

are established in jurisdictions other than United States, including Australia, Canada, the European Union, Hong Kong, Japan, and Switzerland.

The Order provides for a phase-in of the cross-border application of Dodd-Frank requirements. Such phase-in period provides for 75 days following the publication of the Order in the **Federal Register** for market participants to adapt to the cross-border application of the Dodd-Frank requirements. This relates to, for example, who is a U.S. person, swap activity conducted by or with affiliates that are guaranteed by a U.S. person, swap activity conducted by or with overseas branches of U.S. based swap dealers, the aggregation guidelines applicable to a group of affiliates for the purpose of determining whether a specific affiliate is required to register as a swap dealer, and identifying relevant transactions for the purpose of the swap dealer registration de minimis calculation.

Thus, within several months, the public will gain greater protections as hedge funds, organized in the Cayman Islands, but with their principal place of business here in the U.S., will be subject to reforms applicable to all other U.S. persons, including the clearing requirement.

Secondly, during the transitional period through December 21st, a foreign swap dealer may phase in compliance with certain entity-level requirements. In addition, those entities (as well as foreign branches of U.S. swap dealers) are provided time-limited relief from specified transaction-level requirements when transacting with overseas affiliates guaranteed by U.S. entities (as well as with foreign branches of U.S. swap dealers).

The phase-in period provides time for the Commission to work with foreign regulators to consider their jurisdictions' submissions related to substituted compliance.

Substituted compliance, where appropriate, would allow for foreign swap dealers to meet the reform requirements of the Dodd-Frank Act by complying with comparable and comprehensive foreign regulatory requirements. With respect to any transaction with a U.S. person, though, compliance will be required in accordance with previously issued rules and staff guidance.

To this end, the Commission has received substituted compliance submissions from market participants or regulators located in Australia, Canada, the European Union, Hong Kong, Japan and Switzerland. Commission staff has actively engaged in substantive discussions and active coordination with the appropriate regulators in these jurisdictions as an integral part of the submission review process.

Now, 3-years after the passage of financial reform, and a full year after the Commission proposed guidance with regard to the cross border application of reform, it is time for reforms to properly apply to and cover those activities that, as identified by Congress in section 722(d) of the Dodd-Frank Act, have "a direct and significant connection with activities in, or effect on, commerce of the United States." With the additional transitional phase in period provided by this Order, it is now time for the public to get the full benefit of the transparency and the

measures to reduce risk included in Dodd Frank reforms.

DEPARTMENT OF DEFENSE

Department of the Army

32 CFR Part 513

Indebtedness of Military Personnel

AGENCY: Department of the Army, DoD.

ACTION: Final rule; removal.

SUMMARY: This action removes regulations concerning indebtedness of military personnel. The regulations are being removed because they are obsolete and no longer govern policies and procedures for handling debt claims against soldiers. These rules in the Army Regulation have been superseded. Program responsibility has been transferred to the Defense Finance and Accounting Services (DFAS), which directs all policy for personnel finances across the services. The removal of the regulations is part of DoD's retrospective plan under Executive Order 13563 completed in August 2011.

DATES: Effective July 22, 2013.

ADDRESSES: Department of the Army, Office of the Deputy Chief of Staff, G-1, DAPE-HR, 200 Army Pentagon, Washington, DC 20310-0300.

DoD's full retrospective plan under E.O. 13563 can be accessed at: <http://exchange.regulations.gov/exchange/topic/eo-13563>.

FOR FURTHER INFORMATION CONTACT: Ms. Cheryl Moman, (703) 325-0050.

SUPPLEMENTARY INFORMATION: The responsibility for this program was originally with the Department of the Army and was published as 32 CFR Part 513. The program responsibility was transferred to DFAS and now covered by Department of Defense policy and guidance codified at 32 CFR Part 112, "Indebtedness of Military Personnel," and DoD Financial Management Review (FMR), Volume 7a, "Stoppages and Collections." Therefore, to avoid confusion with the public, 32 CFR Part 513 is removed, which was established in the **Federal Register**, March 3, 1986 (51 FR 7268). Rules in the Army Regulation have been superseded by Department of Defense (DoD) policy and guidance covered in DoD Instruction 1344.09, "Indebtedness of Military Personnel,"¹ and codified at 32 CFR Part 112, and DoD Financial

Coast Guard

33 CFR Part 117

[Docket No. USCG-2013-0535]

Drawbridge Operation Regulation; China Basin, San Francisco, CA

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Third Street Drawbridge across the China Basin, mile 0.0 at San Francisco, CA. The deviation is necessary to allow the bridge to be part of the staging area for runners participating in the scheduled Giant Race event. This deviation allows the bridge to remain in the closed-to-navigation position during the deviation period.

DATES: This deviation is effective from 6 a.m. to 11:30 a.m. on August 4, 2013.

ADDRESSES: The docket for this deviation, [USCG-2013-0535], is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation. You may also visit the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary

deviation, call or email David H. Sulouff, Chief, Bridge Section, Eleventh Coast Guard District; telephone 510-437-3516, email

David.H.Sulouff@uscg.mil. If you have questions on viewing the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: The City of San Francisco Public Works Department has requested a temporary change to the operation of the Third Street Drawbridge, mile 0.0, over China Basin, at San Francisco, CA. The drawbridge navigation span provides 7 feet vertical clearance above Mean High Water in the closed-to-navigation position. The draw opens on signal if at least one hour notice is given as required by 33 CFR 117.149. Navigation on the waterway is recreational.

The drawspan will be secured in the closed-to-navigation position 6 a.m. to 11:30 a.m. on August 4, 2013, to allow runners to participate in the Giant Race event. This temporary deviation has been coordinated with the waterway users. No objections to the proposed temporary deviation were raised. The drawspan can be operated upon one hour advance notice for emergencies requiring the passage of waterway traffic.

No alternative route is available for mariners. Vessels that can transit the bridge, while in the closed-to-navigation position, may continue to do so at any time.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 19, 2013.

D.H. Sulouff,

District Bridge Chief, Eleventh Coast Guard District.

RIN 2060-AR41

Protection of Stratospheric Ozone: The 2013 Critical Use Exemption From the Phaseout of Methyl Bromide

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is authorizing uses that qualify for the 2013 critical use exemption (CUE) and specifying the amount of methyl bromide that may be produced or imported for those uses. EPA is also amending the regulatory framework to remove certain requirements related to sale of pre-phaseout inventory for critical uses. EPA is taking this action under the authority of the Clean Air Act to reflect a consensus decision taken by the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer at the Twenty-Third Meeting of the Parties.

DATES: This rule is effective on July 22, 2013.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-HQ-OAR-2010-0280. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and is publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air and Radiation Docket, EPA/DC, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket is (202) 566-1742.

FOR FURTHER INFORMATION CONTACT: For further information about this rule, contact Jeremy Arling by telephone at (202) 343-9055, or by email at arling.jeremy@epa.gov or by mail at U.S. Environmental Protection Agency, Stratospheric Protection Division, Stratospheric Program Implementation Branch (6205J), 1200 Pennsylvania Avenue NW., Washington, DC 20460. You may also visit the methyl bromide section of the Ozone Depletion Web site of EPA's Stratospheric Protection Division at www.epa.gov/ozone/mbr for further information about the methyl bromide critical use exemption, other Stratospheric Ozone Protection regulations, the science of ozone layer depletion, and related topics.

SUPPLEMENTARY INFORMATION: This rule concerns Clean Air Act (CAA) restrictions on the consumption,

production, and use of methyl bromide (a Class I, Group VI controlled substance) for critical uses during calendar year 2013. Under the Clean Air Act, methyl bromide consumption (consumption is defined under section 601 of the CAA as production plus imports minus exports) and production were phased out on January 1, 2005, apart from allowable exemptions, such as the critical use and the quarantine and preshipment (QPS) exemptions. With this action, EPA is authorizing uses that qualify for the 2013 critical use exemption as well as specific amounts of methyl bromide that may be produced and imported for critical uses in 2013.

Section 553(d) of the Administrative Procedure Act (APA), 5 U.S.C. Chapter 5, generally provides that rules may not take effect earlier than 30 days after they are published in the **Federal Register**. EPA is issuing this final rule under section 307(d)(1) of the Clean Air Act, which states: "The provisions of section 553 through 557 . . . of Title 5 shall not, except as expressly provided in this section, apply to actions to which this subsection applies." Thus, section 553(d) of the APA does not apply to this rule. EPA is nevertheless acting consistently with the policies underlying APA section 553(d) in making this rule effective on July 22, 2013. APA section 553(d) allows an effective date less than 30 days after publication for a rule that "that grants or recognizes an exemption or relieves a restriction." 5 U.S.C. 553(d)(1). Since today's action can be considered to either grant an exemption for limited critical uses during 2013 from the general prohibition on production or import of methyl bromide after the phaseout date of January 1, 2005, or relieve a restriction that would otherwise prevent production or import of methyl bromide or sale of pre-phaseout inventory for critical uses, EPA is making this action effective immediately upon publication.
