

services and Internet access categories into one category of service on the FCC Form 470 to simplify the application process. We also propose eliminating outdated questions that were originally designed to determine the impact of services and create new questions that will better gauge the technology and speed related to E-rate applicants' Internet and broadband connectivity. Specifically, Block 2 of the FCC Form 471, Impact of Service Ordered for Schools and Libraries from this Form 471, will be eliminated and questions asking about broadband and other connectivity services will be added to Block 5 for each funding request. The FCC Form 471 is also revised to allow applicants to indicate whether they are a federal entity. Further, in the Commission's attempt to reduce the number of active information collections, the Commission will incorporate the information collection requirements in OMB Control No. 3060-0774 into to this collection so it can be removed from the OMB inventory.

The Commission requests a total hourly burden change for FCC Forms 470 and 471 from 325,000 burden hours to 334,000 burden hours, which is an increase of 9,000 burden hours. The adjustment reflects updated information received from the Universal Service Administrative Company, the administrator of the schools and libraries universal service support program, and is based on actual participation in the program. Specifically, for the FCC Form 470, the Commission estimates that the number of respondents has remained the same at 35,000 based on the number of forms submitted for funding years 2012 and 2013 reported by USAC. For the FCC Form 471, the Commission estimates that the number of respondents has increased from 45,000 to 47,000 based on the increased number of submitted FCC Forms 471 in funding years 2012 and 2013 as reported by USAC.

The two FCC forms serve the functions of the Universal Service Schools and Libraries Support Mechanism, 47 U.S.C. 254 of the Communications Act of 1934, as amended. They are used at the point where services provided to the program are implemented, or are about to be implemented, and are a necessary prerequisite to the distribution of payments under the program.

Applicants in the E-rate program must submit an FCC Form 470 with a description of the services needed to USAC, which administers the fund. The information from the FCC Form 470 is then posted on USAC's Web site for all potential competing service providers to

review. After waiting 28 days, the applicant can enter into an agreement for services. *See* 47 CFR 54.504(b). Applicants and consultants completing the FCC Form 470 must provide basic information on the form, including contact information and demographic information to assist in the processing of the application.

The FCC Form 471 must be filed each year by all E-rate applicants. Once a school or library has complied with the Commission's competitive bidding requirements and entered into an agreement for eligible services, it must file an FCC Form 471 application to notify USAC of the services that have been ordered, the service providers with whom the applicant has entered into an agreement, and an estimate of the funds needed to cover the discounts to be given for eligible services. *See* 47 CFR 54.504(c). Applicants must now provide their FCC Registration Number. *See* 47 CFR 1.8002 and 1.8003.

Besides basic information about the applicant or consultant filling out the form, the form gathers information about the broadband services that the school or library is currently using to help USAC determine the technological needs of the E-rate program. Since economically disadvantaged schools and rural schools receive a greater share of E-rate program funding, the form also contains a discount calculation worksheet for certifying the percentage of students eligible in that school for the national school lunch program (or other acceptable indicators of economic disadvantage determined by the Commission). *See* 47 CFR 54.505(b)(1). Similarly, libraries must make certifications about students eligible for national school lunch programs in nearby areas. *See* 47 CFR 54.505(b)(2). Since rural schools and libraries receive slightly more funding than urban participants, the FCC Form 471 requires applicant's demographic location. *See* 47 CFR 54.505(b)(3).

All of the requirements contained in this information collection are necessary to implement the congressional mandates regarding No Child Left Behind as well as the schools and libraries universal service support program process.

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the Commission. If the Commission requests applicants to submit information that the respondents believe is confidential, respondents may request confidential treatment of their information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) as a revision to a currently approved collection. This submission revises the FCC Form 479 and instructions, FCC Form 486 and instructions, and FCC Form 500 and instructions. FCC Forms 479 and 486 include revisions to existing certifications to improve clarity and ensure consistency with the Commission's rules. FCC Form 500 includes revisions that allow applicants the option to use the FCC Form 500 to: (1) seek extensions of the implementation deadline for non-recurring services from the Universal Service Administrative Company (USAC) under 47 CFR 54.507(d) of the Commission's rules; and/or (2) notify USAC when they are transferring equipment within the three year prohibition on equipment transfers due to a permanent or temporary closure of school or library facilities under 47 CFR 54.413 of the Commission's rules.

The Commission requests a total hourly burden change for FCC Forms 479, 486 and 500 from 70,000 burden hours to 104,650 burden hours, which is an increase of 34,650 burden hours. We made adjustments in the burden hours for each of these forms to account for updated information received from the Universal Service Administrative Company, the administrator of the schools and libraries universal service support program. This estimate is based on actual participation in the program. Specifically, for the FCC Form 479, the Commission estimates that the number of respondents has increased from 10,000 to 10,300 based on the number of consortia participants for funding year 2011 and 2012 reported by USAC. For the FCC Form 486, the Commission estimates that the number of respondents has increased from 30,000 to 38,500 based on the increased number of submitted FCC Forms 486 as reported by USAC. For the FCC Form 500, the Commission increased the number of respondents from 5,000 to 6,900 based on the actual FCC Forms 500 submitted in funding year 2011 as reported by USAC and to account for the potential transfer of the requirements covered by information collections for OMB Control Numbers 3060–0992 and 3060–1062 to this information collection. The requirements covered by these collections are being moved to the FCC Form 500, and OMB Control Numbers 3060–0992 and 3060–1062 will be discontinued once this revision is approved. The burden hours were also adjusted to reflect the Commission's revised estimates of the hours required to update and maintain Internet safety policies. The Commission adjusts the number of respondents from 30,000 to 35,000 and adjusts the burden hours per response from .25 to .75. The Commission estimates that the number of respondents should be adjusted based on inclusion of the number of respondents for both the FCC Form 479 and FCC Form 486. The Commission estimates the initial year of compliance with the schools-only requirement to update Internet safety policies to provide for education of minors about appropriate online behavior, including interacting with other individuals on social networking Web sites and in chat rooms and cyber bullying awareness and response (as required by the Protecting Children in the 21st Century Act) will require .75 burden hours per response. This is an adjustment from the previously reported estimate of .25 burden hours per response.

The three FCC forms serve the functions of the Universal Service Schools and Libraries Support Mechanism, 47 U.S.C. 254 of the Communications Act of 1934, as amended. They are used at the point where services provided to the program are implemented, or are about to be implemented, and are a necessary prerequisite to the distribution of payments under the program.

FCC Forms 479 and 486 enable participants in the program to certify that they are compliant with the Children's Internet Protection Act (CIPA), 47 U.S.C. section 254 (h) and (l) when they seek discounts for Internet access, internal connections and basic maintenance of internal connections. With the exception of program participants who receive only telecommunications services, CIPA compliance is a necessary prerequisite to invoicing and payment. CIPA provides that schools and libraries that have computers with Internet access must certify that they have in place certain Internet safety policies and technology protection measures in order to be eligible to receive program services under section 254(h) of the Communications Act of 1934 (the Act), as amended. 47 CFR 54.520. FCC Form 486 also is the form that school and library applicants use to notify USAC of their service start date and certify compliance with E-rate program technology plan requirements.

School and library applicants use the FCC Form 500 to make adjustments to previously filed forms, such as changing the contract expiration date filed with the FCC Form 471, changing the funding year service start date filed with the FCC Form 486, or cancelling or reducing the amount of funding commitments.

All of the requirements contained in this information collection are necessary to implement the congressional mandates regarding access to the Internet by minors and adults as well as the schools and libraries universal service support program and reimbursement process.
