

Diabetes HealthSense. The required forms will support the following evaluation tasks: (1) Assessing community educators' experience and satisfaction with NDEP resources such as the Diabetes HealthSense Web site; (2) Assess the extent to which, through participation in Diabetes HealthSense educational sessions, community educators can increase their knowledge and ability to promote and use NDEP resources; and (3) Assess the extent to

which the Web site, with guided exploration, can facilitate changes in lifestyle to help prevent or manage diabetes. The data collected from this evaluation will provide NDEP with information about how community educators use NDEP-created resources in their communities and whether the Diabetes HealthSense resource has its intended effect on participants. Such data will help inform NDEP's future decisions about the Diabetes

HealthSense Web site, including whether to make changes to Diabetes HealthSense, and whether to invest additional resources to support, promote or expand this resource.

OMB approval is requested for three years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 328.
