BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2001-9998]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated March 5, 2013, Farmrail System, Inc. (Farmrail) has petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 223, Safety Glazing Standards—Locomotives, Passenger Cars and Caboose. FRA assigned the petition Docket Number FRA-2001-9998.

Specifically, Farmrail petitioned FRA to grant an extension of a waiver of compliance from 49 CFR 223.15, *Requirements for existing passenger cars*. Farmrail seeks this relief for three passenger cars, numbered FMRC 5627, FMRC 5478, and FMRC 5560. These cars are used in excursion service, on a limited seasonal basis, through a sparsely populated area on trackage owned by the Oklahoma Department of Transportation. The cars are former VIA Rail Canada equipment and have a double-pane combination of ¼-inch thick safety glass inside and plate glass outside. Farmrail states that there has been no breakage of the existing glazing, and it has continued to operate these cars in accordance with the conditions of the waiver granted in Docket Number FRA-2001-9998 without accident, incident, or any condition that has posed a safety hazard to passengers, employees, or the public. In addition, Farmrail states that the waiver should be extended because of the infrequent usage of the subject cars, the fact that they operate in excursion service, and the cost of installing FRA-compliant glazing.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140,
