NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the event plan was received on July 16, 2013, which is only 34 days prior to the event date. As such, it is impracticable to provide a full comment period due to lack of time. Delaying this regulation's effective date for comment would be impracticable as immediate action is needed to ensure the safety of the other vessels transiting the event area. The Coast Guard will provide advance notifications to users of the effected waterways of the safety zone via marine information broadcasts and local notice to mariners.

B. Basis and Purpose

From August 19 through August 22, 2013, the Naval Special Warfare Development Group will conduct a training exercise on the USNS Del Monte in the James River in the vicinity of the James River Reserve Fleet. Due to the need to protect mariners from the hazards associated with a live fire and explosives training, such as the accidental discharge of ammunition and, dangerous projectiles, vessel traffic will be temporarily restricted within 1500 feet of the USNS Del Monte.

C. Discussion of the Rule

The Coast Guard is establishing a 1500 foot radius safety zone on specified waters of James River around approximate position 37°06'11" N/076°38'40" W in the vicinity of the James River Reserve Fleet. This safety zone is being established in the interest of public safety during the live fire and explosive training exercise and will be
