Employee Occupational Safety and Health Programs), and 41 CFR Part 102–3.

Signed at Washington, DC on August 30, 2013.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

Submission for OMB Review; Comment Request

The National Endowment for the Arts (NEA) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995: Blanket Justification for NEA Funding Application Guidelines and Reporting Requirements. Copies of this ICR, with applicable supporting documentation, may be obtained by visiting www.Reginfo.gov.

Comments should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the National Endowment for the Arts, Office of Management and Budget, Room 10235, Washington, DC 20503 202/395–7316, within 30 days from the date of this publication in the **Federal Register**.

The Office of Management and Budget (OMB) is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Could help minimize the burden of the collection of information on those who are to respond, including through the use of electronic submission of responses through Grants.gov.

SUPPLEMENTARY INFORMATION: The Endowment requests the review of all of its funding application guidelines and grantee reporting requirements. This entry is issued by the Endowment and contains the following information: (1)

The title of the form; (2) how often the required information must be reported; (3) who will be required or asked to report; (4) what the form will be used for; (5) an estimate of the number of responses; (6) the average burden hours per response; (7) an estimate of the total number of hours needed to prepare the form. This entry is not subject to 44 U.S.C. 3504(h).

Agency: National Endowment for the Arts.

Title: Blanket Justification for NEA Funding Application Guidelines and Reporting Requirements.

OMB Number: 3135–0112. Frequency: Annually.

Affected Public: Nonprofit organizations, government agencies, and individuals.

Estimated Number of Respondents: 5,465.

Estimated Time per Respondent: 22 hours (applications)/8 hours (reports). Total Burden Hours: 138,218.

Total Annualized Capital/Startup Costs: 0.

Total Annual Costs (Operating/ Maintaining Systems or Purchasing Services): 0.

Description: Guideline instructions and applications elicit relevant information from individuals, nonprofit organizations, and government arts agencies that apply for funding from the NEA. This information is necessary for the accurate, fair, and thorough consideration of competing proposals in the review process. According to OMB Circulars A-102 and A-110, recipients of federal funds are required to report on project activities and expenditures. Reporting requirements are necessary to ascertain that grant projects have been completed, and that all terms and conditions have been fulfilled.

Kathy Plowitz-Worden,

Panel Coordinator, National Endowment for the Arts.

BILLING CODE 7570-02-P

NUCLEAR REGULATORY COMMISSION

[NRC-2013-0199; EA-13-065]

In the Matter of Certain Panoramic and Underwater Irradiators Authorized to Possess Greater Than 370 Terabecquerels (10,000 Curies) Byproduct Material in the Form of Sealed Sources; Order Imposing Compensatory Measures (Effective Immediately)

Ι

The Licensee identified in Attachment 1 to this Order holds a license issued in accordance with the Atomic Energy Act of 1954 and part 36 of Title 10 of the Code of Federal Regulations (10 CFR) by the U.S. Nuclear Regulatory Commission (NRC) authorizing possession of greater than 370 terabecquerels (10,000 curies) of byproduct material in the form of sealed sources in panoramic irradiators that have dry or wet storage of the sealed sources, or in underwater irradiators in which both the source and the product being irradiated are under water. The Commission's regulations in 10 CFR 20.1801 or equivalent Agreement State regulations require Licensees to secure, from unauthorized removal or access, licensed materials that are stored in controlled or unrestricted areas. The Commission's regulations in 10 CFR 20.1802 or equivalent Agreement State regulations require Licensees to control

and maintain constant surveillance of licensed material that is in a controlled or unrestricted area and that is not in storage.

TT

On September 11, 2001, terrorists simultaneously attacked targets in New York, NY, and Washington, DC, utilizing large commercial aircraft as weapons. In response to the attacks and intelligence information subsequently obtained, the Commission issued a number of Safeguards and Threat Advisories to its licensees in order to strengthen licensees' capabilities and readiness to respond to a potential attack on a nuclear facility. The Commission has also communicated with other Federal. State and local government agencies and industry representatives to discuss and evaluate the current threat environment in order to assess the adequacy of security measures at licensed facilities. In addition, the Commission has been conducting a review of its safeguards and security programs and requirements.

Às a result of its consideration of current safeguards and license requirements, as well as a review of information provided by the intelligence community, the Commission has determined that certain compensatory measures are required to be implemented by licensees as prudent measures to address the current threat environment. Therefore, the Commission is imposing requirements, as set forth in Attachment 21 on the Licensee identified in Attachment 12 of this Order who currently possesses, or has near term plans to possess, greater than 370 terabecquerels (10,000 curies) of byproduct material in the form of sealed sources. These requirements, which supplement existing regulatory requirements, will provide the Commission with reasonable assurance that the public health and safety and common defense and security continue to be adequately protected in the current threat environment.

Attachment 3 of this Order contains the requirements for fingerprinting and criminal history record checks for individuals when the licensee's reviewing official is determining access to Safeguards Information or unescorted access to the panoramic or underwater irradiator sealed sources. These requirements will remain in effect until the Commission determines otherwise.

The Commission concludes that these security measures must be embodied in an Order, consistent with the established regulatory framework. The Commission has broad statutory authority to protect and prohibit the unauthorized disclosure of Safeguards Information. Section 147 of the Atomic Energy Act of 1954, as amended, grants the Commission explicit authority to "issue such orders, as necessary to prohibit the unauthorized disclosure of safeguards information. . . ." This authority extends to information concerning special nuclear material, source material, and byproduct material, as well as production and utilization facilities. Licensees must ensure proper handling and protection of Safeguards Information to avoid unauthorized disclosure in accordance with the specific requirements for the protection of Safeguards Information contained in Attachment 2 to the NRC's "Order Imposing Requirements for the Protection of Certain Safeguards Information" (EA-12-147). The Commission hereby provides notice that it intends to treat all violations of the requirements contained in Attachment 2 to the NRC's "Order Imposing Requirements for the Protection of Certain Safeguards Information" (EA-12-147), applicable to the handling and unauthorized disclosure of Safeguards Information as serious breaches of adequate protection of the public health and safety and the common defense and security of the United States.

Access to Safeguards Information is limited to those persons who have established a need-to-know the information, are considered to be trustworthy and reliable, have been fingerprinted and undergone a Federal Bureau of Investigation (FBI) identification and criminal history records check in accordance with the NRC's "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information" (EA-12-148). A need-toknow means a determination by a person having responsibility for protecting Safeguards Information that a proposed recipient's access to Safeguards Information is necessary in the performance of official, contractual, or licensee duties of employment. Individuals who have been fingerprinted and granted access to Safeguards Information by the reviewing official under the NRC Order EA-12-148, dated October 16, 2012, do not need to be fingerprinted again for

purposes of being considered for unescorted access.

This Order also requires that a reviewing official must consider the results of the FBI criminal history records check in conjunction with other applicable requirements to determine whether an individual may be granted or allowed continued unescorted access. The reviewing official may be one that has previously been approved by NRC in accordance with the NRC Order EA-12-148 dated October 16, 2012. Licensees may nominate additional reviewing officials for making unescorted access determinations in accordance with the EA-12-148 Order. The nominated reviewing officials must have access to Safeguards Information or require unescorted access to the radioactive material as part of their job

In order to provide assurance that the Licensees are implementing prudent measures to achieve a consistent level of protection to address the current threat environment, all licensees who hold licenses issued by the NRC or an Agreement State authorizing possession greater than 370 terabecquerels (10,000 curies) of byproduct material in the form of sealed sources in a panoramic or underwater irradiator shall implement the requirements identified in Attachments 2 and 3 to this Order. In addition, pursuant to 10 CFR 2.202, I find that in light of the common defense and security matters identified above, which warrant the issuance of this Order, the public health, safety and interest require that this Order be effective immediately.

Ш

Accordingly, pursuant to Sections 81, 147, 149, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, 10 CFR Part 30, Part 36, and Part 73, it is hereby ordered, effective immediately, that all licensees identified in attachment 1 to this order shall comply with the requirements of this order as follows:

A. The Licensee shall, notwithstanding the provisions of any Commission or Agreement State regulation or license to the contrary, comply with the requirements described in Attachments 2 and 3 to this Order. This order is effective immediately.

B. 1. The Licensee shall, within twenty (20) days of the date of this Order, notify the Commission, (1) if it is unable to comply with any of the requirements described in Attachments 2 or 3, (2) if compliance with any of the requirements is unnecessary in its specific circumstances, or (3) if

¹ Attachment 2 contains some requirements that are SAFEGUARDS INFORMATION, and cannot be released to the public. The remainder of the requirements contained in Attachment 2 that are not SAFEGUARDS INFORMATION are being released to the public.

² Attachment 1 contains sensitive information and will not be released to the public.

implementation of any of the requirements would cause the Licensee to be in violation of the provisions of any Commission or Agreement State regulation or its license. The notification shall provide the Licensee's justification for seeking relief from or variation of any specific requirement.

2. If the Licensee considers that implementation of any of the requirements described in Attachments 2 or 3 to this Order would adversely impact safe operation of the facility, the Licensee must notify the Commission, within twenty (20) days of this Order, of the adverse safety impact, the basis for its determination that the requirement has an adverse safety impact, and either a proposal for achieving the same objectives specified in the Attachments 2 or 3 requirement in question, or a schedule for modifying the facility to address the adverse safety condition. If neither approach is appropriate, the Licensee must supplement its response to Condition B.1 of this Order to identify the condition as a requirement with which it cannot comply, with attendant justifications as required in Condition B.1.

C. 1. In accordance with the NRC's "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information" (EA-12-148) issued on October 16, 2012, only the NRCapproved reviewing official shall review results from an FBI criminal history records check. The licensee may use a reviewing official previously approved by the NRC as its reviewing official for determining access to Safeguards Information or the licensee may nominate another individual specifically for making unescorted access to radioactive material determinations, using the process described in EA-12-148. The reviewing official must have access to Safeguards Information or require unescorted access to the radioactive material as part of their job duties. The reviewing official shall determine whether an individual may have, or continue to have, unescorted access to the panoramic or underwater irradiator sealed sources that equal or exceed 370 Terabecquerels (10,000 curies).

Fingerprinting and the FBI identification and criminal history records check are not required for individuals exempted from fingerprinting requirements under 10 CFR 73.61 [72 FR 4948 (February 2, 2007)]. In addition, individuals who have a favorably decided U.S. Government criminal history records check within the last five (5) years, or have an active Federal security

clearance (provided in each case that the appropriate documentation is made available to the Licensee's reviewing official), have satisfied the Energy Policy Act of 2005 fingerprinting requirement and need not be fingerprinted again for purposes of being considered for unescorted access.

2. No person may have access to Safeguards Information or unescorted access to the panoramic or underwater irradiator sealed sources if the NRC has determined, in accordance with its administrative review process based on fingerprinting and an FBI identification and criminal history records check, either that the person may not have access to Safeguards Information or that the person may not have unescorted access to a utilization facility or radioactive material subject to regulation by the NRC.

D. Fingerprints shall be submitted and reviewed in accordance with the procedures described in Attachment 3 to this Order. Individuals who have been fingerprinted and granted access to Safeguards Information by the reviewing official under Order EA–12–148 do not need to be fingerprinted again for purposes of being considered for unescorted access.

E. The Licensee may allow any individual who currently has unescorted access to the panoramic or underwater irradiator sealed sources, in accordance with this Order, to continue to have unescorted access during the pendency of a decision by the reviewing official (based on fingerprinting, an FBI criminal history records check and a trustworthiness and reliability determination) that the individual may continue to have unescorted access to the panoramic or underwater irradiator sealed sources.

F. 1. The Licensee shall, within twenty (20) days of the date of this Order, submit to the Commission a schedule for completion of each requirement described in Attachments 2 and 3.

2. The Licensee shall report to the Commission when they have achieved full compliance with the requirements described in Attachments 2 and 3.

G. Notwithstanding any provisions of the Commission's or Agreement State's regulations to the contrary, all measures implemented or actions taken in response to this Order shall be maintained until the Commission determines otherwise.

Licensee response to Conditions B.1, B.2, F.1, and F.2 above shall be submitted to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission,

Washington, DC 20555. In addition, Licensee submittals that contain specific physical protection or security information considered to be Safeguards Information shall be put in a separate enclosure or attachment and, marked as "SAFEGUARDS INFORMATION—MODIFIED HANDLING" and mailed. No electronic transmittals (i.e., no email or FAX) to the NRC in accordance with Attachment 2 to the NRC's "Order Imposing Requirements for the Protection of Certain Safeguards Information" (EA-12-147).

The Director, Office of Federal and State Materials and Environmental Management Programs, may, in writing, relax or rescind any of the above conditions upon demonstration by the Licensee of good cause.

10011300 01 5000

IV

In accordance with 10 CFR 2.202, the Licensee must, and any other person adversely affected by this Order may, submit an answer to this Order within twenty (20) days of the date of this Order. In addition, the Licensee and any other person adversely affected by this Order may request a hearing of this Order within twenty (20) days of the date of the Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made, in writing, to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and include a statement of good cause for the extension.

The answer may consent to this Order. If the answer includes a request for a hearing, it shall, under oath or affirmation, specifically set forth the matters of fact and law on which the Licensee relies and the reasons as to why the Order should not have been issued. If a person other than the Licensee requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309(d).

All documents filed in the NRC adjudicatory proceedings, including a request for hearing, a petition for leave to intervene, any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities participating under 10 CFR 2.315(c), must be filed in accordance with the NRC's E-Filing rule (72 FR 49139; August 28, 2007). The E-Filing process requires participants to

submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at hearing.docket@nrc.gov, or by telephone at 301-415-1677, to request (1) a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a request or petition for hearing (even in instances in which the participant, or its counsel or representative, already holds an NRCissued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public Web site at http:// www.nrc.gov/site-help/e-submittals/ apply-certificates.html. System requirements for accessing the E-Submittal server are detailed in the NRC's "Guidance for Electronic Submission," which is available on the NRC's public Web site at http:// www.nrc.gov/site-help/esubmittals.html. Participants may attempt to use other software not listed on the Web site, but should note that the NRC's E-Filing system does not support unlisted software, and the NRC Meta System Help Desk will not be able to offer assistance in using unlisted software.

If a participant is electronically submitting a document to the NRC in accordance with the E-Filing rule, the participant must file the document using the NRC's online, Web-based submission form. In order to serve documents through the Electronic Information Exchange System, users will be required to install a Web browser plug-in from the NRC's Web site. Further information on the Webbased submission form, including the installation of the Web browser plug-in, is available on the NRC's public Web site at http://www.nrc.gov/site-help/esubmittals.html.

Once a participant has obtained a digital ID certificate and a docket has

been created, the participant can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with the NRC guidance available on the NRC's Web site at http://www.nrc.gov/site-help/esubmittals.html. A filing is considered complete at the time the documents are submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/ petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the agency's adjudicatory E-Filing system may seek assistance by contacting the NRC Meta System Help Desk through the "Contact Us" link located on the NRC's Web site at http://www.nrc.gov/site-help/e-submittals.html, by email at MSHD.Resource@nrc.gov, or by a toll-free call at 1–866–672–7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are

responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket which is available to the public at http:// ehd1.nrc.gov/ehd/, unless excluded pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

If a hearing is requested by the Licensee or a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held the issue to be considered at such hearing shall be whether this Order should be sustained.

Pursuant to 10 CFR 2.202(c)(2)(i), the Licensee may, in addition to requesting a hearing, at the time the answer is filed or sooner, move the presiding officer to set aside the immediate effectiveness of the Order on the ground that the Order, including the need for immediate effectiveness, is not based on adequate evidence but on mere suspicion, unfounded allegations, or error.

In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section III above shall be final twenty (20) days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section III shall be final when the extension expires if a hearing request has not been received. An answer or a request for hearing shall not stay the immediate effectiveness of this order.

Dated this 16th day of August 2013. For the Nuclear Regulatory Commission.

Mark A. Satorius,

Director, Office of Federal and State Materials and Environmental Management Programs.

Attachment 1: List of Licensees— Redacted

Attachment 2: Compensatory Measures for Panoramic and Underwater Irradiator Licensees Revision 2

These compensatory measures (CMs) are established to delineate licensee responsibility in response to the current threat environment in the aftermath of the terrorist attacks of September 11, 2001. The following security measures apply to Licensees who, now and in the future, possess greater than 370 TeraBecquerels (TBq) [10,000 Ci] of byproduct material in the form of sealed sources in panoramic irradiators that have dry or wet storage of the sealed sources, or in underwater irradiators in which both the source and the product being irradiated are underwater.

 Use and store the radioactive material only within a security zone that isolates the material from unauthorized access and facilitates detection if such access occurs. The security zone is an area, defined by the licensee that provides for both isolation of radioactive material and access control. The licensee must demonstrate for this area a means to detect any attempt of unauthorized access to licensed material. "Isolation" means to deter persons, materials, or vehicles from entering or leaving through other than established access control points. "Access control" means to allow only approved individuals into the security zone. Thus, isolation and access control aid in the detection of unauthorized access or activities deemed by the licensee to be indicative of, or contributory to, the loss, theft, or release of material. The security zone does not have to be the same as the restricted area or controlled area, as defined in 10 CFR Part 20. Security zones can be permanent or temporary to meet transitory or intermittent business activities (such as during periods of maintenance, source delivery and source replacement). Different isolation/ access control measures may be used for periods during which the security zone is occupied versus unoccupied.

2. Continuously control access to the security zone and limit admittance to those individuals who are approved and require access to perform their duties.

A. For individuals granted access to safeguards information or unescorted access to the security zone, Licensees must provide reasonable assurance that individuals are trustworthy and reliable, and do not constitute an unreasonable risk to the common defense and security. "Access" means that an individual could exercise some physical control over the material or device containing radioactive material.

i. The trustworthiness and reliability of individuals shall be determined based on a background investigation. The background investigation shall address at least the past 3 years and, as a minimum, include fingerprinting and a Federal Bureau of Investigation (FBI) criminal history check, verification of work or education references as appropriate to the length of employment, and confirmation of eligibility for employment in the United States.

ii. Fingerprints shall be submitted and reviewed in accordance with the procedures described in Attachment 3 to this Order.

iii. A reviewing official that the licensee nominated and has been approved by the NRC, in accordance with NRC "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information," may continue to make trustworthiness and reliability determinations. The licensee may also nominate another individual specifically for making unescorted access determinations using the process identified in the NRC "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information.'

B. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

3. Implement a system (i.e., devices and/or trained individuals) to monitor, detect, assess and respond to unauthorized entries into or activities in the security zone.

A. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

B. Provide enhanced security measures when temporary security zones are established, during periods of maintenance, source delivery and shipment, and source replacement, that will provide additional assurance for enhanced detection and assessment of and response to unauthorized individuals or activities involving the radioactive material. Such security measures shall include, but not be limited to:

i. Advanced notification to the local law enforcement agency (LLEA) for radioactive source exchanges, deliveries, and shipments.

ii. For shipments of sources, establish a positive means of transferring the

security responsibility, between the shipper/carrier and the consignee (receiver), for communicating with the LLEA.

C. Provide a positive measure to validate that there has been no unauthorized removal of the radioactive material from the security zone.

D. Maintain continuous communications capability among the various components for intrusion detection and assessment to bring about a timely response.

E. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

4. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

Attachment 3: Requirements for Fingerprinting and Criminal History Checks of Individuals When Licensee's Reviewing Official Is Determining Access to Safeguards Information or Unescorted Access to the Panoramic or Underwater Irradiator Sealed Sources

General Requirements

Licensees shall comply with the following requirements of this attachment.

- 1. Each Licensee subject to the provisions of this attachment shall fingerprint each individual who is seeking or permitted access to safeguards information (SGI) or unescorted access to the panoramic or underwater irradiator sealed sources. The Licensee shall review and use the information received from the Federal Bureau of Investigation (FBI) and ensure that the provisions contained in the subject Order and this attachment are satisfied.
- 2. The Licensee shall notify each affected individual that the fingerprints will be used to secure a review of his/her criminal history record and inform the individual of the procedures for revising the record or including an explanation in the record, as specified in the "Right to Correct and Complete Information" section of this attachment.
- 3. Fingerprints for access to SGI or unescorted access need not be taken if an employed individual (e.g., a Licensee employee, contractor, manufacturer, or supplier) is relieved from the fingerprinting requirement by 10 CFR 73.59 for access to SGI or 10 CFR 73.61 for unescorted access, has a favorably-decided U.S. Government criminal history check (e.g. National Agency Check, Transportation Worker Identification Credentials in accordance with 49 CFR Part 1572, Bureau of Alcohol Tobacco Firearms and Explosives background checks and

clearances in accordance with 27 CFR Part 555, Health and Human Services security risk assessments for possession and use of select agents and toxins in accordance with 27 CFR Part 555, Hazardous Material security threat assessments for hazardous material endorsement to commercial drivers license in accordance with 49 CFR Part 1572, Customs and Border Patrol's Free and Secure Trace Program 1) within the last five (5) years, or has an active federal security clearance. Written confirmation from the Agency/employer which granted the federal security clearance or reviewed the criminal history check must be provided for either of the latter two cases. The Licensee must retain this documentation for a period of three (3) vears from the date the individual no longer requires access to SGI or unescorted access to radioactive materials associated with the Licensee's activities.

- 4. All fingerprints obtained by the Licensee pursuant to this Order must be submitted to the Commission for transmission to the FBI.
- 5. The Licensee shall review the information received from the FBI and consider it, in conjunction with the trustworthiness and reliability requirements of this Order, in making a determination whether to grant, or continue to allow, access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources.
- 6. The Licensee shall use any information obtained as part of a criminal history records check solely for the purpose of determining an individual's suitability for access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources.
- 7. The Licensee shall document the basis for its determination whether to grant, or continue to allow, access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources.

Prohibitions

A Licensee shall not base a final determination to deny an individual access to radioactive materials solely on the basis of information received from the FBI involving an arrest more than one (1) year old for which there is no information of the disposition of the

case, or an arrest that resulted in dismissal of the charge or an acquittal.

A Licensee shall not use information received from a criminal history check obtained pursuant to this Order in a manner that would infringe upon the rights of any individual under the First Amendment to the Constitution of the United States, nor shall the Licensee use the information in any way which would discriminate among individuals on the basis of race, religion, national origin, sex, or age.

Procedures for Processing Fingerprint Checks

For the purpose of complying with this Order, Licensees shall, using an appropriate method listed in 10 CFR 73.4, submit to the NRC's Division of Facilities and Security, Mail Stop T-03B46M, one completed, legible standard fingerprint card (Form FD-258, ORIMDNRCOOOZ) or, where practicable, other fingerprint records for each individual seeking access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources, to the Director of the Division of Facilities and Security, marked for the attention of the Division's Criminal History Check Section. Copies of these forms may be obtained by writing the Office of Information Services, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by calling (301) 415-7232, or by email to forms@nrc.gov. Practicable alternative formats are set forth in 10 CFR 73.4. The Licensee shall establish procedures to ensure that the quality of the fingerprints taken results in minimizing the rejection rate of fingerprint cards due to illegible or incomplete cards.

The NRC will review submitted fingerprint cards for completeness. Any Form FD-258 fingerprint record containing omissions or evident errors will be returned to the Licensee for corrections. The fee for processing fingerprint checks includes one resubmission if the initial submission is returned by the FBI because the fingerprint impressions cannot be classified. The one free re-submission must have the FBI Transaction Control Number reflected on the re-submission. If additional submissions are necessary, they will be treated as initial submittals and will require a second payment of the processing fee.

Fees for processing fingerprint checks are due upon application (Note: other fees may apply to obtain fingerprints from your local law enforcement agency). Licensees should submit payments electronically via https://www.pay.gov. Payments through Pay.gov can be made directly from the

Licensee's credit/debit card. Licensees will need to establish a password and user ID before they can access Pay.gov. To establish an account, Licensee requests must be sent to paygo@nrc.gov. The request must include the Licensee's name, address, point of contact, email address, and phone number. The NRC will forward each request to Pay.gov and someone from Pay.gov will contact the Licensee with all of the necessary account information.

Licensees shall make payments for processing before submitting applications to the NRC. Combined payment for multiple applications is acceptable. Licensees shall include the Pay.gov payment receipt(s) along with the application(s). For additional guidance on making electronic payments, contact the Facilities Security Branch, Division of Facilities and Security, at (301) 415-7513. The application fee (currently \$26) is the sum of the user fee charged by the FBI for each fingerprint card or other fingerprint record submitted by the NRC on behalf of a Licensee, and an NRC processing fee, which covers administrative costs associated with NRC handling of Licensee fingerprint submissions.

The Commission will directly notify Licensees subject to this regulation of any fee changes.

The Commission will forward to the submitting Licensee all data received from the FBI as a result of the Licensee's application(s) for criminal history checks, including the FBI fingerprint record.

Right To Correct and Complete Information

Prior to any final adverse determination, the Licensee shall make available to the individual the contents of any criminal records obtained from the FBI for the purpose of assuring correct and complete information. Written confirmation by the individual of receipt of this notification must be maintained by the Licensee for a period of one (1) year from the date of the notification.

If, after reviewing the record, an individual believes that it is incorrect or incomplete in any respect and wishes to change, correct, or update the alleged deficiency, or to explain any matter in the record, the individual may initiate challenge procedures. These procedures include either direct application by the individual challenging the record to the agency (i.e., law enforcement agency) that contributed the questioned information, or direct challenge as to the accuracy or completeness of any entry on the criminal history record to the

¹ The FAST program is a cooperative effort between the Bureau of Customs and Border Patrol and the governments of Canada and Mexico to coordinate processes for the clearance of commercial shipments at the U.S.-Canada and U.S.-Mexico borders. Participants in the FAST program, which requires successful completion of a background records check, may receive expedited entrance privileges at the northern and southern

Assistant Director, Federal Bureau of Investigation Identification Division, Washington, DC 20537–9700 (as set forth in 28 CFR Part 16.30 through 16.34). In the latter case, the FBI forwards the challenge to the agency that submitted the data and requests that agency to verify or correct the challenged entry. Upon receipt of an official communication directly from the agency that contributed the original information, the FBI Identification Division makes any changes necessary in accordance with the information supplied by that agency. The Licensee must provide at least ten (10) days for an individual to initiate an action challenging the results of an FBI criminal history records check after the record is made available for his/her review. The Licensee may make a final determination on access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources based upon the criminal history record only upon receipt of the FBI's ultimate confirmation or correction of the record. Upon a final adverse determination on access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources, the Licensee shall provide the individual its documented basis for denial. Access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources shall not be granted to an individual during the review process.

Protection of Information

- 1. Each Licensee who obtains a criminal history record on an individual pursuant to this Order shall establish and maintain a system of files and procedures for protecting the record and the personal information from unauthorized disclosure.
- 2. The Licensee may not disclose the record or personal information collected and maintained to persons other than the subject individual, his/her representative, or to those who have a need to access the information in performing assigned duties in the process of determining access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources. No individual authorized to have access to the information may re-disseminate the information to any other individual who does not have a need-to-know.
- 3. The personal information obtained on an individual from a criminal history record check may be transferred to another Licensee if the Licensee holding the criminal history record receives the individual's written request to redisseminate the information contained in his/her file, and the gaining Licensee verifies information such as the

individual's name, date of birth, social security number, sex, and other applicable physical characteristics for identification purposes.

4. The Licensee shall make criminal history records, obtained under this section, available for examination by an authorized representative of the NRC to determine compliance with the regulations and laws.

5. The Licensee shall retain all fingerprint and criminal history records received from the FBI, or a copy if the individual's file has been transferred, for three (3) years after termination of employment or denial to access SGI or unescorted access to the panoramic or underwater irradiator sealed sources. After the required three (3) year period, these documents shall be destroyed by a method that will prevent reconstruction of the information in whole or in part.

SECURITIES AND EXCHANGE COMMISSION

[Release No. IC-30683]

Notice of Applications for Deregistration Under the Investment Company Act of 1940

August 30, 2013.

The following is a notice of applications for deregistration under section 8(f) of the Investment Company Act of 1940 for the month of August 2013. A copy of each application may be obtained via the Commission's Web site by searching for the file number, or for an applicant using the Company name box, at http://www.sec.gov/search/ search.htm or by calling (202) 551-8090. An order granting each application will be issued unless the SEC orders a hearing. Interested persons may request a hearing on any application by writing to the SEC's Secretary at the address below and serving the relevant applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on September 24, 2013, and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Secretary, U.S. Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090.

FOR FURTHER INFORMATION CONTACT:

Diane L. Titus at (202) 551–6810, SEC, Division of Investment Management, Exemptive Applications Office, 100 F Street NE., Washington, DC 20549– 8010.

Morgan Stanley Frontier Emerging Markets Fund, Inc. [File No. 811– 22202]

Summary: Applicant, a closed-end investment company, seeks an order declaring that it has ceased to be an investment company. Applicant transferred its assets to Frontier Emerging Markets Portfolio, a series of Morgan Stanley Institutional Fund, Inc. and, on September 17, 2012, made a final distribution to its shareholders based on net asset value. Expenses of \$135,070 incurred in connection with the reorganization were paid by applicant.

Filing Dates: The application was filed on May 21, 2013, and amended on

July 26, 2013.

Applicant's Address: c/o Morgan Stanley Investment Management Inc., 522 Fifth Ave., New York, NY 10036.

Clarity Fund, Inc. [File No. 811-22372]

Summary: Applicant seeks an order declaring that it has ceased to be an investment company. On July 11, 2013, applicant made a liquidating distribution to its shareholders, based on net asset value. Expenses of \$5,125 incurred in connection with the liquidation were paid by applicant.

Filing Dates: The application was filed on July 15, 2013, and amended on

July 26, 2013.

Applicant's Address: 2001 Westown Parkway, Suite 110, West Des Moines, IA 50265.

Malaysia Fund, Inc. [File No. 811-5082]

Summary: Applicant, a closed-end investment company, seeks an order declaring that it has ceased to be an investment company. On August 17, 2012, applicant made a liquidating distribution to its shareholders, based on net asset value. Applicant states that it has transferred approximately \$13,326 to Computershare, applicant's transfer agent, representing amounts owed to shareholders whose current addresses are unknown or who have not cashed distribution checks. Applicant represents that Computershare will continue attempting to contact the outstanding shareholders for the period specified by state law. Expenses of \$70,086 incurred in connection with the liquidation were paid by applicant.

Filing Dates: The application was filed on May 21, 2013, and amended on

July 26, 2013.
