

NMFS has determined that the marine mammal take resulting from the 2012–2013 launch operations falls within the levels previously anticipated, analyzed, and authorized. The record supports NMFS' conclusion that the number of marine mammals taken by the 2013–2014 launch operations will have no more than a negligible impact on the affected species or stock of marine mammals and will not have an unmitigable adverse impact on the availability of these species or stocks for taking for subsistence uses.

Accordingly, NMFS has issued a 1-year LOA for launch operations conducted at the KLC from August 1, 2013, through July 31, 2014.

Dated: July 16, 2013.

## CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

### Proposed Information Collection; Comment Request

**AGENCY:** Corporation for National and Community Service.

**ACTION:** Notice.

**SUMMARY:** The Corporation for National and Community Service (CNCS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirement on respondents can be properly assessed.

Currently, CNCS is soliciting comments concerning its proposed renewal of the Grantee Progress Report (GPR). All AmeriCorps grantees are required to complete the GPR, which is due in October, and to complete an abbreviated mid-year GPR due in April. The GPR provides information for CNCS staff to monitor grantee progress and to respond to requests from Congress and other stakeholders.

Copies of the information collection request can be obtained by contacting the office listed in the Addresses section of this notice.

**DATES:** Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by September 20, 2013.

**ADDRESSES:** You may submit comments, identified by the title of the information collection activity, by any of the following methods:

(1) By mail sent to: Corporation for National and Community Service, AmeriCorps State and National, Attention Carla Ganiel, Senior Program and Project Specialist, Room 9517E, 1201 New York Avenue NW., Washington, DC, 20525.

**SUPPLEMENTARY INFORMATION:** CNCS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

### Background

All AmeriCorps State and National grantees complete the GPR and mid-year

GPR, which provides information for CNCS staff to monitor grantee progress and to respond to requests from Congress and other stakeholders. The information is collected electronically through the eGrants system.

### Current Action

CNCS seeks to renew the current information collection. In 2013, AmeriCorps State and National developed a new eGrants module to collect performance measurement information during the application process. The GPR and mid-year GPR have been revised to collect information that is consistent with the new application module. In 2013, new and recomplete applicants used the new module, but continuation applicants did not. Therefore, new and recomplete grantees will complete the new GPR, while continuation grantees complete the existing GPR and mid-year GPR. The existing GPR and mid-year GPR have also been revised for clarity and consistency with the new GPR instructions.

The information collection will otherwise be used in the same manner as the existing application. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on October 31, 2014.
