

Land Policy and Management Act of 1976, as amended, the BLM, as lead agency, and Reclamation and Western, as cooperating agencies, prepared the Draft Environmental Impact Statement (EIS) that was published in the **Federal Register** on April 27, 2012, (77 FR 25165). Subsequently, the agencies held public meetings on the document in the communities of Kingman, Peach Springs, White Hills, and Dolan Springs, Arizona. The Final EIS was published on May 17, 2013, (78 FR 29131). The National Park Service, the Arizona Game and Fish Department, Mohave County, and the Hualapai Tribe were also cooperating agencies.

The No Action Alternative and four action alternatives were analyzed in the Final EIS. The proposed action, Alternative A, called for the use of approximately 38,099 acres of BLM-managed land and 8,960 acres of Reclamation-administered land. Alternative B would require approximately 30,872 acres of BLM-managed land and 3,848 acres of Reclamation-administered land. Alternative C called for the use of 30,178 acres of BLM-managed land and approximately 5,124 acres of Reclamation-administered land. Alternative E would require approximately 35,329 acres of BLM-managed land and 2,781 acres of Reclamation-administered land. Alternative E is BLM's and Reclamation's preferred alternative and represents a combination of Alternatives A and B.

It is the decision of the BLM and Reclamation to approve Alternative E, including associated infrastructure and a switching station, and issue ROW grant and ROU contract, respectively, across Federal lands for the construction, operation, maintenance, and decommissioning of the Project to BP Wind Energy; and for the BLM to issue a ROW grant to Western for the construction, operation, and maintenance of a switching station, subject to terms and conditions of the ROW grants and ROU contract, plan of development, and mitigation measures. Full implementation of this decision is contingent upon BP Wind Energy and Western obtaining all applicable permits and approvals. This decision is based on the information contained in the Draft and Final EIS.

Because this decision is approved by the Acting Assistant Secretary for Land and Minerals Management, it is not subject to administrative appeal (43 CFR 4.5 and 4.410(a)(3)).
