Office of the Secretary

[Document Identifier: HHS-OS-19116-30D]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Public Comment Request

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: In compliance with section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, has submitted an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB) for review and approval. The ICR is for a new collection. Comments submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public on this ICR during the review and approval period.

DATES: Comments on the ICR must be received on or before August 19, 2013.

ADDRESSES: Submit your comments to OIRA_submission@omb.eop.gov or via facsimile to (202) 395-5806.

FOR FURTHER INFORMATION CONTACT:

Information Collection Clearance staff, Information.CollectionClearance@hhs.gov or (202) 690-6162.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the Information Collection Request Title and the document identifier HHS-OS-19116-30D for reference.

Information Collection Request Title: Out, Proud, and Healthy Fitness Project.

Abstract: The Office of Women's Health (OWH) and the Department of Health and Human Services (HHS) Coordinating Committee on Lesbian, Gay, Bi-sexual and Transgender (LGBT) Issues have prioritized the collection of health data on LGBT populations. In response, OWH funded an initiative to identify and test effective and innovative ways of reducing obesity in lesbian and bisexual women. The planned intervention developed in St Louis Missouri is called the "Out, Proud, and Health Fitness Project" has been developed to address what is currently known about local LB women's community norms, common barriers to health, patterns of physical and mental health access, and preferences for health services and health outcomes. The interventions will offer randomized controlled trial intervention—fitness education classes, evidence-based personalized exercise routines, a gym membership, a smart pedometer to motivate users to increase physical activity and health education

classes focused on increasing healthy lifestyle choices. The project is scheduled for one year.

Need and Proposed Use of the Information: Addresses barriers to health for the LB community, and promotes overall health and wellbeing. The intervention will incorporate community-identified weight loss/risk reduction needs of this population. Following the completion of the surveys and interventions, collected data will be used to develop a "Toolkit" that other organizations can use to promote healthy weight in older LB women.

Likely Respondents: Lesbian and bi-sexual women forty years of age and older.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Enrollment Survey	160	1	37/60	99
Baseline Survey	150	1	60/60	150
4-month Follow-up Assessment Survey	140	1	46/60	107
Post Intervention Focus Group	20	1	90/60	30
12-month Follow-up Assessment Survey	120	1	42/60	84
Total				470

Information Collection Request Title: WHAM: Women’s Health and Mindfulness Program.

Abstract: The Women’s Health and Mindfulness (WHAM) program, developed in San Francisco, aims to test interventions that promote healthy weight in lesbian and bisexual (LB) women age 40 years and older. The project to test the interventions is scheduled for one year.

Need and Proposed Use of the Information: The Office of Women’s Health (OWH) and the Department of Health and Human Services (HHS) Coordinating Committee on Lesbian, Gay, Bi-sexual and Transgender (LGBT) Issues has prioritized the collection of health data on LGBT populations. In response, OWH funded an initiative to identify and test effective and innovative ways of reducing obesity in lesbian and bisexual women. The information collected in this ICR tests

two approaches to reducing obesity in the LB population. The first is a community-level health system intervention that responds to Goal 4, Strategy 4-1 of the 2012 Institute of Medicine (IOM) report “Accelerating Progress in Obesity Prevention: Solving the Weight of the Nation;” and the second is an innovative group support program that combines mindfulness-based stress reduction, nutrition, and physical activity that will be evaluated for its feasibility and evidence of effect on short-term outcomes.

Likely Respondents: Lesbian and bisexual women age 40 years and older.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Health Center Systems Intervention Evaluation				
Knowledge and Attitudes Assessment (Pre-training)	40	1	5/60	7
Knowledge and Attitudes Assessment (Post-training)	40	1	5/60	7
Group Intervention				
<i>Assessments for All Participants: Sequence 1 (Immediate Intervention Start) and Sequence 2 Comparison Group (Delayed Intervention Start at Month 5)</i>				
Group Intervention Screening Questionnaire	120	1	10/60	20
Evaluation Questionnaire:				
-Baseline-	80	1	45/60	60
Interim Behavioral Assessment-Month 1-	80	1	10/60	13
Accelerometer: Activity Diary and Reminder	40	3	20/60	13
Evaluation Questionnaire: Follow-up-Month 4-	80	1	30/60	40
<i>Assessments for Sequence 2 Comparison Group Participants Only (Delayed Intervention Start at Month 5)</i>				
Interim Behavioral Assessment-Month 5-	40	1	10/60	7
Evaluation Questionnaire: Follow-up-Month 8-	40	1	30/60	20
Total				214
