ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended, (NEPA) and the Federal Land Policy and Management Act (FLPMA) of 1976, as amended, the Bureau of Land Management (BLM) Egan Field Office, Ely, Nevada, intends to prepare an Environmental Impact Statement (EIS) and by this notice is announcing the beginning of the scoping process to solicit public comments and identify issues. SUPPLEMENTARY INFORMATION: Midway Gold US, Inc. (Midway) proposes to construct and operate an open-pit gold mining operation, which would include an open pit; a heap leach pad and

associated ponds, process facility, and refinery; a mill; a carbon-in-leach plant; waste rock dumps; a tailings storage facility; and ancillary facilities. The mine would be located on the eastern side of the Pancake Mountain Range, about 30 miles southeast of Eureka, 50 miles west of Ely and 15 miles south of U.S. Route 50. Currently, Midway is authorized to disturb up to 267 acres for exploration purposes. The proposed operations and associated disturbance would increase disturbance to 3,749 acres of public land managed by the BLM. The projected mining period is 10 years. Associated construction, closure, reclamation, and post-closure monitoring periods would extend the project life for an additional estimated 38 years. Midway is currently conducting exploration activities in this area which were analyzed in two environmental assessments: The *Midway Gold Rock Project Final Environmental Assessment* (June 2012), and the *Environmental Assessment for the Midway Gold Rock Project, Exploration Amendment* (October 2012).

A range of alternatives will be developed, including the no-action alternative, to address the issues identified during scoping. Mitigation measures will be considered to minimize environmental impacts and to assure the proposed action does not result in unnecessary or undue degradation of public lands.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the EIS. At present, the BLM has identified the following preliminary issues:

(a) Potential effects to wild horses, which would include loss of habitat from surface disturbance and which could include mortality from collision with project-related vehicles on existing roads.

(b) Potential effects to Greater Sage-Grouse, which would include loss of habitat from surface disturbance and which could include impacts to the species created by construction and operation in proximity to active sage-grouse leks.

(c) Potential effects to mule deer, which would include loss of habitat from surface disturbance habitat and which could include mortality from collision with project-related vehicles on existing access roads.

(d) Potential effects to employment and housing availability.

(e) Potential effects to archaeological resources in the area, which could

include Carbonari (historical charcoal production) sites and the Lincoln Highway route.

(f) Potential effects to air quality created by the initiation of mining at the Gold Rock Mine Project.

(g) Potential effects to viewshed in and around areas of Visual Resources Management Classes III and IV from project construction and operation, including effects to night sky from nighttime operations.

(h) Potential effects to recreational uses and users, which would include loss of access and loss of hunting areas.

The BLM will use the NEPA commenting process to help fulfill the public involvement requirements of Section 106 of the National Historic Preservation Act (16 U.S.C. 470f) as provided for in 36 CFR 800.2(d)(3). Native American tribal consultations will be conducted in accordance with policy, and tribal concerns, including impacts on Indian trust assets, will be given due consideration. The BLM is in the process of determining the Cooperating Agencies. Federal, State, and local agencies, along with other stakeholders that may be interested or affected by the BLM's decision on this project are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time.
