Background

The MDTA submitted a request to the FHWA for approval of the temporary closure of I-395 just south of Conway Street in the city of Baltimore from the period beginning Wednesday, August 28, at approximately 7 p.m. through Tuesday, September 3, at around 6 a.m., encompassing the Labor Day holiday. This closure will be undertaken in support of the BGP which will use the streets of downtown Baltimore as a race course. The MDTA is the owner and operator of I-395 and I-95 within the city of Baltimore.

The FHWA is responsible for enforcing the Federal regulations applicable to the National Network of highways that can safely and efficiently accommodate the large vehicles authorized by provisions of the Surface Transportation Assistance Act of 1982, as amended, designated in accordance with 23 CFR Part 658 and listed in Appendix A. In accordance with 23 CFR 658.11, the FHWA may approve deletions or restrictions of the Interstate system or other National Network route based upon specified justification criteria in section 658.11(d)(2). Requests for deletions are published in the **Federal Register** for notice and comment.

Notice and Request for Comment

The FHWA published a Notice and Request for Comment on May 13, seeking comments from the general public on this request submitted by the MDTA for a deletion in accordance with 23 CFR 658.11(d). The comment period closed on June 12. No comments were received.

The FHWA sought comments on this request for temporary deletion from the National Network in accordance with 23 CFR 658.11(d). Specifically, the request is for approval of the temporary closure

of I-395 just south of Conway Street in the city of Baltimore from the period beginning Wednesday August 28, at approximately 7 p.m. through Tuesday, September 3, at around 6 a.m., encompassing the Labor Day holiday. This closure will be undertaken in support of the BGP which will use the streets of downtown Baltimore as a race course. The 2013 event is expected to attract 160,000 spectators over a 3-4 day period, not including the event organizer workforce and volunteers, the racing organizations and their respective personnel, or media and vendors. Event planners expect spectators from within a 400-mile radius of the city, with a large portion traveling the I-95 corridor. It is anticipated that the attendance for the peak day (Sunday) will reach 70,000 people with most arriving by private vehicle.

The construction and operation of the race course will create safety concerns by obstructing access from the I-395 northern terminus to the local street system including Howard Street, Conway Street, and Lee Street. However, an existing connection from I-395 to Martin Luther King, Jr. Boulevard will remain open throughout the event. In addition, access to and from I-95 into and out of the city along alternative access routes, including US 1, US 40, Russell Street, and Washington Boulevard will be maintained. The BGP and the city plan to update the 2012 signing plan to inform and guide motorists to, through, and around the impacted downtown area. The statewide transportation operations system, the Coordinated Highways Action Response Team, will provide real-time traffic information to motorists through dynamic message signs and highway advisory radio. The MDTA states that the temporary closure of this segment of I-395 to general traffic should have no impact on Interstate commerce. I-95, the main north-south Interstate route in the region, will remain open during the time period of the event. There are five additional I-95 interchanges, just to the north or south of I-395, with connections to the local street system including the arterials servicing the city's downtown area. A sign and supplemental traffic control systems plan was developed as part of the 2011 event's Traffic Management Plan (TMP). In addition, I-695 (Baltimore Beltway) will provide motorists traveling through the region the ability to bypass the impact area by circling around the city.

Commercial motor vehicles of the dimensions and configurations described in 23 CFR 658.13 and 658.15 which serve the impacted area, may use the alternate routes listed above.
