Background

On May 1, 2013, the Department of Commerce (the Department) published a notice of opportunity to request an administrative review of the countervailing duty (CVD) order on citric acid and certain citrate salts from the People's Republic of China (PRC) covering the period of January 1, 2012, through December 31, 2012.¹ The Department received a timely request for a CVD administrative review from Petitioners² for RZBC Group Co., Ltd., RZBC Co., Ltd., RZBC Import & Export Co., Ltd., and RZBC (Juxian) Co., Ltd. Rescission, in Part

Pursuant to 19 CFR 351.213(d)(1), the Secretary will rescind an administrative review, in whole or in part, if a party that requested the review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review. [Docket No. 130402311-3311-01]

Announcing Approval of Federal Information Processing Standard (FIPS) Publication 201-2, Personal Identity Verification (PIV) of Federal Employees and Contractors

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: This notice announces the Secretary of Commerce's approval of Federal Information Processing Standard (FIPS) Publication 201-2, Personal Identity Verification (PIV) of Federal Employees and Contractors. FIPS 201-2 includes clarifications to existing text, additional text in cases where there were ambiguities, adaptation to changes in the environment since the publication of FIPS 201-1, and specific changes requested by Federal agencies and implementers.

DATES: FIPS 201-2 is effective on September 5, 2013.

ADDRESSES: FIPS 201-2 is available electronically from the NIST Web site at: <http://csrc.nist.gov/publications/PubsFIPS.html>. Comments that were received on the proposed changes will also be published electronically at <http://csrc.nist.gov/groups/SNS/piv/index.html>.

FOR FURTHER INFORMATION CONTACT: Hildegard Ferraiolo, (301) 975-6972, National Institute of Standards and Technology, 100 Bureau Drive, Mail Stop 8930, Gaithersburg, MD 20899-8930, email: hildegard.ferraiolo@nist.gov, or David Cooper, (301) 975-3194, david.cooper@nist.gov.
SUPPLEMENTARY INFORMATION: FIPS 201 was issued on April 8, 2005 (70 FR 17975) in response to Homeland Security Presidential Directive 12 (HSPD-12), and in accordance with NIST policy was due for review in 2010. In consideration of technological advancements over the last five years and specific requests for changes from United States Government (USG) stakeholders, NIST determined that a revision of FIPS 201-1 (version in

effect) was warranted. NIST received numerous change requests, some of which, after analysis and coordination with the Office of Management and Budget (OMB) and USG stakeholders, were incorporated in a proposed draft of FIPS 201-2 ("2011 Draft"). Other change requests incorporated in the 2011 Draft resulted from the 2010 Business Requirements Meeting held at NIST. The meeting focused on business requirements of federal departments and agencies. On March 8, 2011, a notice was published in the **Federal Register** (76 FR 12712), soliciting public comments on the 2011 Draft. During the public comment period, a public workshop was held at NIST on April 18-19, 2011, in order to present the 2011 Draft. Comments and questions regarding the 2011 Draft were submitted by 46 entities, composed of 25 U.S. federal government organizations, two state government organizations, one foreign government organization, 16 private sector organizations, and two private individuals. NIST made significant changes to the 2011 Draft based on the public comments received.

On July 9, 2012, NIST published a notice in the **Federal Register** (77 FR 40338) announcing the Revised Draft FIPS 201-2 ("2012 Revised Draft"), which incorporated the changes from the 2011 Draft, based on the received public comments, and solicited comments on the revised draft standard. Comments and questions on the 2012 Revised Draft were submitted by 36 entities, composed of 16 U.S. federal government organizations, 19 private sector organizations, and one private individual. All comments received in response to both **Federal Register** notices have been made available by NIST at <http://csrc.nist.gov>. None of the commenters opposed the approval of a revised standard. Many commenters asked for clarification of the text of the standard and/or recommended editorial and/or formatting changes. Other commenters suggested modifying the requirements and asked questions concerning the implementation of the standard. All of the suggestions, questions, and recommendations within the scope of this FIPS were carefully reviewed, and changes were made to the standard, where appropriate. Some commenters submitted questions or raised issues that were related but outside the scope of this FIPS. Comments that were outside the scope of this FIPS, but that were within the scope of one of the related Special Publications, were deferred for later consideration in the context of the revisions to the Special Publications.
