DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA-2013-0282; Airspace Docket No. 13-AAL-3]

Amendment of Class E Airspace; Gustavus, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace at Gustavus Airport, Gustavus, AK. Decommissioning of the Gustavus Nondirectional Radio Beacon (NDB) has made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations at the airport. This action also adjusts the geographic coordinates of the airport.

DATES: Effective date, 0901 UTC, October 17, 2013. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA, 98057; telephone (425) 203-4537.

SUPPLEMENTARY INFORMATION:**History**

On May 28, 2013, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend controlled airspace at Gustavus, AK (78 FR 31871). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.9W dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E airspace extending upward from 700 feet above the surface, at Gustavus Airport, Gustavus, AK. Accordingly, segments extend from the 6.8-mile radius of the airport to 16.8 miles southwest and 24 miles southeast of the airport due to the decommissioning of the Gustavus NDB and cancellation of the NDB approach. Also, the geographic coordinates of the airport are updated to coincide with the FAA's aeronautical database. This action is necessary for the safety and management of IFR operations.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 discusses the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Gustavus Airport, Gustavus, AK.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist

that warrant preparation of an environmental assessment.

18 CFR Part 284

[Docket No. RM12–17–000; Order No. 781]

Revisions to Procedural Regulations Governing Transportation by Intrastate Pipelines

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule.

SUMMARY: In this Final Rule, the Federal Energy Regulatory Commission amends its regulations to provide optional notice procedures for processing rate filings by those natural gas pipelines that fall under the Commission’s jurisdiction pursuant to the Natural Gas Policy Act of 1978 or the Natural Gas Act. The rule results in regulatory certainty and a reduction of regulatory burdens.

DATES: This rule is effective September 30, 2013.

James Sarikas (Technical Information), Office of Energy Market Regulation, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502–6831, James.Sarikas@ferc.gov.

SUPPLEMENTARY INFORMATION: The Final Rule generally adopts the regulations proposed in the October 18, 2012, Notice of Proposed Rulemaking, published November 6, 2012, at 77 FR 66568, but revises that proposal in two respects. First, the Final Rule revises the Commission’s periodic rate review requirement policy to allow intrastate pipelines with unchanged state-based rates to meet the requirement by certifying that the state-approved rates continue to satisfy the requirements of the Commission’s regulations for using a state-based rate. Second, the Final Rule extends the deadline for interventions and initial comments to 21 days after the date of the filing or such other date established by the Secretary of the Commission. The Final Rule also makes technical corrections to the proposed rules.
