SUPPLEMENTARY INFORMATION:

Title: (7 CFR part 767) Farm Loan Programs—Inventory Property Management.

OMB Number: 0560-0234.

Expiration Date: 01/31/2014.

Type of Request: Extension with a revision.

Abstract: FSA’s Farm Loan Programs provide supervised credit in the form of loans to family farmers to purchase real estate and equipment and finance agricultural production. Inventory Property Management, as specified in 7 CFR part 767, provides the requirements for the management, lease, and sale of security property acquired by FSA. FSA may take title to real estate as part of dealing with a problem loan either by entering a winning bid in an attempt to protect its interest at a foreclosure sale, or by accepting a deed of conveyance in lieu of foreclosure. Information collections established in the regulation are necessary for FSA to determine an applicant’s eligibility to lease or purchase inventory property and to ensure the applicant’s ability to make payment on the lease or purchase amount.

The revision to the information collection simply reflects the increase in the total amount of burden hours expected related to inventory property requests. The increase is due to an approximately 13 percent increase in the number of inventory properties being held by FSA since the previous approval request, and thus a higher number of responses. No additional forms, response actions or time

increases were added as part of the revision.

Estimate of Average Time to Respond: 44 minutes per response. The average travel time, which is included in the total annual burden, is estimated to be 1 hour per respondent.

Respondents: Individuals or households, businesses or other for profit farms.

Estimated Annual Number of Respondents: 314.

Estimated Number of Responses per Respondent: 1.03.

Total Annual Responses: 325.

Estimated Total Annual Burden Hours: 551.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of FSA’s estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice, including name and addresses when provided, will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed on July 25, 2013.

Juan M. Garcia,

Administrator, Farm Service Agency.
