## Steel Threaded Rod from India: Postponement of Preliminary Determination of Countervailing Duty Investigation

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce

**DATES:** Effective Date: September 12, 2013.

## FOR FURTHER INFORMATION CONTACT:

Brooke Kennedy, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–3818.

## SUPPLEMENTARY INFORMATION:

## Background

On July 17, 2013, the Department of Commerce ("the Department") initiated a countervailing duty investigation on steel threaded rod from India.¹ The current deadline for the preliminary determination of this investigation is no later than September 20, 2013.

# Postponement of Preliminary Determination

Section 703(b)(1) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the preliminary determination in a countervailing duty investigation within 65 days after the date on which the Department initiated the investigation. However, if the Department concludes that the parties concerned are cooperating and determines that the case is extraordinarily complicated and that

additional time is necessary to make the preliminary determination, section 703(c)(1)(B) of the Act allows the Department to postpone making the preliminary determination until no later than 130 days after the date on which the administering authority initiated the investigation. We have concluded that the parties concerned are cooperating and that the case is extraordinarily complicated due to the complexity of the alleged subsidy programs, such that we need more time to make the preliminary determination. Specifically, the analysis of two of the alleged subsidy programs will involve not only the usual consideration of financial contribution and specificity, but will also involve the more complex consideration of whether the program has been terminated and, if so, whether there are any residual benefits. In addition, any analysis of the National Manufacturing Competitiveness Program—Marketing Assistance Scheme is likely to be complex as the program allegedly provides for a variety of subsidies including grants for rental space, freight charges, airfare and advertising. The deadline for completion of the preliminary determination is now November 25, 2013.2

We also note that, on September 3, 2013, All America Threaded Products Inc., Bay Standard Manufacturing Inc., and Vulcan Threaded Products Inc., the petitioners in this investigation, requested that the deadline for the preliminary determination be postponed to 130 days from the date of initiation in accordance with 19 CFR 351.205(b)(2). This notice is issued and published pursuant to section 703(c)(2) of the Act. <sup>3</sup>

September 6, 2013.

## Paul Piquado,

Assistant Secretary for Import Administration.

## National Oceanic and Atmospheric Administration

RIN 0648-XC859

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Shrimp Fisheries of the Gulf of Mexico and Southern Atlantic States

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of receipt of an application for an exempted fishing permit; request for comments.

**SUMMARY:** NMFS announces the receipt of an application for an exempted fishing permit (EFP) from the Gulf and South Atlantic Fisheries Foundation, Inc (Foundation). If granted, the EFP would authorize the applicant, with certain conditions, to collect and retain limited numbers of specimens that would otherwise be prohibited from possession and retention. This study, to be conducted in the exclusive economic zone (EEZ) of the Gulf of Mexico (Gulf) and South Atlantic, is intended to characterize catch and bycatch within the shrimp fisheries of the Gulf and South Atlantic.

**DATES:** Comments must be received on or before October 15, 2013.

**ADDRESSES:** You may submit comments, identified by "NOAA-NMFS-2013-0141", by any of the following methods:

- Electronic Submission: Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2013-0141, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.
- *Mail:* Submit written comments to Susan Gerhart, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/ A" in the required fields if you wish to

<sup>&</sup>lt;sup>1</sup> See Steel Threaded Rod From India: Initiation of Countervailing Duty Investigation, 78 FR 44532 (July 24, 2013).

<sup>&</sup>lt;sup>2</sup> As the actual due date of November 24, 2013 falls on a weekend, the preliminary determination is due the next business day, *i.e.*, November 25, 2013. See Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to Tariff Act of 1930, As Amended, 70 FR 24533 (May 10, 2005).

<sup>&</sup>lt;sup>3</sup> We acknowledge that the Department inadvertently did not notify the parties to this investigation of this postponement within the timeframe provided in section 703(c)(2) of the Act.

remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

**FOR FURTHER INFORMATION CONTACT:** Susan Gerhart, 727–824–5305; email: *Susan.Gerhart@noaa.gov.* 

**SUPPLEMENTARY INFORMATION:** The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and regulations at 50 CFR 600.745(b) concerning exempted fishing.

The applicant proposes research as part of the Cooperative Research Program, which is intended to involve commercial fishermen in the collection of fundamental fisheries information. The described research is part of a long-term observer program that began in 1992, and that can be expected to continue in the future. Resource collection efforts support the development and evaluation of fisheries management and regulatory options.

The EFP would exempt the activities described herein from regulations at 50 CFR part 622, as they affect fish and invertebrates managed by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils). The EFP covers these Council-managed species that may be taken during standard fishing activities of the commercial shrimp fishery of the southeast United States. The EFP would exempt personnel from the Foundation from fishery regulations such as bag limits, size limits, quotas, seasonal restrictions, and gear authorizations as specified in 50 CFR part 622, Subparts A through R for reef fish, red drum, coastal migratory pelagics, and spiny lobster in the Gulf of Mexico, and snapper-grouper, coastal migratory pelagics, dolphin and wahoo, and spiny lobster in the South Atlantic.

The EFP would authorize Foundation observers aboard commercial shrimp vessels to temporarily possess all necessary specimens from the catch for documentation and to permanently retain approximately 500 specimens of federally-managed finfishes and invertebrates that would otherwise be prohibited from possession and retention through December 31, 2018. The described research is part of a longterm observer program that began in 1992, and that can be expected to continue in the future, therefore, the 5year time period for the EFP is appropriate for this research effort. Specimens would be collected from Federal waters of the Gulf and South Atlantic, and sampling would occur during normal fishing operations of the

trawl gear component of the penaeid shrimp commercial sector. Sampling would occur year-round. These species would be retained only in the event of the need for subsequent shore-side identification or as documentation of quality assurance in the data collection process. Data collection for this study would support improved information about the catch, bycatch, discards, and the ability to reduce by catch for species taken by the shrimp fisheries of the Gulf and South Atlantic. These data would provide insight on a stock's resilience to fishing, and would help improve estimates of long-term biological productivity of the stocks. Currently, these data are unavailable, and it is anticipated that project results will vield valuable data within these fisheries.

NMFS finds this application warrants further consideration. Based on a preliminary review, NMFS intends to issue an EFP. The limited sampling program and associated methodology listed in the EFP is not expected to impact the fishery stocks; the estimated 500 specimens to be retained through the duration of the EFP represents a small fraction of average annual landings.

Conditions the agency will impose on this permit, if it is granted, include but are not limited to, a prohibition of conducting research within marine protected areas, marine sanctuaries, or special management zones, without additional authorization. Additionally, NMFS will prohibit the possession of Nassau or goliath grouper, and require any sea turtles taken incidentally during the course of fishing or scientific research activities to be handled with due care to prevent injury to live specimens, observed for activity, and returned to the water. All Foundationassociated personnel who conduct onboard sampling activities have undergone formal sea turtle handling training through NMFS, and are considered NMFS-designated agents while conducting work under the identified Cooperative Agreements.

A final decision on issuance of the EFP will depend on a NMFS review of public comments received on the application, consultations with the affected states, the Councils, and the U.S. Coast Guard, and a determination that the EFP is consistent with all applicable laws.

Authority: 16 U.S.C. 1801 et seq.

Dated: September 9, 2013.

#### James P. Burgess,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service. [FR Doc. 2013–22215 Filed 9–11–13; 8:45 am]
