SUPPLEMENTARY INFORMATION:

Introduction

The Elementary and Secondary Education Act (ESEA) of 1965, as amended, holds States accountable for closing achievement gaps and ensuring that all children, including children with limited English proficiency, meet the same challenging academic and achievement standards all students are

expected to meet. To this end, Title III of the ESEA requires States to develop English language proficiency (ELP) standards that are aligned with challenging State academic content and student academic achievement standards. States must also develop and administer ELP assessments that are aligned with those standards, and must develop annual measurable achievement objectives (AMAOs) for English language proficiency.

To support EL student achievement, States, school districts and schools need information on effective EL instruction, assessment, and professional development practices that is informed by data from current research. With this RFI we seek to gather information on the evaluation and research studies needs of the field, which may include the needs of administrators, teachers, teacher trainers, researchers, and other members of the English learner community. The Department anticipates making use of this information to inform the development of our evaluation and research agenda in the coming years and to guide future evaluation and research studies addressing the needs of ELs.

Information on Department studies related to the needs of English learners is posted on the following Web site: <http://www.ncela.gwu.edu/edpubs/>.

Once we receive responses to this RFI, the Department will summarize the recommendations made by the public and post that summary on the Office of English Language Acquisition, Language Enhancement, and Academic Achievement for Limited English Proficient Students (OELA) and the National Clearinghouse for English Language Acquisition (NCELA) Web sites for viewing. We will use the information received through this RFI to develop an agenda for evaluation and research studies that we will also publish on the OELA and NCELA Web sites.

Context for Responses

The primary goal of this RFI is to gather information that will help shape the Department's evaluation and research studies agenda.

We have developed a question with topic areas. We request information about evaluation and research studies that would be most helpful in shaping the Department's evaluation and research agenda. You do not have to respond to each topic area included in the question; however, it would be helpful if you would elaborate on each topic you choose to address. You may provide comments in any convenient format, and you may also provide relevant information that is not directly

responsive to a particular topic but may, nevertheless, be helpful.

General Question Regarding potential evaluation and research studies.

In which of the following areas should the Department conduct new studies or conduct a review of the literature on existing studies?

a. Identification, screening, and assessment practices of ELs in general, or in particular, who are (1) Early learners, (2) students with disabilities, (3) secondary students, (4) students with interrupted formal education, or (5) other category of ELs.

b. Strategies for data collection, data analysis, and data-based decision-making with respect to EL assessment data.

c. The alignment of ELP standards with college- and career-ready standards and the alignment of ELP assessments with ELP standards, including assessments that are accessible to, and usable with, ELs with disabilities.

d. Key features of instruction for ELs that promote language acquisition, including academic language, social language, and content knowledge in various educational programs that provide instruction in English or in English and another language.

e. Technology-based instructional strategies that promote EL achievement.

f. Characteristics of professional development that prepares prospective teachers or currently practicing teachers who are language development specialists or content teachers of ELs to design and deliver instruction that promotes language acquisition and content knowledge.
