#### Supplemental Nutrition Assistance Program: Privacy Protections of Information From Applicant Households

**AGENCY:** Food and Nutrition Service, USDA.

**ACTION:** Affirmation of interim rule as final rule.

**SUMMARY:** The Food and Nutrition Service (FNS) is issuing this affirmation of a final rule, without change, of an interim rule that amended Supplemental Nutrition Assistance Program (SNAP) regulations at § 272.1, to permit SNAP State agencies to share information with local educational agencies (LEAs) administering the National School Lunch Program established under the Richard B. Russell National School Lunch Act or the School Breakfast Program established under the Child Nutrition Act of 1966, in order to directly certify the eligibility of school-age children for receipt of free school lunches and breakfasts based on their receipt of SNAP benefits.

**DATES:** *Effective* August 2, 2013, the Department is adopting as a final rule the interim rule published at 76 FR 28165, dated May 16, 2011.

#### SUPPLEMENTARY INFORMATION:

### Background

On May 16, 2011, the Department published an interim rule implementing a nondiscretionary privacy protection provision of section 4120 of Public Law 110-246, the Food, Conservation and Energy Act of 2008 (FCEA), which amends section 11(e)(8) of the Food and Nutrition Act of 2008 (the Act), 7 U.S.C. 2020(e)(8). The revision amended SNAP regulations at § 272.1(c), to make clear that SNAP applicant or recipient information may be used for certifying children for free school meals based on their family's eligibility for SNAP benefits.

Direct certification of SNAP children for the free school breakfast and lunch programs went into effect July 2006 for large school districts and by July 2008 for all school districts. Accordingly, the revision to § 272.1(c) did not change policy, so new State action was not required. USDA also concluded that because implementation of section 4120 was nondiscretionary and specific, and because the rulemaking would not require any changes on the part of State agencies in how they protect information provided by SNAP applicants, it was unnecessary to issue the rule as a proposed rule. The comment period ended on July 16, 2011.

No comments were submitted during the comment period. For reasons given in the interim rule, the Department is adopting the interim rule as a final rule without change.

#### Use of Market Economy Input Prices in Nonmarket Economy Proceedings

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Final rule.

**SUMMARY:** The Department of Commerce (“Department”) is modifying its regulation which states that the Department normally will use the price that a nonmarket economy (“NME”) producer pays to a market economy supplier when a factor of production is purchased from a market economy supplier and paid for in market economy currency, in the calculation of normal value (“NV”) in antidumping proceedings involving NME countries. The rule establishes a requirement that the input at issue be produced in one or more market economy countries, and a revised threshold requiring that “substantially all” (*i.e.*, 85 percent) of an input be purchased from one or more market economy suppliers before the Department uses the purchase price paid to value the entire factor of production. The Department is making this change because it finds that a market economy input price is not the best available information for valuing all purchases of that input when market economy purchases of an input do not account for substantially all purchases of the input.

**DATES:** This final rule is effective September 3, 2013. It is applicable for all proceedings or segments of proceedings (*e.g.*, investigations and administrative reviews) initiated on or after September 3, 2013.
