SUPPLEMENTARY INFORMATION: The exploration activities will be performed pursuant to the Mineral Leasing Act of 1920, as amended, 30 U.S.C. 201(b), and to the regulations at 43 CFR part 3410. The purpose of the exploration program is to gain additional geologic knowledge of the coal underlying the exploration area for the purpose of assessing the coal resources. The exploration program is fully described and will be conducted pursuant to an exploration license and plan approved by the BLM. The exploration plan may be modified to accommodate the legitimate exploration needs of persons seeking to participate.

The lands to be explored for coal deposits in exploration license NDM 105349 are described as follows:

Fifth Principal Meridian, North Dakota

T. 142 N., R. 84 W., Sec. 20, NE¼ and W½.

The area described contains 480 acres.

The Federal coal within the lands described for exploration license NDM 105349 is currently unleased for development of Federal coal reserves.

Phillip C. Perlewitz,
Chief, Branch of Solid Minerals.

SUPPLEMENTARY INFORMATION:

I. Abstract

Under 16 U.S.C. 1 (National Park Service Act Organic Act), we must preserve America's natural wonders unimpaired for future generations, while also making them available for the enjoyment of the visitor. Meeting this mandate requires that we balance preservation with use. Maintaining a good balance requires both information and limits. In accordance with regulations at 36 CFR parts 1-7, 13, 20, and 34, we issue permits for special park uses. Special park uses cover a wide range of activities including, but not limited to, special events, First Amendment activities, grazing and agricultural use, commercial filming,

still photography, construction, and vehicle access.

We currently use Forms 10-930 (Application for Special Use Permit), 10-931 (Application for Special Use Permit—Commercial Filming/Still Photography (short form)), and 10-932 (Application for Special Use Permit—Commercial Filming/Still Photography (long form)) to collect information for special use permits. In order to reduce paperwork burden on the public, we are proposing two additional forms, which will require less information than the existing forms:

- Form 10-930s (Application for Special Use Permit (short form)). The short form will reduce the burden on applicants for smaller, less complicated activities, such as small picnics, gatherings, weddings, etc.
- Form 10-933 (Application for Special Use Permit—Vehicle/Watercraft Use). This new form applies specifically to vehicle access, such as off-road, over sand, or commercial vehicle access. We will only request information specific to the activity, eliminating unneeded information.

The information we collect in the special use applications allows park managers to determine if the requested use is consistent with the laws and NPS regulations referenced above and with the public interest. The park manager must also determine that the requested activity will not cause unacceptable impacts to park resources and values.

III. Comments

On January 7, 2013, we published in the **Federal Register** (78 FR 957) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on March 8, 2013. We received one comment. The commenter did not address the information collection requirements.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: June 14, 2013.

Madonna L. Baucum,

Information Collection Clearance Officer, National Park Service.

BILLING CODE 4310-EH-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 731-TA-1207-1209 (Preliminary)]

Prestressed Concrete Steel Rail Tie Wire From China, Mexico, and Thailand

Determinations

On the basis of the record ¹ developed in the subject investigations, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from China, Mexico, and Thailand of prestressed concrete steel rail tie wire, provided for in subheading 7217.10.80 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in the investigations under section 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of these investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and

countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On April 23, 2013, a petition was filed with the Commission and Commerce by Davis Wire Corp. of Kent, WA and Insteel Wire Product Co. of Mount Airy, NC, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of prestressed concrete steel rail tie wire from China, Mexico, and Thailand. Accordingly, effective April 23, 2013, the Commission instituted antidumping duty investigation Nos. 731-TA-1207-1209 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 30, 2013 (78 FR 25303). The conference was held in Washington, DC, on May 14, 2013, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission filed its determinations on the agency's electronic document information system (EDIS) on June 14, 2013. The views of the Commission are contained in USITC Publication 4397 (June 2013), entitled *Prestressed Concrete Steel Rail Tie Wire from China, Mexico, and Thailand: Investigation Nos. 731-TA-1207-1209 (Preliminary)*.

By order of the Commission.

Issued: June 14, 2013.

Lisa R. Barton,

Acting Secretary to the Commission.
