

Number of Respondents:
approximately 800.

Responses per Respondent: 1.

Average Burden per Response: 45 minutes.

Frequency: Survey will be available to individuals who submit an application throughout the year.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

This online applicant survey will help analyze Navy JAG Corps applicants and focus future recruiting efforts. A Navy JAG Corps application consists of personal academic history (e.g., grade point average and Law School Admissions Test (LSAT) scores), as well as objective assessments of traits and values through a structured interview score. This survey gathers information about an applicant's personality traits and tendencies, but the results are not part of the application. After selection of candidates for commission, an individual's survey results will be combined with that individual's application data and with measures of performance by that officer over time. Collectively, this information will provide a more thorough picture of an individual officer. Through this longitudinal study, the Navy JAG Corps will determine if any particular personal activities, academic performance, or personality traits (or combination of factors) constitute statistically significant indicators of success as Navy JAG Corps officers. If so, then recruiting efforts and selection criteria can be modified to find efficiencies and reduce costs.

Dated: July 1, 2013.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF ENERGY

Advanced Scientific Computing Advisory Committee

AGENCY: Department of Energy, Office of Science.

ACTION: Notice of Renewal.

SUMMARY: Pursuant to Section 14(a)(2)(A) of the Federal Advisory Committee Act (Pub. L. 92-463), and in accordance with Title 41 of the Code of Federal Regulations, Section 102.3.65(a), and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given

that the Advanced Scientific Computing Advisory Committee will be renewed for a two-year period beginning on July 1, 2013.

The Committee will provide advice to the Director, Office of Science (DOE), on the Advanced Scientific Computing Research Program managed by the Office of Advanced Scientific Computing Research.

Additionally, the renewal of the Advanced Scientific Computing Advisory Committee has been determined to be essential to the conduct of the Department of Energy business and to be in the public interest in connection with the performance of duties imposed upon the Department of Energy, by law and agreement. The Committee will operate in accordance with the provisions of the Federal Advisory Committee Act, adhering to the rules and regulations in implementation of that Act.

FOR FURTHER INFORMATION CONTACT: Mrs. Christine Chalk at (301) 903-7486.

Dated: Issued in Washington, DC, on July 1, 2013.

Carol A. Matthews,

Committee Management Officer.

DEPARTMENT OF ENERGY

Agency Request for Comments on Draft Solicitation

AGENCY: U.S. Department of Energy.

ACTION: Notice of availability of and request for comments regarding Draft Solicitation for Advanced Fossil Energy Projects.

SUMMARY: The Loan Programs Office (LPO) of the Department of Energy (DOE) announces a draft of a potential future solicitation announcement for Federal Loan Guarantees for Advanced Fossil Energy Projects. LPO invites comments regarding the draft of the potential future solicitation announcement.

DATES: Comments regarding the draft of the potential future solicitation announcement must be received on or before September 9, 2013. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.

ADDRESSES: Written comments may be sent to David G. Frantz, Deputy Executive Director, Loan Programs Office, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585. The draft

solicitation is available on LPO's Web site at <http://www.lgprogram.energy.gov/>

FOR FURTHER INFORMATION CONTACT: David G. Frantz, *DraftLPOFossilSolicitationComments@hq.doe.gov.*

SUPPLEMENTARY INFORMATION: DOE is considering a potential future solicitation announcement for Federal Loan Guarantees for Advanced Fossil Energy Projects. Should DOE choose to proceed with such a solicitation, applicants would be invited to apply for loan guarantees from DOE to finance projects and facilities located in the United States that employ innovative and advanced fossil energy technologies ("Advanced Fossil Energy Projects"). DOE may make up to Eight Billion Dollars (\$8,000,000,000) in loan guarantee authority available under the proposed solicitation for Advanced Fossil Energy Projects.

DOE is considering including in any potential future solicitation projects or facilities that (1) avoid, reduce, or sequester air pollutants or anthropogenic emission of greenhouse gases, (2) employ New or Significantly Improved Technology as compared to Commercial Technology in service in the United States at the time the Term Sheet is issued (as each capitalized term is defined in the regulations implementing Title XVII, which are set forth in Part 609 under Chapter II of Title 10 of the Code of Federal Regulations, and (3) use advanced fossil energy technology (within the meaning of that term in Section 1703(b)(2) of Title XVII) and are described in one or more of the following technology areas: (a) Advanced resource development, (b) carbon capture, (c) low-carbon power systems, or (d) efficiency improvements. DOE is assuming that the scope of any potential solicitation would be broad. All fossil fuels, including, without limitation, coal, natural gas, oil, shale gas, oil gas, coal bed methane, methane hydrates, and others, may be included in the potential future solicitation. DOE is considering including both electrical and non-electrical fossil energy use.

While comments are sought on all aspects of the draft solicitation, DOE is particularly interested in comments regarding the weighting percentage allocated to each category for evaluations (Programmatic, Technical, Policy, and Financial), and the categories themselves.

LPO is announcing that a draft of a potential future solicitation announcement for Federal Loan Guarantees for Advanced Fossil Energy Projects. LPO invites comments

regarding the draft of the potential future solicitation announcement.

Statutory Authority: Title XVII of the Energy Policy Act of 2005 (42 U.S.C. 16511 *et seq.*).

Issued in Washington, DC, on July 2, 2013.

Valri Lightner,

Acting Director, Technical and Project Management, Loan Programs Office.

DEPARTMENT OF ENERGY

Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Resources Research and Development Program 2013 Annual Plan

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of report availability.

SUMMARY: The Office of Fossil Energy announces the availability of the *2013 Annual Plan* for the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Resources Research and Development Program on the DOE Web site at <http://energy.gov/fe/downloads/2013-annual-plan> or in print form (see "Contact" below). The *2013 Annual Plan* is in compliance with the *Energy Policy Act of 2005, Subtitle J, Section 999B(e)(3)* which requires the publication of this plan and all written comments in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Elena Melchert, U.S. Department of Energy, Office of Oil and Natural Gas, Mail Stop FE-30, 1000 Independence Avenue SW., Washington, DC 20585 or phone: (202) 586-5600 or email to UltraDeepwater@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

Executive Summary [Excerpted from the 2013 Annual Plan]

This 2013 Annual Plan is the seventh research plan for the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Resources Research Program since the launch of the program in 2007.

This plan reflects the program's focus on safety and environmental sustainability that was initiated in the 2011 plan, and is consistent with the President's Office of Management and Budget directive for research that has significant potential public benefits.

Onshore, research on Unconventional Resources focuses on protecting groundwater and air quality, understanding rock and fluid interactions, and integrated environmental protection, including

water treatment technologies and water management. For small producers, the program focuses on extending the life of mature fields in an environmentally sustainable way.

Offshore, research on Ultra-Deepwater emphasizes improved understanding of systems risk, reducing risk through the acquisition of real-time information, and reducing risk through the development of advanced technologies.

The research activities described in this plan will be administered by the Research Partnership to Secure Energy for America (RPSEA), which operates under the guidance of the Secretary of Energy. RPSEA is a consortium which includes representatives from industry, academia, and research institutions. The expertise of RPSEA's members in all areas of the exploration and production value chain ensures that the Department of Energy's research program leverages relevant emerging technologies and processes, and that project results will have a direct impact on practices in the field.

Issued in Washington, DC on June 27, 2013.

Guido DeHoratiis,

Acting Deputy Assistant Secretary, Office of Oil and Natural Gas, Office of Fossil Energy.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP13-504-000]

UGI LNG, Inc.; Notice of Application

On June 17, 2013, UGI LNG, Inc. (UGI LNG) filed a request pursuant to section 7(c) of the Natural Gas Act, and Part 157 of the Rules and Regulations of the Commission. UGI LNG seeks authorization to construct additional refrigeration capacity at an existing liquefaction plant at its Temple liquefied natural gas storage facility located in Ontelaunee Township, Berks County, Pennsylvania. As more fully described in the application, the new facilities would improve the capability and operational efficiency of the facility. UGI LNG requests authority by December 31, 2013 to allow the upgraded facility to commence operation by the Fall of 2014.

Questions regarding this application may be directed to Frank H. Markle, Counsel for UGI LNG, by calling 610-768-3625, or by emailing marklef@ugicorp.com.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9,

within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review (NSER). If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a NSER will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Protests will be considered by the Commission in determining the
