

as a facility of EDGA, which are enumerated above. The Commission believes that these conditions mitigate its concerns about potential conflicts of interest and unfair competitive advantage. In particular, the Commission believes that a non-affiliated SRO's oversight of DE Route,<sup>21</sup> combined with a non-affiliated SRO's monitoring of DE Route's compliance with the Exchange's rules and quarterly reporting to the Exchange, will help to protect the independence of the Exchange's regulatory responsibilities with respect to DE Route. The Commission also believes that the Exchange's Rule 2.12(a)(3) is designed to ensure that DE Route cannot use any information advantage it may have because of its affiliation with the Exchange.

#### IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,<sup>22</sup> that the proposed rule change (SR-EDGX-2013-17) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority,<sup>23</sup>

Kevin M. O'Neill,  
Deputy Secretary.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-69875; File No. SR-EDGX-2013-23]

### Self-Regulatory Organizations; EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend EDGX Rule 11.5(c), NBBO Offset Peg Order

June 27, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on June 24, 2013, EDGX Exchange, Inc. (the "Exchange" or "EDGX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 11.5(c), which describes the manner in which the NBBO Offset Peg Order operates. All of the changes described herein are applicable to EDGX Members. The text of the proposed rule change is available on the Exchange's Internet Web site at [www.directedge.com](http://www.directedge.com), at the Exchange's principal office, and at the Public Reference Room of the Commission.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to amend Rule 11.5(c)(15), the NBBO Offset Peg Order, to state that the order type will: (1) Only be eligible for execution once the Market Maker quoting obligations under Rule 11.21(d) are triggered; (2) not be repriced when it would establish the National Best Bid or Offer ("NBBO"); and (3) delay the implementation date of the order type [sic] from April 15, 2013 to no later than October 31, 2013.

On September 25, 2012, the Exchange filed for immediate effectiveness a proposed rule change to adopt the NBBO Offset Peg Order.<sup>3</sup> The NBBO Offset Peg Order will enable Users<sup>4</sup> to submit buy and sell orders to the Exchange that are pegged to a designated percentage away from the

NBB and NBO, respectively, while providing them full control over order origination and order marking.<sup>5</sup> This retention of control, in turn, is designed to allow Market Makers<sup>6</sup> to comply independently with the requirements of Regulation SHO<sup>7</sup> under the Act and Rule 15c3-5<sup>8</sup> under the Act (the "Market Access Rule"). The Exchange subsequently amended the text of Rule 11.5(c)(15) to remove the ability of Users to cancel or reject NBBO Offset Peg Orders under certain circumstances.<sup>9</sup>

When is a NBBO offset peg order eligible for execution?

First, the Exchange proposes that the NBBO Offset Peg Order will only be eligible for execution once the Market Maker quoting obligations under Rule 11.21(d) are triggered. Currently, Rule 11.5(c)(15) allows Users to submit NBBO Offset Peg Orders at the beginning of the Pre-Opening Session,<sup>10</sup> but states that the order is not executable or automatically priced until the beginning of Regular Trading Hours.<sup>11</sup> However, a Market Maker's quoting obligations under Rule 11.21(d) do not commence during any trading day until after the first regular way transaction on the primary listing market in the security as reported by the responsible single plan processor.<sup>12</sup> Such a transaction may not occur until after the start of Regular Trading Hours. Therefore, the Exchange proposes to amend the text of Rule 11.5(c)(15) to state that an NBBO Offset Peg Order is not executable until after the first regular way transaction on the primary listing market in the security, as reported by the responsible single plan

<sup>12</sup> Under Exchange Rule 11.21(d)(2), the pricing obligations for Market Makers "(i) shall not commence during any trading day until after the first regular way transaction on the primary listing market in the security, as reported by the responsible single plan processor, and (ii) shall be suspended during a trading halt, suspension, or pause, and shall not re-commence until after the first regular way transaction on the primary listing market in the security following such halt, suspension, or pause, as reported by the responsible single plan processor." <sup>4</sup> "User" is defined as "any Member or Sponsored Participant who is authorized to obtain access to the System pursuant to Rule 11.3." EDGX Rule 1.5(ee).

processor, rather than the beginning of Regular Trading Hours. Accordingly, the amended text would read as follows:

Users may submit NBBO Offset Peg Orders to the Exchange starting at the beginning of the Pre-Opening Session, but the order is not executable or automatically priced until *after the first regular way transaction on the primary listing market in the security, as reported by the responsible single plan processor* and expires at the end of Regular Trading Hours (emphasis added).

The Exchange believes that the proposed amendment is necessary because it clarifies that the NBBO Offset Peg Order would only be eligible for execution once the quoting obligations for Market Makers apply. While use of the NBBO Offset Peg Order would not be limited to Market Makers, the Exchange believes that Market Makers would likely be the predominant, if not exclusive, users of the order type. Thus, the NBBO Offset Peg Order is designed such that its price would be automatically set and adjusted, both upon entry and at any time thereafter, in order to comply with the Exchange's Market Maker quotation requirements.<sup>13</sup>

Repricing When NBBO Offset Peg Order Establishes NBBO

Second, the Exchange proposes to amend Rule 11.5(c)(15) to make clear that a NBBO Offset Peg Order will not use its own pegged price as the basis for adjusting the order's price. Where there is no NBBO and a NBBO Offset Peg Order, whether upon entry or already on the EDGX Book,<sup>14</sup> is pegged to the last reported sale from the single plan processor, the NBBO Offset Peg Order will be reported to the responsible securities information processors and will be disseminated to the Exchange as the NBBO. The Exchange proposes that if after entry, the NBBO Offset Peg Order is priced based on the consolidated last sale and such NBBO Offset Peg Order establishes the NBBO, the NBBO Offset Peg Order will not be subsequently adjusted in accordance with the proposed rule until either there is a new consolidated last sale, or a new NBB or NBO is established by a national securities exchange. The Exchange believes that not adjusting the price in this instance is consistent with the intent of the NBBO Offset Peg Order

<sup>13</sup> Exchange Rule 11.21 describes the obligations of Members registered with the Exchange as Market Makers. Among other things, Market Makers are required to maintain continuous, two-sided quotations consistent with the requirements of paragraph (d) of Rule 11.21, which generally states that such quotations must be priced within a designated percentage of the NBB for buy quotations, and the NBO for sell quotations.

<sup>14</sup> "EDGX Book" is defined as "the System's electronic file of orders." EDGX Rule 1.5(d).

(i.e., keeping the order a certain percentage away from the inside market) while also avoiding a situation where the order would use its own pegged price as a basis for adjusting the price of the order. The Exchange notes that the proposal amends the functionality of the NBBO Offset Peg Order to more closely resemble analogous order types offered by The NASDAQ Stock Market LLC ("Nasdaq"),<sup>15</sup> BATS Exchange, Inc. ("BATS"),<sup>16</sup> and BATS Y-Exchange, Inc. ("BYX").<sup>17</sup>

#### Implementation Date Delay

The Exchange originally proposed to implement the NBBO Offset Peg Order on or about November 19, 2012<sup>18</sup> and later delayed the implementation date to on or about April 15, 2013.<sup>19</sup> The Exchange now proposes to further delay the implementation date to no later than October 31, 2013. The Exchange anticipates uniform industry-wide amendments to the market making quoting requirements' Designated Percentages<sup>20</sup> and Defined Limits<sup>21</sup> to realign the percentages based on the Appendix A Percentage Parameters of

the National Market System Plan to Address Extraordinary Market Volatility (the "Limit-Up/Limit-Down Plan").<sup>22</sup> This additional time will enable the Exchange to make the necessary system changes to implement the NBBO Offset Peg Order to accommodate those amendments.

#### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act<sup>23</sup> and furthers the objectives of Section 6(b)(5) of the Act,<sup>24</sup> in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Exchange believes that proposing that the order type will only be eligible for execution once the Market Maker quoting obligations under Rule 11.21(d) are triggered makes the order type consistent with when market making obligations begin<sup>25</sup> and therefore, simplifies its functionality. While use of the NBBO Offset Peg Order would not be limited to Market Makers, the Exchange believes that Market Makers would likely be the predominant, if not exclusive, users of the order type. Thus, the NBBO Offset Peg Order is designed such that its price would be automatically set and adjusted, both upon entry and at any time thereafter, in order to comply with the Exchange's Market Maker quotation requirements.<sup>26</sup> Therefore, the Exchange believes the proposed rule change is designed to promote just and equitable principles of trade, foster cooperation and coordination with persons engaged in facilitating transactions in securities, and remove impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, protect investors and the public interest.

The Exchange also believes that the proposed amendment removes impediments to and perfects the

<sup>22</sup> See Securities Exchange Act Release No. 67091 (May 31, 2012), 77 FR 33498 (June 6, 2012) (approving the Limit-Up/Limit-Down Plan on a pilot basis).

<sup>26</sup> EDGX Rule 11.21(d)(2).

mechanisms of a free and open market and a national market system because it clarifies that a NBBO Offset Peg Order will not use its own pegged price as the basis for adjusting the order's price. The Exchange notes that the proposed clarification is substantially similar to that for similar order types (Market Maker Peg Orders) on Nasdaq, BATS, and BYX.<sup>27</sup> Further, clarifying when a NBBO Offset Peg Order would not be priced to align with the functionality of similar order types on other exchanges fosters cooperation and coordination with persons engaged in facilitating transactions in securities, and removes impediments to a free and open market and a national market system because it will result in a continuing benefit to market participants by simplifying the functionality of the order type and its complexity of implementation.

Lastly, the Exchange believes that the delay of the implementation date is also consistent with Section 6(b)(5) of the Act<sup>28</sup> because it is designed to coordinate the implementation of the NBBO Offset Peg Order with anticipated changes to market making quoting requirements in response to the Limit-Up/Limit-Down Plan. Thus, the Exchange believes that the proposed rule change promotes the efficient execution of investor transactions, and thus investor confidence, over the long term.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change would increase intermarket competition among the exchanges because the NBBO Offset Peg Order will directly compete with similar existing order types offered by Nasdaq, BATS and BYX.<sup>29</sup> Amending Rule 11.5(c)(15), to clarify that the NBBO Offset Peg Order will not use its own pegged price as the basis for adjusting the order's price is similar to the functionality of the Market Maker Peg Order on Nasdaq, BATS, and BYX;<sup>30</sup> and, therefore, reduces the potential for confusion amongst market participants. In addition, the Exchange believes

proposing that the NBBO Offset Order will only be eligible for execution once its Market Maker quoting obligations under Rule 11.21(d) are triggered simplifies the functionality and corresponding complexity of implementation. The proposed rule change would not burden intramarket competition because the NBBO Offset Peg Order would be available to all Members<sup>31</sup> on a uniform basis.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

The Exchange has neither solicited nor received written comments on the proposed rule change.

#### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>32</sup> and Rule 19b-4(f)(6)<sup>33</sup> thereunder.

At any time within sixty (60) days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)<sup>34</sup> of the Act to determine whether the proposed rule change should be approved or disapproved.

#### **IV. Solicitation of Comments**

Interested persons are invited to submit written data, views, and

arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

#### *Electronic Comments*

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-69867; File No. SR-CBOE-2013-066]

### Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to Extending AIM Pilot Programs

June 27, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on June 26, 2013, Chicago Board Options Exchange, Incorporated (the "Exchange" or "CBOE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its rules related to its Automated Improvement Mechanism ("AIM"). The text of the proposed rule change is provided below.

(Additions are *italicized*; deletions are [bracketed].)

\* \* \* \* \*

#### Chicago Board Options Exchange, Incorporated Rules

\* \* \* \* \*

#### Rule 6.74A. Automated Improvement Mechanism ("AIM")

Notwithstanding the provisions of Rule 6.74, a Trading Permit Holder that represents agency orders may electronically execute an order it represents as agent ("Agency Order") against principal interest or against a solicited order provided it submits the Agency Order for electronic execution

into the AIM auction ("Auction") pursuant to this Rule.

(a)-(b) No change.

\* \* \* Interpretations and Policies:

.01-.02 No change.

.03 Initially, and for at least a Pilot Period expiring on July 18, 2014[3], there will be no minimum size requirement for orders to be eligible for the Auction. During this Pilot Period, the Exchange will submit certain data, periodically as required by the Commission, to provide supporting evidence that, among other things, there is meaningful competition for all size orders and that there is an active and liquid market functioning on the Exchange outside of the Auction mechanism. Any data which is submitted to the Commission will be provided on a confidential basis.

.04-.05 No change.

.06 Subparagraph (b)(2)(E) of this rule will be effective for a Pilot Period until July 18, 2014[3]. During the Pilot Period, the Exchange will submit certain data, periodically as required by the Commission, relating to the frequency with which early termination of the Auction occurs pursuant to this provision as well as any other provision, and also the frequency with which early termination pursuant to this provision results in favorable pricing for the Agency Order. Any data which is submitted to the Commission will be provided on a confidential basis.

.07-.08 No change.

The text of the proposed rule change is available on the Exchange's Web site (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

In February 2006, CBOE obtained approval from the Commission to adopt the AIM auction process.<sup>3</sup> AIM exposes certain orders electronically to an auction process to provide these orders with the opportunity to receive an execution at an improved price. The AIM auction is available only for orders that a Trading Permit Holder represents as agent ("Agency Order") and for which a second order of the same size as the Agency Order (and on the opposite side of the market) is also submitted (effectively stopping the Agency Order at a given price).

The Commission approved two components of AIM on a pilot basis: (1) That there is no minimum size requirement for orders to be eligible for the auction; and (2) that the auction will conclude prematurely anytime there is a quote lock on the Exchange pursuant to Rule 6.45A(d).<sup>4</sup> In connection with the pilot programs, the Exchange has submitted to the Commission reports providing detailed AIM auction and order execution data, and the Exchange will continue to submit to the Commission these reports. Seven one-year extensions to the pilot programs have previously become effective.<sup>5</sup> The proposed rule change merely extends the duration of the pilot programs until July 18, 2014. Extending the pilots for an additional year will allow the Commission more time to consider the impact of the pilot programs on AIM order executions.

##### 2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the
