**Standard Instrument Approach  
Procedures, and Takeoff Minimums  
and Obstacle Departure Procedures;  
Miscellaneous Amendments**

**AGENCY:** Federal Aviation  
Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This rule establishes, amends,  
suspends, or revokes Standard  
Instrument Approach Procedures  
(SIAPs) and associated Takeoff  
Minimums and Obstacle Departure  
Procedures for operations at certain  
airports. These regulatory actions are  
needed because of the adoption of new  
or revised criteria, or because of changes  
occurring in the National Airspace  
System, such as the commissioning of  
new navigational facilities, adding new  
obstacles, or changing air traffic  
requirements. These changes are  
designed to provide safe and efficient  
use of the navigable airspace and to  
promote safe flight operations under  
instrument flight rules at the affected  
airports.

**DATES:** This rule is effective August 19,  
2013. The compliance date for each  
SIAP, associated Takeoff Minimums,  
and ODP is specified in the amendatory  
provisions.

The incorporation by reference of  
certain publications listed in the  
regulations is approved by the Director  
of the **Federal Register** as of August 19,  
2013.

**ADDRESSES:** Availability of matters  
incorporated by reference in the  
amendment is as follows:

*For Examination—*

1. FAA Rules Docket, FAA  
Headquarters Building, 800  
Independence Avenue SW.,  
Washington, DC 20591;

**SUPPLEMENTARY INFORMATION:** This rule  
amends Title 14 of the Code of Federal  
Regulations, Part 97 (14 CFR Part 97), by  
establishing, amending, suspending, or  
revoking SIAPs, Takeoff Minimums  
and/or ODPS. The complete regulators  
description of each SIAP and its  
associated Takeoff Minimums or ODP  
for an identified airport is listed on FAA  
form documents which are incorporated  
by reference in this amendment under 5  
U.S.C. 552(a), 1 CFR Part 51, and 14  
CFR Part 97.20. The applicable FAA  
Forms are FAA Forms 8260-3, 8260-4,  
8260-5, 8260-15A, and 8260-15B when  
required by an entry on 8260-15A.

The large number of SIAPs, Takeoff  
Minimums and ODPS, in addition to  
their complex nature and the need for  
a special format make publication in the  
**Federal Register** expensive and

impractical. Furthermore, airmen do not  
use the regulatory text of the SIAPs,  
Takeoff Minimums or ODPS, but instead  
refer to their depiction on charts printed  
by publishers of aeronautical materials.  
The advantages of incorporation by  
reference are realized and publication of  
the complete description of each SIAP,  
Takeoff Minimums and ODP listed on  
FAA forms is unnecessary. This  
amendment provides the affected CFR  
sections and specifies the types of SIAPs  
and the effective dates of the, associated  
Takeoff Minimums and ODPS. This  
amendment also identifies the airport  
and its location, the procedure, and the  
amendment number.

**The Rule**

This amendment to 14 CFR Part 97 is  
effective upon publication of each  
separate SIAP, Takeoff Minimums and  
ODP as contained in the transmittal.  
Some SIAP and Takeoff Minimums and  
textual ODP amendments may have  
been issued previously by the FAA in a  
Flight Data Center (FDC) Notice to  
Airmen (NOTAM) as an emergency  
action of immediate flight safety relating  
directly to published aeronautical  
charts. The circumstances which  
created the need for some SIAP and  
Takeoff Minimums and ODP  
amendments may require making them  
effective in less than 30 days. For the  
remaining SIAPs and Takeoff  
Minimums and ODPS, an effective date  
at least 30 days after publication is  
provided.

Further, the SIAPs and Takeoff  
Minimums and ODPS contained in this  
amendment are based on the criteria  
contained in the U.S. Standard for  
Terminal Instrument Procedures  
(TERPS). In developing these SIAPs and  
Takeoff Minimums and ODPS, the  
TERPS criteria were applied to the  
conditions existing or anticipated at the  
affected airports. Because of the close  
and immediate relationship between  
these SIAPs, Takeoff Minimums and  
ODPs, and safety in air commerce, I find  
that notice and public procedures before  
adopting these SIAPs, Takeoff  
Minimums and ODPS are impracticable  
and contrary to the public interest and,  
where applicable, that good cause exists  
for making some SIAPs effective in less  
than 30 days.

**Conclusion**

The FAA has determined that this  
regulation only involves an established  
body of technical regulations for which  
frequent and routine amendments are  
necessary to keep them operationally  
current. It, therefore—(1) Is not a  
“significant regulatory action” under  
Executive Order 12866; (2) is not a

“significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Federal Aviation Administration

#### 14 CFR Part 97

[Docket No. 30915; Amdt. No. 3550]

#### Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This rule establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

**DATES:** This rule is effective August 19, 2013. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the **Federal Register** as of August 19, 2013.

**ADDRESSES:** Availability of matter incorporated by reference in the amendment is as follows:

#### For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591;
2. The FAA Regional Office of the region in which the affected airport is located;
3. The National Flight Procedures Office, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 or,
4. The National Archives and Records Administration (NARA). For information on the availability of this

material at NARA, call 202-741-6030, or go to: [http://www.archives.gov/federal\\_register/code\\_of\\_federal\\_regulations/ibr\\_locations.html](http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html).

**Availability—**All SIAPs are available online free of charge. Visit [nfdc.faa.gov](http://nfdc.faa.gov) to register. Additionally, individual SIAP and Takeoff Minimums and ODP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

#### FOR FURTHER INFORMATION CONTACT:

Richard A. Dunham III, Flight Procedure Standards Branch (AFS-420) Flight Technologies and Programs Division, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082, Oklahoma City, OK 73125) telephone: (405) 954-4164.

**SUPPLEMENTARY INFORMATION:** This rule amends Title 14, Code of Federal Regulations, Part 97 (14 CFR part 97) by amending the referenced SIAPs. The complete regulatory description of each SIAP is listed on the appropriate FAA Form 8260, as modified by the National Flight Data Center (FDC)/Permanent Notice to Airmen (P-NOTAM), and is incorporated by reference in the amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of Title 14 of the Code of Federal Regulations.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. This amendment provides the affected CFR sections and specifies the types of SIAP and the corresponding effective dates. This amendment also identifies the airport and its location, the procedure and the amendment number.

#### The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP as amended in the transmittal. For safety and timeliness of change considerations, this amendment incorporates only specific changes
