

Part 121 Agricultural Bioterrorism Protection Act of 2002; Possession, Use, and Transfer of Biological Agents and Toxins; Interim Final Rule; FR citation: 67 FR 76908 and the CDC Interim Final Rule 42 CFR Part 73 Possession, Use, and Transfer of Select Agents and Toxins; Interim Final Rule; FR citation: 67 FR 76886, *inter alia*.

Information is collected in writing by a representative of a local BioWatch jurisdiction (either an employee, or a contractor) assigned responsibility for filter installation, removal, and transportation using a standardized log developed by the BioWatch Systems Program Office (SPO) and supplied by the jurisdiction.

A filter holder log is initiated for each new filter sample on installation in the aerosol collector device, and is completed (normally) 24 hours later when the filter sample is removed from the device for transportation to the analysis laboratory. The completed logs are archived by the local BioWatch jurisdiction for a period of one-year to support law enforcement activity. To date, no records have been provided to Federal government organizations to support operational events; however, local jurisdiction record keeping is audited as part of the BioWatch Evaluation Program (BWEP) to monitor for system-wide problems and to ensure that written records are being maintained in accordance with BioWatch Program requirements.

A personal digital assistant (PDA) is used to collect many of the data elements captured by the filter holder logs. However due to mechanical failure, possibility of spooking there is a need for redundancy in the form of paper copies.

A personal digital assistant (PDA) based data collection system—the BioWatch Sample Management System (SMS)—is used to collect electronic information related to sample management to support program operations and logistics. The SMS is a software system designed to track sample holders and other media from the time they are created, until they are delivered to the laboratory. The software monitors when the sample holder was assembled, deployed to the field, placed in the collector, removed from the collector, and delivered to the laboratory, along with who was responsible for each operation. The SMS software produces reports used by other software in the BioWatch system, such as the Centers for Disease Control Laboratory Results Messenger software. As directed by the FBI, a written record tied to each sample establishing chain of custody is to be created to support law

enforcement activity; the FBI has informed the BioWatch Program of the determination that the electronic SMS cannot meet the FBI's evidence recording requirements.

There has been an increase in the annual burden associated with this collection. This increase is due to more locations using the holder filter log on a daily basis. Previously there were 522 locations and now there are 605 locations. This has increased the number responses annually by 30,817 and the hours by 515. There is no change in the burden time per response. There is no change in the information being collected. However, there are proposed changes to DHS 9500, Filter Holder Log. These changes include:

- Repositioning of Filter Installation and Filter Removal Tables. Currently the tables are viewed (top to bottom) Filter Installation then Filter Removal. These tables have been repositioned to align with the actual sequence of events at the work site * * * there is removal of the old filter first followed by installation of the new filter.
- Site Name field changed to Number. This has been changed to comply with the BioWatch Standard Operation Procedure (SOP).
- Within the Filter Installation table under Physical Security Check, On Arrival data elements have been removed. These elements no longer need to be collected because it is already covered in the Filter Removal portion of the procedure.
- Within the Filter Removal and Filter Installation remove the word Collector and replace with PSU. This has been changed to reflect the type of collector, and its unique number.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submissions of responses.

Analysis

Agency: Office of Health Affairs/OCMO Early Detection Division, DHS.

Title: BioWatch Filter Holder Log.

OMB Number: 1601–0006.

Frequency: Daily.

Affected Public: State, Local, and Tribal Governments.

Number of Respondents: 605.

Estimated Time per Respondent: 1 minute.

Total Burden Hours: 3688 hours.

Dated: July 18, 2013.

Margaret H. Graves,

Acting Chief Information Officer.

BILLING CODE 9110–9B–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG–2013–0625]

Commercial Fishing Safety Advisory Committee; Meeting

AGENCY: Coast Guard, DHS.

ACTION: Notice of Federal Advisory Committee Meeting.

SUMMARY: The Commercial Fishing Safety Advisory Committee (CFSAC) will meet in Washington, DC to discuss various issues relating to safety in the commercial fishing industry. This meeting will be open to the public.

DATES: The Committee will meet on August 14 and 15, 2013, from 8:00 a.m. to 5 p.m., and on August 16, 2013, from 8:00 a.m. to 12:30 p.m. This meeting may close early if all business is finished. Written material and requests to make oral presentations should reach the Coast Guard on or before August 2, 2013.

ADDRESSES: The Committee will meet at the Coast Guard Headquarters Building (Room 4613), 2100 2nd Street SW., Washington, DC 20593. Attendees will be required to provide a picture identification card and pass through a magnetometer in order to gain admittance to the U.S. Coast Guard Headquarters Building. Visitors should allow for at least 30 minutes to be processed through security and awaiting an escort, as may be required, to the meeting room.

For information on facilities or services for individuals with disabilities or to request special assistance at the meeting, contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section, as soon as possible.

To facilitate public participation, we are inviting public comment on the issues to be considered by the committee as listed in the "Agenda" section below. You may submit written comments no later than August 2, 2013, and they must be identified by docket number [USCG-2013-0625] using one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Mail:* Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590-0001. We encourage use of electronic submissions because security screening may delay delivery of mail.
- *Fax:* (202) 493-225.
- *Hand Delivery:* Same as mail address above, between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal Holidays. The telephone number is 202-366-9329.

Instructions: All submissions received must include the words "Department of Homeland Security" and docket number [USCG-2013-0625]. All submissions received will be posted without alteration at www.regulations.gov, including any personal information provided. Anyone can search the electronic form of comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.) You may review a Privacy Act notice regarding our public dockets in the January 17, 2008 issue of the **Federal Register** (73 FR 3316).

Docket: Any background information or presentations available prior to the meeting will be published in the docket. For access to the docket to read background documents or submissions received by the CFSAC, go to <http://www.regulations.gov>, insert "USCG-2013-0625" in the "Keyword" box, and then click "Search".

Public comments will be sought throughout the meeting by the Designated Federal Officer (DFO) as specific issues are discussed by the committee. Additionally, public presentation/comment periods will be offered throughout the meetings on August 14–15 2013, and specifically from 4 p.m. to 5 p.m. if needed, and on August 16 if needed from 11:00 a.m. to 12:00 p.m. Speakers are requested to limit their comments to 5 minutes. Please note that the public comment period will end following the last call for comments. Contact the individual listed below to register as a speaker.

FOR FURTHER INFORMATION CONTACT: Mr. Jack Kemerer, Alternate Designated Federal Officer (ADFO) of CFSAC, Commandant (CG-CVC-3), U.S. Coast Guard Headquarters, 2100 Second Street SW., Mail Stop 7581, Washington, DC 20593-7581; telephone 202-372-1249, fax 202-372-1917, email:

jack.a.kemerer@uscg.mil. If you have any questions on viewing or submitting material to the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. App. (Pub. L. 92-463). The CFSAC is authorized by 46 U.S.C. 4508 and the Committee's purpose is to provide advice and recommendations to the U.S. Coast Guard and the Department of Homeland Security on matters relating to the safety of commercial fishing industry vessels.

Agenda

The CFSAC will meet to review, discuss and formulate recommendations on topics contained in the agenda:

Day 1 of the meeting will include administrative matters, reports, presentations, and subcommittee sessions as follows:

(1) Swearing-in of new members, election of chair and vice-chair, and completion of required forms by members.

(2) Status of Commercial Fishing Vessel Safety Rulemaking projects resulting from requirements set forth in the Coast Guard Authorization Act of 2010 and the Coast Guard and Maritime Transportation Act of 2012.

(3) Commercial Fishing Vessel Safety District Coordinators reports on activities and initiatives, such as the mandatory dockside safety examination bridging program.

(4) Industry Representatives updates on safety and survival equipment, and class rules for fishing vessels.

(5) Presentation on fatality rates by regions and fisheries, and update on safety and risk reduction related projects by the National Institute for Occupational Safety and Health.

(6) Presentation on safety standards by the National Oceanic and Atmospheric Administration, National Marine Fisheries Service.

(7) Subcommittee sessions on (a) training program requirements for individuals in charge of a vessel, and (b) standards for alternative safety compliance program(s) development.

(8) Public comment period.

Day 2 of the meeting will primarily be dedicated to continuing subcommittee sessions on training requirements and

alternative safety programs, but will also include:

(1) Reports and recommendations from the subcommittees to the full committee for consideration.

(2) Other safety recommendations and safety program strategies from the committee.

(3) Public comment period.

Day 3 of the meeting will include:

(1) Reports and recommendations from the subcommittees to the full committee for approval.

(2) Other safety recommendations and safety program strategies from the committee.

(3) Future plans and long range goals for the committee.

(4) Public comment period.

Jonathan C. Burton,

Captain, U.S. Coast Guard, Director of Inspections and Compliance.

Public Workshop Related to the International Maritime Organization's Development of a Mandatory Code for Ships Operating in Polar Waters

AGENCY: Coast Guard, DHS.

ACTION: Notice of meeting; request for comments.

SUMMARY: The United States Coast Guard will hold a public workshop in Washington, DC on topics related to the development of a mandatory code for ships operating in polar waters by the International Maritime Organization (IMO Polar Code). Various safety topics will be discussed including design, equipment, and operational requirements. This workshop is intended to be an interactive exchange of information between policymakers, industry experts, and interested members of the public.

DATES: The public workshop will be held for two days beginning Thursday, August 22, 2013 at 9 a.m., Eastern Time and ending Friday, August 23, 2013 at 4 p.m., Eastern Time. The daily meeting schedule will be from 9 a.m. until 4 p.m. This workshop is open to the public. See **ADDRESSES** for more information about submitting comments to the docket.

ADDRESSES: The public workshop will be held at the United States Coast Guard Headquarters Transpoint Building,
