On April 2, 2013, Lock+ Hydro Friends Fund XIX, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Claiborne Lock & Dam on the Alabama River near the town of Monroeville in Monroe County, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A concrete lined intake channel with a trash rack system; (2) a 166.5-foot-long, 165.2-foot-wide powerhouse containing two generating units with a total capacity of 22 megawatts; (3) a 250-foot-long, 165-foot-wide tailrace; (4) a 13.8/115 kilo-Volt (kV) substation; and (5) a 5.5-mile-long, 69kV transmission line. methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: In the course of administering environmental protection statutes, EPA collects data from “businesses” in many sectors of the U.S. economy. In many cases, “businesses” mark the data it submits to EPA as confidential business information (CBI). In addition, businesses submit information to EPA without the Agency requesting the information. EPA established the procedures described in 40 CFR Part 2, subparts A and B, to protect the confidentiality of information as well as the rights of the public to obtain access to information under the Freedom of Information Act (FOIA). In accordance with these regulations, when EPA finds it necessary to make a final confidentiality determination (e.g., in response to a FOIA request or in the course of rulemaking or litigation, a resubstantiation of a prior claim, or an advance confidentiality determination), it shall notify the affected business and provide an opportunity to submit a substantiation of confidentiality claims. This ICR relates to information EPA needs to collect to assist in determining whether previously submitted information is entitled to confidential treatment.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are businesses and other for-profit companies.

Respondent's obligation to respond: Required to obtain or retain a benefit, 5 USC Section 522 Freedom of Information Act.

Estimated number of respondents: 1,320.

Frequency of response: 1 per year.

Total estimated burden: 1,992 hours. Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$88,825.25 includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: As part of the ICR renewal process, EPA is obtaining usage for the past 12 months of each of the letters covered by this ICR to obtain up-to-date estimates. EPA anticipates that both usage and response rates will decrease.

Director, Collection Strategies Division.
