

to downtown Los Angeles while maintaining existing levels of flood risk management. Restoration includes creation and reestablishment of historic riparian strand and freshwater marsh habitat to support increased populations of wildlife and enhance habitat connectivity within the study area, as well as to provide opportunities for connectivity to ecological zones such as the Santa Monica Mountains, Verdugo Hills, Elysian Hills, and San Gabriel Mountains. Restoration also includes the reintroduction of ecological and physical processes such as a more natural hydrologic and hydraulic regime that reconnects the river to historic floodplains and tributaries, reduced flow velocities, increased infiltration, improved natural sediment processes, and improved water quality. The study also evaluates opportunities for passive recreation that is compatible with the restored environment. A Notice of Intent for the EIS/EIR was published on November 28, 2008 (73 FR 72455).

DATES: The Draft IFR is available for a 45-day review period from September 20, 2013 through November 5, 2013 pursuant to the National Environmental Policy Act (NEPA) and California Environmental Quality Act (CEQA). Written comments pursuant to the NEPA will be accepted until the close of public review at close of business on November 5, 2013.

ADDRESSES: Questions or comments concerning the Draft IFR may be directed to: Josephine R. Axt, Ph.D.; Chief, Planning Division; U.S. Army Corps of Engineers; Los Angeles District; P.O. Box 532711; ATTN: Ms. Erin Jones, CESPL-PD-RN; Los Angeles, CA 90053-2325 or comments.lariverstudy@usace.army.mil.

FOR FURTHER INFORMATION CONTACT: Ms. Kathleen Bergmann, U.S. Army Corps of Engineers, Los Angeles District, Kathleen.M.Bergmann@usace.army.mil and Ms. Erin Jones, U.S. Army Corps of Engineers, Los Angeles District, Erin.L.Jones@usace.army.mil.

SUPPLEMENTARY INFORMATION: As part of the public involvement process, notice is hereby given by the Corps Los Angeles District of a public meeting to be held at the Los Angeles River Center and Gardens (Atrium), 570 West Avenue 26, Los Angeles, CA 90065 from 5:30 p.m. to 7:30 p.m. on Thursday, October 17, 2013. The public meeting will allow participants the opportunity to comment on the IFR. Attendance at the public hearing is not necessary to provide comments. Written comments may also be given to the contacts listed under **ADDRESSES**.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Filings Instituting Proceedings

Docket Numbers: RP13-1323-000.
Applicants: Questar Pipeline Company.
Description: QPC Statement of Rates to be effective 8/10/2013.
Filed Date: 9/11/13.
Accession Number: 20130911-5097.
Comments Due: 5 p.m. ET 9/23/13.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

Filings in Existing Proceedings

Docket Numbers: RP13-1223-002.
Applicants: National Fuel Gas Supply Corporation.

Description: Errata—ACA 2013—RP13-1223 to be effective 10/1/2013.

Filed Date: 9/11/13.

Accession Number: 20130911-5049.

Comments Due: 5 p.m. ET 9/18/13.

Any person desiring to protest in any of the above proceedings must file in accordance with Rule 211 of the Commission's Regulations (18 CFR 385.211) on or before 5:00 p.m. Eastern time on the specified comment date.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: September 12, 2013.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP13-83-000]

Arlington Storage Company, LLC; Notice of Availability of the Environmental Assessment for the Proposed Gallery 2 Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Gallery 2 Expansion Project, proposed by Arlington Storage Company, LLC (Arlington) in the above-referenced docket. Arlington requests authorization to convert two existing salt caverns, known as Gallery 2, to natural gas storage at its Seneca Lake Storage facility in Schuyler County, New York. The conversion of the Gallery 2 caverns to natural gas storage would add 0.55 billion cubic feet (Bcf) of working gas capacity, and 0.20 Bcf of base gas capacity to the Seneca Lake Storage facility, increasing the total working gas capacity from 1.45 Bcf to 2.0 Bcf.

The EA assesses the potential environmental effects of the construction and operation of the Gallery 2 Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA) of 1969. The FERC staff concludes that approval of the proposed

project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The New York State Department of Environmental Conservation participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

In addition to the two existing salt caverns previously used for liquefied petroleum gas (LPG) storage, the proposed Gallery 2 Expansion Project includes the following facilities:

- Approximately 500 feet of pipeline (170 feet of 16-inch-diameter and 330 feet of 8-inch-diameter pipeline) to connect the Gallery 2 injection/withdrawal wells 30A and 31A to Arlington's existing Seneca Lake 16-inch-diameter natural gas pipeline;
- A 500 horsepower skid-mounted compressor unit;
- Use of well no. 45 for debrining and future monitoring of the caverns;
- A temporary brine pump and temporary brine pipelines;
- Electric and instrument air lines connecting the Gallery 2 facilities to Arlington's existing Compressor Station; and
- Plugging and abandonment of two existing wells (30 and 31) formerly used in the Gallery 2 caverns' brine production and liquefied petroleum gas storage operation.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to

making its decision on this project, it is important that we receive your comments in Washington, DC on or before October 15, 2013.

For your convenience, there are three methods you can use to file your comments with the Commission. In all instances please reference the project docket number CP13-83-000 with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at 202-502-8258 or efiling@ferc.gov.

(1) You can file your comments electronically using the eComment feature located on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).¹ Only intervenors have the right to seek rehearing of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket

¹ See the previous discussion on the methods for filing comments.

number excluding the last three digits in the Docket Number field (i.e., CP13-83). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submissions in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/esubscribenow.htm.

Dated: September 13, 2013.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF13-16-000]

Algonquin Gas Transmission, LLC; Notice of Intent To Prepare An Environmental Impact Statement for the Planned Algonquin Incremental Market Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the Algonquin Incremental Market Project (AIM Project or Project) involving construction and operation of facilities by Algonquin Gas Transmission, LLC (Algonquin), an indirect, wholly-owned subsidiary of Spectra Energy Corp, in New York, Connecticut, Rhode Island, and Massachusetts. The Commission will use this EIS in its decision-making process to determine whether the Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the Project. Your input will help the Commission staff determine what issues they need to
