SUPPLEMENTARY INFORMATION:

I. Abstract

Under 16 U.S.C. 1 (National Park Service Act Organic Act), we must preserve America's natural wonders unimpaired for future generations, while also making them available for the enjoyment of the visitor. Meeting this mandate requires that we balance preservation with use. Maintaining a good balance requires both information and limits. In accordance with regulations at 36 CFR parts 1-7, 13, 20, and 34, we issue permits for special park uses. Special park uses cover a wide range of activities including, but not limited to, special events, First Amendment activities, grazing and agricultural use, commercial filming,

still photography, construction, and vehicle access.

We currently use Forms 10-930 (Application for Special Use Permit), 10-931 (Application for Special Use Permit—Commercial Filming/Still Photography (short form)), and 10-932 (Application for Special Use Permit—Commercial Filming/Still Photography (long form)) to collect information for special use permits. In order to reduce paperwork burden on the public, we are proposing two additional forms, which will require less information than the existing forms:

- Form 10-930s (Application for Special Use Permit (short form)). The short form will reduce the burden on applicants for smaller, less complicated activities, such as small picnics, gatherings, weddings, etc.
- Form 10-933 (Application for Special Use Permit—Vehicle/Watercraft Use). This new form applies specifically to vehicle access, such as off-road, over sand, or commercial vehicle access. We will only request information specific to the activity, eliminating unneeded information.

The information we collect in the special use applications allows park managers to determine if the requested use is consistent with the laws and NPS regulations referenced above and with the public interest. The park manager must also determine that the requested activity will not cause unacceptable impacts to park resources and values.
