

functions and to increase the assessment rate.

This action would increase the assessment obligation imposed on handlers. While the increase would impose some additional costs on handlers, the costs are minimal and uniform on all handlers. Additionally, these costs would be offset by the benefits derived from the operation of the order.

Like all Committee meetings, the May 13, 2013, meeting was a public meeting and all entities, both large and small, were able to express their views on this issue. The Committee's meeting was widely publicized throughout the Washington apricot industry and all interested persons were invited to attend and participate in the Committee's deliberations. Finally, interested persons are invited to submit comments on this proposed rule, including the regulatory and informational impacts of this action on small businesses.

In accordance with the Paperwork Reduction Act of 1995, (44 U.S.C. Chapter 35), the order's information collection requirements have been previously approved by the Office of Management and Budget (OMB) and assigned OMB No. 0581-0189. No changes in those requirements as a result of this action are necessary. Should any changes become necessary, they would be submitted to OMB for approval.

This proposed rule would not impose any additional reporting or recordkeeping requirements on either small or large Washington apricot handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

USDA has not identified any relevant Federal rules that duplicate, overlap or conflict with this action.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: www.ams.usda.gov/MarketingOrdersSmallBusinessGuide. Any questions about the compliance guide should be sent to Jeffrey Smutny at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A 15-day comment period is provided to allow interested persons to respond to this proposed rule. Fifteen days is deemed appropriate because: (1) The 2013–2014 fiscal period began on April 1, 2013, and the order requires that the assessment rate for each fiscal period apply to all assessable Washington apricots handled during such fiscal period; (2) the Committee needs to have sufficient funds to pay its expenses, which are incurred on a continuous basis; (3) handlers are already shipping Washington apricots from the 2013 crop; and (4) handlers are aware of this action, which was unanimously recommended by the Committee at a public meeting, and is similar to other assessment rate actions issued in past years.

Regulatory Capital Rules: Regulatory Capital, Enhanced Supplementary Leverage Ratio Standards for Certain Bank Holding Companies and Their Subsidiary Insured Depository Institutions

AGENCY: Office of the Comptroller of the Currency, Treasury; the Board of Governors of the Federal Reserve System; and the Federal Deposit Insurance Corporation.

ACTION: Joint notice of proposed rulemaking.

SUMMARY: The Office of the Comptroller of the Currency (OCC), the Board of Governors of the Federal Reserve System (Board), and the Federal Deposit Insurance Corporation (FDIC) (collectively, the agencies) are seeking comment on a proposal that would strengthen the agencies' leverage ratio standards for large, interconnected U.S. banking organizations. The proposal would apply to any U.S. top-tier bank holding company (BHC) with at least \$700 billion in total consolidated assets or at least \$10 trillion in assets under custody (covered BHC) and any insured depository institution (IDI) subsidiary of these BHCs. In the revised capital approaches adopted by the agencies in July, 2013 (2013 revised capital approaches), the agencies established a minimum supplementary leverage ratio of 3 percent (supplementary leverage ratio), consistent with the minimum leverage ratio adopted by the Basel Committee on Banking Supervision (BCBS), for banking organizations subject to the advanced approaches risk-based capital rules. In this notice of proposed rulemaking (proposal or proposed rule), the agencies are proposing to establish a "well

capitalized" threshold of 6 percent for the supplementary leverage ratio for any IDI that is a subsidiary of a covered BHC, under the agencies' prompt corrective action (PCA) framework. The Board also proposes to establish a new leverage buffer for covered BHCs above the minimum supplementary leverage ratio requirement of 3 percent (leverage buffer). The leverage buffer would function like the capital conservation buffer for the risk-based capital ratios in the 2013 revised capital approaches. A covered BHC that maintains a leverage buffer of tier 1 capital in an amount greater than 2 percent of its total leverage exposure would not be subject to limitations on distributions and discretionary bonus payments. The proposal would take effect beginning on January 1, 2018. The agencies seek comment on all aspects of this proposal.

DATES: Comments must be received by October 21, 2013.

ADDRESSES: Comments should be directed to:

OCC: Because paper mail in the Washington, DC area and at the OCC is subject to delay, commenters are encouraged to submit comments by the Federal eRulemaking Portal or email, if possible.
