

DB plan administrators generally are required to use to calculate contributions. Under the new rules, the generally required interest rates are limited to rates that are within a specified range, or corridor, above or below a 25-year average for the rates.

Employee Retirement Income Security Act of 1974 (ERISA) section 101(f) sets forth the requirements for plan administrators of most single-employer DB plans to furnish annual funding notices to the PBGC, plan participants and beneficiaries, and each labor organization representing such participants or beneficiaries. MAP-21 section 40211(b)(2)(A) has amended ERISA section 101(f)(2), by adding a new subparagraph (D), to require single-employer DB plan administrators to disclose additional information in the annual funding notice for a plan year beginning after December 31, 2011, and before January 1, 2015, regarding the effect of the MAP-21 segment rate stabilization rules on plan liabilities and the plan sponsor's minimum required contributions to the plan. MAP-21 section 40211(b)(2)(B) requires the Department to modify the model annual funding notice required under Pension Protection Act of 2006 (PPA) section 501(c) to include, prominently, the supplemental information required under new ERISA section 101(f)(2)(D).

On March 8, 2013, the Department released EBSA Field Assistance Bulletin (FAB) 2013-01 concerning the new disclosure requirements mandated the MAP-21. The FAB addresses a need for interim guidance pending the adoption of regulations or other guidance under ERISA section 101(f), as amended by the MAP-21. The FAB sets forth technical questions and answers and provides a model supplement that plan administrators may use to discharge their MAP-21 disclosure obligations and provides that, pending further guidance and as a matter of enforcement policy, the Department will treat a single employer DB plan administrator as satisfying MAP-21 requirements if the plan administrator complies with the guidance in the memorandum and otherwise acts in accordance with a good faith and reasonable interpretation of those requirements.

On April 19, 2013, the Office of Management and Budget (OMB) approved the model supplement as a revision to OMB Control Number 1210-0126 under the emergency procedures for review and clearance in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35) and 5 CFR 1320.13. OMB approval of the revision currently is scheduled to expire on December 31, 2013.

Desired Focus of Comments

The Department is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
