I. General Information

EPA is extending the public comment period for the draft *Technical Guidance for Assessing Environmental Justice in Regulatory Analysis* by 60 days. The public comment period will now close on September 6, 2013. EPA has been doing environmental justice assessments of its regulatory actions for years. This experience and body of work assessing regulatory actions provide the foundation for this draft guidance. This guidance begins to address the issue of how to analytically consider environmental justice in regulatory analyses. It provides a set of questions to guide analysts in evaluating potential environmental justice concerns in EPA rules, provides a set of recommendations and best practices for analyses, and defines key terms. No new risk assessment or socio-economic assessment methods are required, thus minimizing resource or analytical burdens. This guidance takes into account EPA's past experience in integrating EJ into the rulemaking process and will enable EPA to conduct consistent, better analysis of regulations to inform the public and decision makers.

II. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI). In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions—The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns, and suggest alternatives.
- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- Make sure to submit your comments by the comment period deadline identified.
