NPRM Notice of Proposed Rulemaking

TFR Temporary Final Rule

CFR Code of Federal Regulations

A. Regulatory History and Information

This annual fireworks display is codified in 33 CFR 165.929(a)(19). However, the Coast Guard was informed by the event organizer that this year's fireworks will be shot from a different location than what is shown in 33 CFR 165.929(a)(19). This temporary final rule reflects the new launch site for this year's event.

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM with respect to this rule because it is impracticable. The final details for this event were not known to the Coast Guard until there was insufficient time remaining before the event to publish an NPRM. Thus, delaying the effective date of this rule to wait for a comment period to run would be both impracticable because it would inhibit the Coast Guard's ability to protect spectators and vessels from the hazards associated with a maritime fireworks display, which are discussed further below.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. For the same reasons discussed in the preceding paragraph, waiting for a 30 day notice period to run

would be impracticable and contrary to the public interest.

B. Basis and Purpose

The legal basis for the rule is the Coast Guard's authority to establish regulated navigation areas and limited access areas: 33 U.S.C. 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, 160.5; Pub. L. 107-295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

On July 4, 2013, the City of Grand Haven will host a fireworks display. Fireworks will be launched from a position on the west bank of the Grand River in Grand Haven, Michigan. The Coast Guard, after speaking with the event organizer, anticipates that a large number of spectator vessels will be present in the Grand River on the night of the display. As such, the Captain of the Port, Lake Michigan, has determined that this fireworks display will pose a significant risk to public safety and property. Such hazards include falling debris, flaming debris, and collisions among spectator vessels.

C. Discussion of the Final Rule

With the aforementioned hazards in mind, the Captain of the Port, Lake Michigan, has determined that this temporary safety zone is necessary to ensure the safety of spectators and vessels during the fireworks display in Grand Haven, Michigan. This rule is effective and will be enforced from 9:30 p.m. until 11:30 p.m. on July 4, 2013. The safety zone will encompass all waters of the Grand River within the arc of a circle with an 800 foot radius with a center in position 43°3' 55.7" N and 86°14' 13.8" W (NAD 83).

Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port, Lake Michigan, or his designated on-scene representative. The Captain of the Port or his designated on-scene representative may be contacted via VHF Channel 16.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and
