrant different treatment) applications filed for compensation and reimbursement under section 330 of title 11" *Id.* The guidelines are to be applied by the USTP; however, they are not exclusive and do not limit the United States Trustee's discretion to object to or comment on a particular application.

Because the Appendix B guidelines, like the Appendix A guidelines, constitute procedural guidelines that apply to the USTP's review of fee applications, they are not subject to the Administrative Procedure Act's formal notice and comment provisions. Nonetheless, to engage the bankruptcy community, the USTP followed an extensive notice and comment-like process by reaching out to various bankruptcy judges and the National Bankruptcy Conference before drafting the Appendix B guidelines, posting a draft of the Appendix B guidelines to its public Web site for public comment, holding a public meeting, and posting a revised draft of the Appendix B guidelines responding to the comments to its public Web site for further public comment before finalizing.
