AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing approval of four Missouri State Implementation Plan (SIP) submissions. EPA is approving portions of two SIP submissions addressing the applicable infrastructure requirements of the Clean Air Act (CAA) for the 1997 and 2006 National Ambient Air Quality Standards (NAAQS) for fine particulate matter (PM_{2.5}). These infrastructure requirements are designed to ensure that the structural components of each state's air quality management program are adequate to meet the state's responsibilities under the CAA. EPA is also taking final action to approve two additional SIP submissions from Missouri, one addressing the Prevention of Significant Deterioration (PSD) program in Missouri, and another addressing the requirements applicable to any board or body which approves permits or enforcement orders of the CAA, both of which support requirements associated with infrastructure SIPs. The rationale for this action is explained in this notice and in more detail in the notice of proposed rulemaking for this action, which was published on April 10, 2013.

DATES: This rule will be effective July 22, 2013.

- IV. Statutory and Executive Order Review

I. Background and Purpose

On April 10, 2013, EPA proposed to approve four Missouri SIP submissions (78 FR 21281). EPA received the first submission on February 27, 2007, addressing the infrastructure SIP requirements relating to the 1997 PM_{2.5} NAAQS. EPA received the second submission on December 28, 2009, addressing the infrastructure SIP requirements relating to the 2006 PM_{2.5} NAAQS. As originally detailed in the proposed rulemaking, EPA had previously approved section 110(a)(2)(D)(i)(I) and (II)—Interstate and international transport requirements of Missouri's February 27, 2007, SIP submission for the 1997 PM_{2.5} NAAQS (72 FR 25975, May 8, 2007); and EPA disapproved section 110(a)(2)(D)(i)(I)—Interstate and international transport requirements of Missouri's December 28, 2009, SIP submission for the 2006 PM_{2.5} NAAQS (76 FR 43156, July 20, 2011). Therefore, in the April 10, 2013, proposed action, we did not propose to act on those portions since they have already been acted upon by EPA. With this final action, we will have acted on both the February 27, 2007, and the December 28, 2009, submissions in their entirety, excluding those provisions that are not within the scope of today's rulemaking as identified in section IV of the April 10, 2013, proposed action for
