

finance industrial and business activities in rural areas. The Secretary of Labor must review the application for financial assistance for the purpose of certifying to the Secretary of Agriculture that the assistance is not calculated, or likely to result in: (a) A transfer of any employment or business activity from one area to another by the loan applicant's business operation; or, (b) An increase in the production of goods, materials, services, or facilities in an area where there is not sufficient demand to employ the efficient capacity of existing competitive enterprises unless the financial assistance will not have an adverse impact on existing competitive enterprises in the area. The Employment and Training Administration within the Department of Labor is responsible for the review and certification process. Comments should address the two bases for certification and, if possible, provide data to assist in the analysis of these issues.

U.S. Steel Tubular Products, Inc., McKeesport Tubular Operations Division, Subsidiary of United States Steel Corporation, McKeesport, Pennsylvania; Notice of Amended Certification

Pursuant to Section 221 of the Trade Act of 1974, as amended, an investigation was initiated in response to a petition for Trade Adjustment Assistance (TAA) filed on December 20, 2012 on behalf of workers of U.S. Steel Tubular Products, McKeesport Tubular Operations Division, a subsidiary of United States Steel Corporation, McKeesport, Pennsylvania (hereafter collectively referred to as "U.S. Steel Tubular Products" or "subject firm"). The workers' firm produces steel drill pipe and drill collars. The worker group does not include on-site leased workers.

On January 28, 2013, the Department issued a certification stating that the criteria set forth in Section 222(e) of the Trade Act of 1974, as amended, was met.

A review of the determination and the petition, however, revealed that the certification was erroneously issued. Specifically, the determination inaccurately stated that the petition was filed within a year of the March 3, 2011 publication in the **Federal Register** of the International Trade Commission's finding that dumping of drill pipes and drill collars from China negatively impacted U.S. firms engaged in production of those articles.

Although the subject firm was publicly identified by name by the International Trade Commission (ITC) as a member of a domestic industry in an investigation resulting in a category of determination that is listed in Section 222(e) of the Act, 19 U.S.C. 2272(e), the petition was filed more than a year after the publication of the ITC's findings in the **Federal Register**.

As such, the Department conducted another investigation to determine whether or not the petitioning worker group has met the criteria set forth in Section 222(a) or (b) of the Trade Act of 1974, as amended.

Based on previously-submitted information and additional information obtained during the amendment investigation, the Department has determined that Section 222(a)(1) has been met because a significant number or proportion of the workers at U.S. Steel Tubular Products have become
