North Atlantic Coast Comprehensive Study

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Study Initiation.

SUMMARY: The Congressional response to the devastation in the wake of Hurricane Sandy included a mandate to collaborate with federal, state, tribal and local government agencies to regionally address the vulnerability of coastal populations at risk within the boundaries of the U.S. Army Corps of Engineers (USACE) North Atlantic Division. The goals of the North Atlantic Coast Comprehensive Study authorized under the Disaster Relief Appropriations Act, Public Law 113-2, are to (1) reduce flood risk to vulnerable coastal populations, and (2) promote coastal resilient communities to ensure a sustainable and robust coastal landscape system, considering future sea-level rise and climate change scenarios. In addition, the Comprehensive Study will identify activities warranting further analysis and institutional barriers to comprehensive implementation. A draft of the North Atlantic Coast Comprehensive Study will be available for public review and comment in early 2014 and a final report is due to Congress in January 2015. The study will identify those areas warranting more detailed evaluations; however, USACE is not authorized to develop designs or implement such projects at this time. Although potential environmental impacts will be generally evaluated, National Environmental Policy Act (NEPA) compliance processes will not be completed due to the scale of the study. Full NEPA and other environmental compliance would be required as part of future detailed evaluations before any actions could be implemented.

ADDRESSES: For media contacts please contact Mr. Justin Ward, U.S. Army Corps of Engineers, Public Affairs, 302 General Lee Avenue, Brooklyn, NY 11252, at justin.m.ward@usace.army.mil or at (347) 370-4550.

FOR FURTHER INFORMATION CONTACT: Mr. Justin Ward, U.S. Army Corps of Engineers, Public Affairs.

SUPPLEMENTARY INFORMATION: The North Atlantic Coast Comprehensive Study will include a coastal risk reduction framework, by State, including a range of structural, non-structural and programmatic measures for

approximately 31,000 miles of shore and coastline, planning level cost estimates and anticipated risk reduction and benefits per measure. The Comprehensive Study will also include storm suite modeling, coastal GIS analyses, economic evaluations, an assessment of green infrastructure and ecosystem goods and services, regional sediment management and climate change and sea-level rise considerations. Additional information and a study area map may be found at: <http://www.nad.usace.army.mil/CompStudy>. Furthermore, interested parties can access the Web site and subscribe to receive periodic electronic mail updates on the study's progress.

Dated: June 11, 2013.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Streamlined Clearance Process for Discretionary Grant.

OMB Control Number: 1894-0001.

Type of Review: Extension without change of an existing collection of information.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 1.

Total Estimated Number of Annual Burden Hours: 1.

Abstract: Section 3505(a)(2) of the PRA of 1995 provides the OMB Director authority to approve the streamlined clearance process proposed in this information collection request. This information collection request was originally approved by OMB in January of 1997. This information collection streamlines the clearance process for all discretionary grant information collections which do not fit the generic application process. The streamlined clearance process continues to reduce the clearance time for the U.S. Department of Education's (ED's)

discretionary grant information collections by two months or 60 days. This is desirable for two major reasons: it would allow ED to provide better customer service to grant applicants and help meet ED's goal for timely awards of discretionary grants.

Dated: June 14, 2013.

Stephanie Valentine,

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.
